Ms. Katherine Tri  
Finance Director  
City of Newberg  
401 E. Third  
Newberg, Oregon 97132

Dear Ms. Tri:

At your request we have completed actuarial valuations of the City of Newberg Policemen and Firemen Retirement Plan and the City of Newberg General Employees Retirement Plan as of July 1, 1999. The results of the valuations are contained in the following report and summarized in Section 2.

In preparing our report, we relied without audit upon the employee and beneficiary data furnished us by the City and the financial statements provided by The Principal Financial Group. We believe the data to be sufficient and reliable for the purposes of our calculations.

On the basis of the foregoing, we hereby certify that, to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices which are consistent with the applicable Standards of Practice adopted by the Actuarial Standards Board of the American Academy of Actuaries. We further certify that, in our opinion, the actuarial assumptions used are reasonably related to the experience of the Plan and to reasonable expectations and represent our best estimate of anticipated experience under the Plan. Nevertheless, the emerging costs of the Plan will vary from those presented in this report to the extent that actual experience differs from that projected by the actuarial assumptions.

Respectfully Submitted,

Peter R. Sturdivan, F.S.A.  
Consulting Actuary

Patricia Ann Kahle, A.S.A.  
Associate Actuary

**CITY OF NEWBERG  
POLICEMEN AND FIREMEN AND GENERAL EMPLOYEES  
RETIREMENT PLAN**

**SECTION 1**

**SCOPE OF THE REPORT**

This report presents the results of our actuarial valuations of the City of Newberg Policemen and Firemen Retirement Plan and the City of Newberg General Employees Retirement Plan as of July 1, 1999.

A summary of the findings resulting from this valuation is presented in Section 2 of the report along with the requirements for the Government Accounting Standards Board (GASB). The discussion found in Section 3 describes the actuarial concepts and methods upon which the findings are based. Tables 1 through 3 and 5 of that section summarize the calculations, which led to our findings. Tables 4, 6 and 7 show the GASB requirements.

All of the calculations of the valuation were carried out using certain assumptions as to the future experience of the plans in matters affecting the actuarial cost. Section 4 summarizes the most important of these assumptions and describes the actuarial procedures used to calculate costs.

Section 5 outlines the benefit and contribution provisions of the plans.

The membership data, which were supplied to us, are summarized in Section 6.

**CITY OF NEWBERG  
POLICEMEN AND FIREMEN AND GENERAL EMPLOYEES  
RETIREMENT PLAN**

**SECTION 2**

**SUMMARY OF THE FINDINGS**

This report presents the results of our actuarial valuation of benefits in effect under the Plan as of July 1, 1999. We have developed the following comparison with last year's results.

|                                                       | <b>7/1/98<br/>Results</b> | <b>7/1/99<br/>Results</b> |
|-------------------------------------------------------|---------------------------|---------------------------|
| <b>Policemen and Firemen Plan</b>                     |                           |                           |
| Normal Cost Rate<br>(excluding employee contribution) | 15.5%                     | 16.0%                     |
| Rate to amortize the unfunded<br>actuarial liability  | 10.1%                     | 7.3%                      |
| Annual Required Contribution                          |                           |                           |
| Fiscal Year Ending                                    | June 30, 2000             | June 30, 2001             |
| Rate<br>(excluding employee contribution)             | 25.6%                     | 23.7%                     |
| Net Pension Obligation                                | 0                         | 27,048                    |
| <b>General Employees Plan</b>                         |                           |                           |
| Normal Cost Rate<br>(excluding employee contribution) | 7.5%                      | 7.0%                      |
| Rate to amortize the unfunded<br>actuarial liability  | (1.1%)                    | (1.8%)                    |
| Annual Required Contribution                          |                           |                           |
| Fiscal Year Ending                                    | June 30, 2000             | June 30, 2001             |
| Rate<br>(excluding employee contribution)             | 6.4%                      | 5.2%                      |
| Net Pension Obligation                                | 0                         | (13,296)                  |

The Annual Pension Cost does not include the pick-up of member contributions of 6% of base pay.

The total contribution rate for Policemen and Firemen decreased primarily due to investment returns, the death of a retiree, and lower than expected salary increase. These gains were partially offset by lower than expected contributions and continued accruals of participants working past 58.

The total contribution rate for the General Employee Plan decreased due to the greater than anticipated investment return and higher than expected turnover.

We have developed the following comparisons with the results of the previous valuations:

|                                  | 1998 Results     | 1999 Results     |
|----------------------------------|------------------|------------------|

**CITY OF NEWBERG  
POLICEMEN AND FIREMEN AND GENERAL EMPLOYEES  
RETIREMENT PLAN**

**SECTION 3**

**DISCUSSION OF THE VALUATION**

A fundamental principle in financing the liabilities of a retirement program is that the cost of its benefits should be related to when those benefits are earned, rather than to when they are paid. There are a number of methods in use for making such a determination.

