**Re: Parcel P, North Ridge Estates Superfund Site, 3515 North Ridge Dr.
ECSI No. 2335**

Dear Eric & Lacey Conner;

Welcome to the North Ridge Estates neighborhood. Your property is located within the North Ridge Estates Superfund Site, Operable Unit 1 (NRE, OU1). The U.S. Environmental Protection Agency previously completed a \$42 million remedial action to address asbestos contamination from the improper demolition of the former Marine Recuperation Barrack complex previous located at the North Ridge Estates neighborhood.

The Department of Environmental Quality is responsible for overseeing the long term protectiveness of the cap installed throughout OU1. This includes routine inspections of the cap. The purpose of these inspections is to check on the integrity of the site wide cap, see what changes have been made, and where repairs may be needed. The cap is composed of many materials including vegetated soil, rock, pavement, concrete, etc.

*I would greatly appreciate if you would provide me with your **phone number(s)** and **email(s)** for inspection notification purposes.*

If you have any questions about the inspections, caps or future below grade work on your property, please contact me at 503-860-3943 or by email at Katie.Daugherty@deq.oregon.gov.

Sincerely,

Katie DAUGHERTY
