Re: Cleaner Air Oregon Pre-Application Fee Form for Proposed New Pellet Mill

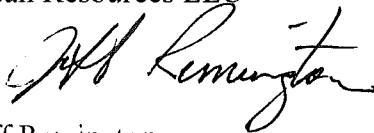

Dear Suzy Luttrell:

Dean Resources LLC (DRLLC) is proposing to construct a new pellet mill to be located at 620 Stearns Lane in Oakland, Oregon 97462. DRLLC will be required to obtain a new Standard Air Contaminant Discharge Permit prior to commencing construction of the proposed pellet mill, meaning DRLLC must comply with applicable requirements of the Cleaner Air Oregon (CAO) permitting program per Oregon Administrative Rule 340-245-0050(2).

DRLLC is submitting the attached CAO pre-application fee form to take the first step towards completing the CAO permitting process. DRLLC intends to submit the next step CAO process, the toxic air contaminant emissions inventory, and to submit the Standard Air Contaminant Discharge Permit application, shortly after submitting this letter and form. Please contact me (541-761-0533) after receiving this letter to schedule a meeting so we can make introductions and present an overview of the proposed pellet mill operation.

Sincerely,

Dean Resources LLC

Jeff Remington  
VP of Manufacturing
