John Martin:

We received your letter on February 20, 2024 requesting termination of WPCF-IW-B03 Permit # 101438 because your facility is no longer in operation. You provided the required 2023 annual report and a closure report documenting completion of decommissioning activities for your wastewater system. DEQ has reviewed your submittals and approves of the request to terminate in accordance with OAR 340-045-0060(1)(b). Termination of this permit is effective February 23, 2024.

Please be aware that if you reestablish this facility at a later date, you will need to submit a new application and pay the appropriate fees to DEQ to obtain a new permit.

Thank you for updating us on the status of your operation. If you have any questions, please contact Justin Sterger at 541-714-0206 or justin.sterger@deq.oregon.gov

Thank you,
