LTD Board Work Session and Special Meeting December 13, 2023 Page 15 of 67

#### AGENDA ITEM SUMMARY

**DATE OF MEETING:** December 13, 2023

ITEM TITLE: RIDESOURCE PASSENGER PORTAL

PRESENTER: John Ahlen, Accessible Services Program Manager

CHIEF OFFICER: Cosette Rees, Chief Customer Experience Officer

**ACTION REQUESTED:** None. Information Only

PURPOSE: Provide the Board with an introduction to the RideSource Passenger Portal.

**<u>DESCRIPTION</u>**: This presentation aligns with our adopted values, in particular innovation as we implement new techniques and programs to provide a positive rider experience.

**BACKGROUND:** Prior to 2023, RideSource riders have been required to contact the RideSource Call Center to schedule their rides. Beginning this year, Lane Transit District (LTD) introduced the RideSource Passenger Portal, which allows riders to schedule their ADA Paratransit and NEMT rides through an online platform. Members can schedule their ride requests, make changes to their scheduled trips, cancel rides, and review ETAs for scheduled vehicles through the Passenger Portal. Rides scheduled on our internal fleet can be tracked by their riders in real time, and trip reminders and notifications can be sent via text, e-mail, or phone. This service is particularly valuable for members who prefer a technology centered solution for their ride scheduling, or whose disabilities make it challenging to schedule their trips using the Call Center. While this service is quite new, LTD anticipates that booking rides online will become an increasingly popular option for RideSource members in the future. In addition to being easy to use for riders, online trip scheduling also reduces strain on the Call Center and reduces wait times when someone does need to speak with a call center representative.

RideSource members can access the Passenger Portal on the LTD website (<a href="https://www.ltd.org/RSPortal">https://www.ltd.org/RSPortal</a>/). This page also provides a video that shows members how to use the Passenger Portal.

A presentation will be provided to explain this topic in further detail and provide a demonstration of the Passenger Portal.

**PURPOSE**: To authorize the General Manager to execute a new contract with Les Schwab Warehouse Center for the facilitation of on-demand purchases of new Bus Tires and Tires Repair and Disposition Services to maintain and service the Lane Transit District (LTD) bus fleet.

**<u>DESCRIPTION</u>**: LTD's bus fleet relies on safety and quality, along with responsible spending to achieve this. The current contracts for bus tires and tire services are nearing the end of their contract terms. LTD Fleet Maintenance prepared their current data surrounding tire and service needs and requested a new procurement.

**BACKGROUND:** On September 13, 2023, Lane Transit District (LTD) released **Invitation for Bid (IFB) No. 2023-45** seeking bids from qualified firms capable of providing new bus tires and provide on-demand bus tire repair and disposition services for maintaining the LTD fleet. On October 11, 2023, bid responses were received from five (5) firms, shown in the bid tally table below. After a thorough review of the bids, Les Schwab Warehouse Center was identified as providing the lowest responsive and responsible bid meeting specifications for the identified tires and tires services. Prices were identified for estimated purchases for one year, and extended for up to five (5) years.

<u>CONSIDERATIONS</u>: The total contract value is not-to-exceed \$1,626,668.30. This purchase was included in our Capital Investment Plan (CIP) as part of our State of Good Repair Fleet Projects for Specialized Services Fleet Replacement. This project is covered from our operational funds.

#### **ALTERNATIVES:**

- 1. Deny the approval of the new contract and request team to re-solicit for this installation service. This would result in a delay of the purchase of new bus tires and tires repair and disposition services.
- 2. Deny the approval of the new contract and postpone the purchase of this installation service to a later date.

PREPARED BY: Eric Evers, Director of Fleet Management

CHIEF OFFICER: Cosette Rees, Chief Customer Experience Officer

ACTION REQUESTED: Adoption

PLEASE DISCLOSE ANY ACTUAL OR POTENTIAL CONFLICT OF INTEREST.

<u>PURPOSE</u>: To authorize the general manager to execute a contract with Gillig LLC for the purpose of purchasing up to thirty (30) 40' Diesel Heavy Duty Bus to be used for our fixed route service.

**<u>DESCRIPTION</u>**: Federal Transit Administration (FTA) considers heavy-duty buses to have a minimum useful life at 12-years or 500,000 miles. All vehicles identified to be replaced have already exceeded their minimum life and allowing for this purchase will ensure that vehicles get replaced on schedule to continue to provide service. Currently our EmX service provides approximately 40% of our overall ridership to our community.

**BACKGROUND**: Procurement has reviewed the current cooperative contracts, also previously successfully finding it meets the requirements and is in the best interest to utilize for this purchase.

The total contract value is up to \$19,800,000. This purchase was included in our Capital Investment Plan (CIP) as part of our State of Good Repair for our Ten-Year Fixed Route Fleet Replacement. This purchase has identified funding utilizing Statewide Transportation Improvement Funds and Urbanized Area Formula Funds (Section 5307).

<u>CONSIDERATIONS</u>: To provide continuing value, financially responsible, and trusted customer transportation through this purchase; timing is an important considering supply and market conditions as well as maximizing use of the funding prepared for this upcoming fiscal year.

#### **ALTERNATIVES:**

- 1. Deny the approval of the new contract and request team to solicit for these buses, not utilizing a cooperative. This would result in a delay of putting the bus into service and with the supply chain issues, it could also impact the delivery timeline substantially.
- 2. Deny the approval of the new contract and postpone the purchase of the bus to a later date.
