RETURN RECEIPT REQUESTED

RE: Major modification to NPDES permit no. 101918

File no. 64500

EPA no. OR0029769

Facility: ODFW – McKenzie River Hatchery, 43863 Greer Drive., Leaburg

Lane County

DEQ has modified the Oregon Department of Fish and Wildlife's National Pollutant Discharge Elimination System permit no. 101918 to add a new requirement in schedule A for Outfall 001 flow. Additionally, DEQ updated the fact sheet to reflect operational changes for the hatchery.

The modification to the permit was considered major and subject to public notice as detailed in OAR 340-045-0055(2)(b).

Pursuant to OAR 340-045-055(4), this modification will become effective March 6, 2024, unless Oregon Department of Fish and Wildlife requests a hearing within 20 days. A request for a hearing must be made to the DEQ director in writing and state the grounds for the request. Any hearing will be conducted as a contested case hearing in accordance with ORS 183.413 through 183.470 and OAR 340-011. If a hearing is requested, the existing permit continues in effect until a final order is issued.

If you have any questions, please contact Brenda Kuiken at 503-893-0924 or brenda.kuiken@deq.oregon.gov. I may also be reached at 503-378-5081.

Sincerely,

Ranei Nomura
