**April 13<sup>th</sup>, 2021**

TO: Dan Huff, City Manager  
FROM: Andy Peters, Operations Supervisor  
CC: Gerald Fisher, Public Works Director

**RE: MEMORANDUM FOR RECORD Surplus – Biosolids Dredge Surplus**

The City of Molalla no longer has need for a floating dredge since (1) Lagoons will be converted to clean effluent storage during construction of the new Wastewater Plant, and (2) Molalla is not able to land apply aqueous biosolids between now and the construction of the new plant, which will include dewatering screw presses and haul-away options. This memorandum serves to document the City Manager's decision to declare this dredge surplus under Municipality Code 3.09.040), and the best value recovery option to be donation under paragraph G, Item 6: the City of Siletz, Oregon, has need of a small dredge at their Wastewater Treatment Facility. Representatives from Siletz will coordinate pickup and hauling before April 30<sup>th</sup>, 2021. No further costs to the City are anticipated.

Respectfully,

**Andy Peters**
