RE: Termination of General 1400-B Permit Coverage
File no.116962
Location: Source Farms, 15713 Highway 47, Yamhill
Yamhill County

Dear Ms. Rosenberry,

We received your email on May 17, 2024 requesting termination of Water Pollution Control Facilities general 1400-B permit coverage because we received information from you that you produce less than 100 gal/day of process wastewater. Termination of this permit coverage is effective May 17, 2024. DEQ is canceling invoice no. WQ24IND-0749 on your behalf.

Please be aware that a permit is required if your operation starts to produce 100 gallons or more of wastewater a day. You will need to submit a new application and pay the appropriate fees to DEQ to obtain a new permit.

Thank you for updating us on the status of your operation. If you have any questions, please contact Jennifer Maglinte-Timbrook at jennifer.maglinte-timbrook@deq.oregon.gov or 541-743-1663. I may also be reached at 503-378-5081.

Sincerely,

Ranei Nomura
