Terry Mahr, City Attorney	P. O. Box 970	503 537 1248	nlegal@ci.newberg.or.us

The mission of the Task Force was reviewed and was stated as follows:

1. Review, revise, prioritize and recommend the specific projects to be built to improve the transportation system. Determine if the community supports the identified projects.
2. Review, revise and recommend funding solutions, if any, that will be used to pay for the transportation system improvements identified on the priority list, including a time-line for completing the projects. Determine if the community would support funding the projects.
3. Provide a report to the City Council within four (4) months from the date of the first meeting of the task force.

Cole reviewed the projects from the transportation system plan including the various sources of funds identified to pay to build the projects. The street standards were discussed with regard to what would be built on Mountainview between Villa Road and College Street. There was a discussion of a alternative modes including rail and bus transportation. The Committee requested that the staff see about having a presentation by the O.D.O.T. rail person and possible a resource on buses.

Mary Brillas said she would bring information on the bus system operation. This might be linked with a presentation by Tri-Met. The Committee discussed bus linkages to the surrounding cities.

The Committee discussed bringing to the next meeting the top 5 to 10 projects the City might fund during the coming years. There was a review of potential funding mechanisms and the Committee requested a more thorough review at the next or an ensuing meeting. The Committee decided to hold meetings every two weeks on March 13 and March 27.

The meeting adjourned at 8:20 p.m.
