Portland, OR 97218  
*Sent via email only*

Jennifer Garcia,

DEQ received the Level 3 Cleaner Air Oregon (CAO) Risk Assessment for the Hydro Extrusion Portland, Inc. (Hydro) facility located in Portland, OR on May 30, 2023. DEQ approves the Level 3 Risk Assessment for this facility. The resulting Chronic Noncancer Risk of a Hazard Index of 2 exceeds the Community Engagement Risk Action Level (RAL) for existing sources. [[OAR 340-245-8010 Table 1](#)] This means that formal community engagement is required under the CAO program and that Source Risk Limits are required in the permit to limit risk from Toxic Air Contaminant emissions from this facility.

The next step in this process is to submit a completed [AQ501 CAO Permit Application Form](#), along with the required fees for the “Level 3 Risk Assessment – not de minimis” for a Standard ACDP source of **\$11,300**, the “Community Engagement Meeting Fee – low” of **\$1,000** and the “Source Test Review Fee – simple” of **\$1,400**. [[OAR 340-216-8030 Table 3](#)] This form and fees must be submitted 30 days from the issuance of this letter, by no later than **November 3, 2023**.

If you have any questions, please contact me directly at 503.869.0054, or [Thomas.Rhodes@deq.oregon.gov](mailto:Thomas.Rhodes@deq.oregon.gov). I look forward to your continued assistance with this process.

Sincerely,

*Thomas Rhodes*

Thomas Rhodes  
CAO Source Test Coordinator
