RE: Termination of Permit Coverage - WPCF IW B20
File #: 96207
Permit #: 102852
Location: 6410 Highway 66, Klamath Falls, Oregon
Klamath County

Dear Mr. Hughes:

With the issuance of the final NPDES Permit #101086 on January 17, 2024, the WPCF permit #102852 issued to Collins Products LLC will be automatically terminated. Permitting rules provide that a permit is automatically terminated when DEQ issues a new permit for the same activity or operation. See OAR 340-045-0060(1)(a). Because NPDES Permit #101086 covers the same wastewater operations as were covered by the WPCF permit, the WPCF permit is automatically terminated with the effective date of the renewed NPDES permit on March 1, 2024.

The facility will need to submit the last DMR for the assigned WPCF permit by March 15th, 2024. If you have any questions about your renewed NPDES permit, please contact Justin.Sterger@deq.oregon.gov or 541-633-2016.

Sincerely,

Mike Hiatt
Water Quality Manager
Eastern Region
