Brandon Hadzinsky,

In a letter dated April 25, 2024 (the Information Request), DEQ formally requested supporting information and materials needed to complete the review of the Emissions Inventory submitted by Precision Castparts for their Large Parts Campus (PCC LPC) for the purposes of completing a risk assessment for the Cleaner Air Oregon (CAO) program – DEQ requested that this supplemental information be provided by June 24, 2024.

On May 28, 2024, PCC LPC requested an extension to provide part of the information requested by no later than July 26, 2024; specifically, Item 1 of the Information Request. Item 1 requests a proposal for revising emission estimates from baghouse and filter-controlled activities. PCC LPC anticipates meeting the June 24, 2024, deadline for Items 2 through 10 of the Information Request.

PCC LPC notes that they are subject to air quality reporting deadlines of July 1, 2024, for both Toxics Release Inventory reporting and Cleaner Air Oregon Air Toxics Inventory reporting. Additionally, both PCC LPC and their consultant have experienced turnover this year among staff who had previously been instrumental in the CAO process.

DEQ may grant an extension based on the criteria set in [OAR 340-245-0030\(3\)](#), which require sources to demonstrate progress towards completing the submittal and show that a delay is necessary for good cause. PCC LPC has demonstrated progress in responding to the Information Request by committing to respond to the majority of the requested items by the deadline. Further, DEQ agrees that a delay may be necessary in order for PCC LPC to complete the substantial review and analysis required to adequately respond to Item 1.

For these reasons, DEQ approves PCC LPC's extension request for Item 1 of the Information Request and grants a 31-day extension from the original submittal deadline of June 24, 2024. A response to Item 1 must be submitted by no later than **July 26, 2024**. Responses to Items 2-10 of the Information Request remain due on **June 24, 2024**.

Please contact me directly at 503.407.7596 or [heather.kuoppamaki@deq.oregon.gov](mailto:heather.kuoppamaki@deq.oregon.gov), if you have any questions regarding this extension or CAO submittal requirements. We look forward to your continued assistance with this process.

Sincerely,

A handwritten signature in black ink, appearing to read 'H. Kuoppamaki', with a stylized flourish at the end.

Heather Kuoppamaki  
DEQ CAO Project Engineer
