(A) Emergencies where there is an imminent threat of loss of life or severe injury;

(B) Emergencies where the public is potentially exposed to air-borne asbestos fibers; and

(C) Emergencies where significant property damage will occur if repairs are not made immediately.

(d) DEQ may waive the 10-day and the five-day notification requirement in section (2) of this rule for asbestos abatement projects that were not planned, resulted from unexpected events, and will cause damage to equipment or impose unreasonable financial burden if not performed immediately. This includes the non-routine failure of equipment.

(e) In either subsection (c) or (d) of this section persons responsible for such asbestos abatement projects must submit an emergency or unexpected event abatement request to DEQ before starting work or by 9:00 am of the next working day if the work was performed on a weekend, evening, or holiday. (f) The duration of an asbestos abatement notification may not exceed one year beyond the original starting date. The summary report must include the information specified in subsections (5)(i) through (5)(l) of this rule for each project.

(d) Provide to DEQ, upon request, a list of asbestos abatement projects that are scheduled or are being conducted at the time of the request.

(e) Submit project notification and fee prior to use of this notification procedure.

(f) Failure to provide payment for use of this notification procedure will void the notification and each subsequent abatement project will be individually assessed a project notification fee.

(4) Annual nonfriable asbestos abatement projects may only be performed at schools, colleges, and facilities where certified asbestos abatement workers perform the removal work. Submit the notification as follows:

(a) Establish eligibility for use of this notification procedure with DEQ prior to use.

(b) The notification must contain the information specified in subsections (5)(a) through (5)(i) of this rule to the extent possible.

The summary report must include the information specified in subsections (5)(i) through (5)(l) of this rule for each project.

(d) Submit project notification and fee before using this notification procedure.

(e) Failure to provide payment for use of this notification procedure will void the notification and DEQ will individually assess each subsequent nonfriable abatement project a project notification fee.

(5) The following information must be provided for each notification:

(9) Notification fee refunds. DEQ will consider a refunding a notification fee only as this section provides. A request for a refund of fees must be made in writing to DEQ, and must be submitted prior to the project's original start date. DEQ will not consider a refund request that does not include all required information described in this section. Requests for refunds must include the following written information and documentation:
