Website Posting

June 3rd, 2020

Based on information available at the time of required posting, the City violated its NPDES conditions for the month of May 2020 by not meeting the requirements of the RWUP in order to prevent out of season discharge to the Molalla River. The following conditions are reported:

- 05/30/20 Irrigation during rain events, surface water ponding observed.
- 05/22/30 Irrigation during rain events, surface water ponding observed.

Once the DMR is finalized, if there are any changes to the original posting, the City will provide an amended posting.
