Bill,

DEQ has reviewed the RAP Modification Tech Memo and approve the proposed modifications.

We have also reviewed the revised CQA table and OMMP attached to the RAP Modification Tech Memo. Those documents are approved subject to the clarification in our attached letter.

Please let me know if you have any questions and keep us in the loop as time of construction planning for this year firms up. It would be great to coordinate a site visit during construction for Dan and me.

Thanks,

Wes

Subject: Tech Memo Re. revisions to RA areas - Former Avison Mill #1

Hi Wes, attached is a Tech Memo presenting the proposed modification to the remedial action area footprints for the Former Avison Mill #1 Site, as was discussed during our virtual call on April 12, 2024. We are requesting DEQ review and formal approval of the proposed revision.

On a side note, we have an internal call tomorrow scheduled with the wetlands team to provide an update on the permit status. We will provide you an update on that as soon as we know more on the schedule and whether DEQ Cleanup assistance may be requested to expedite the approval process with the other involved agencies so we can keep on track of our objective of conducting the remedial action this season.

Thank you

Chris Kramer
Principal - Land Quality & Remediation
