RE: Termination of Permit Coverage # 101223 WPCF OS
File #: 106736
Location: McNary Lock & Dam, below McNary Dam, Umatilla
Umatilla County

Matthew:

We received your request on February 28, 2024 for termination of Water Pollution Control Facilities #101223 WPCF OS permit coverage because your facility no longer needs coverage provided by the permit as you have connected to the city sewer and the tank has been decommissioned. Termination of this permit coverage is effective April 22, 2024.

Please be aware that if you reestablish this facility at a later date, you will need to submit a new application and pay the appropriate fees to DEQ to obtain a new permit.

Thank you for updating us on the status of your operation. If you have any questions, please contact inspector Connie.Schrandt@deq.oregon.gov . I may also be reached at 541-613-1125 if you have further concerns.

Sincerely,

Mike Hiatt
Water Quality Permitting Manager, Eastern Region