The method used for the police and fire and the general employees valuation is technically referred to as the aggregate entry age normal actuarial cost method. Under the aggregate entry age method, the funding of each plan is separated into two pieces. First, a normal cost is determined by multiplying an aggregate entry age normal cost rate by current compensation. Second, the unfunded actuarial liability, which is the difference between the actuarial liability and the actuarial value of assets, is funded over a period of years. Thirty years was used for purposes of funding the unfunded actuarial liability.

**ACTUARIAL VALUE OF ASSETS**

*Table 1* shows the derivation of the value of assets as of July 1, 1999.

*Table 2* is a summary of the changes in plan net assets for the year ending June 30, 1999.

**ACTUARIAL BALANCE SHEET**

*Table 3* is the actuarial balance sheet as of July 1, 1999 based on our procedures and assumptions. The Resources equal the Requirements and can be thought of as the amount of funds resulting from

- (1) the plan's Actuarial Value of Assets, plus
- (2) the Actuarial Present Value of Future Employer Contributions to be made by the City in the future.

The Actuarial Present Value of Benefits is the estimated single sum required on July 1, 1999 which, together with future interest earnings, would accumulate to provide all employer paid benefits due under the plan in the future and all benefits from current account balances of member contributions for present members.

The contribution rates recommended in this report are expected to remain stable as long as:

- (1) Experience remains reasonably close to that expected according to the actuarial assumptions;
- (2) Current eligibility and benefit provisions remain unchanged; and
- (3) Contributions are made at the recommended rates.

## ACCOUNTING STANDARDS

The Governmental Accounting Standards Board (GASB) issued accounting standards for both the Financial Reporting for Defined Benefit Pension Plans (Statement No. 25) and the Accounting for Pensions by State and Local Governmental Employers (Statement No. 27).

***GASB Statement No. 25 - Financial Reporting for Defined Benefit Pension Plans.***

Statement No. 25 requires a summary of the funded status of the plan, and a statement on the relationship of the actual annual contributions to an annual required contribution (ARC). The initial effective period for Statement No. 25 was the plan year ending June 30, 1997 for the Plan.

***GASB Statement No. 27 - Employer's Accounting for Pension.*** Certain disclosures are required in the employer's financial statements including the annual pension cost (APC). Generally, the APC will equal to the employer's ARC, as actuarially determined by the funding methods and assumptions. If the actual contribution is either more or less than the ARC, then a Net Pension Obligation (NPO) must be determined, and this amount may be required to be disclosed in City's financial statements.

The initial effective period for GASB 27 is the fiscal year ending June 30, 1997 for the City.

The required disclosure information under GASB 25 and GASB 27 is shown on Tables 4, 6 and 7 of this report.

Table 5 shows the ARC and APC contribution rates. The APC is larger (smaller) than the ARC depending on whether or not the City has a net pension obligation (asset). The net pension obligation is amortized over the present value of future salaries. Tables 6 and 7 show historical information.

GASB 25 and GASB 27 replace GASB 5.

## APPENDICES

All of the calculations of the valuation were carried out using certain assumptions as to the future experience of the plan in matters affecting the actuarial cost. Appendix A summarizes the most important of these assumptions and describes the actuarial procedures used to calculate costs.

Appendix B outlines the benefit and contribution provisions of the plan.

The membership data which were supplied to us are summarized in Appendix C. Appendix B shows an update of employee accounts. An illustration of retirement benefits is contained in Appendix E.

**CITY OF NEWBERG  
POLICEMEN AND FIREMEN AND GENERAL EMPLOYEES  
RETIREMENT PLAN**

**SECTION 4**

**ACTUARIAL PROCEDURES AND ASSUMPTIONS**

This section of the report describes the actuarial procedures and assumptions used in this valuation. These procedures and assumptions have been chosen on the basis of recent experience of the plans and on current expectations as to future economic conditions.

The assumptions are intended to estimate the future experience of the members of the plans and of the plans themselves in areas, which affect the projected benefit flow and anticipated investment earnings. Any variations in future experience from that expected from these assumptions will result in corresponding changes in the estimated costs of the plans' benefits.

An "\*" indicates a method or assumption has been revised since the last valuation.

**ACTUARIAL COST METHOD**

The accruing costs of all benefits are measured by the aggregate entry age normal actuarial cost method.

Under the aggregate entry age normal cost method, the normal cost is computed in the aggregate as the normal cost accrual rate multiplied by total current compensation of active members less than normal retirement age. The normal cost rate equals (A) the difference of the total present value of future benefits less the total actuarial liability divided by (B) the present value of future salaries. Each of these values are calculated at attained age. The normal cost for inactive members is \$-0-. The actuarial liability is the sum of the individual accrued liabilities for all members. The individual accrued liability is the difference between the present value of future benefits less the present value of future normal costs where the normal cost is determined on an individual basis. The difference between the actuarial liability and the actuarial value of assets is the unfunded actuarial liability.

**RECORDS AND DATA**

The data used in the valuation consist of financial information and records of age, service and income of contributing members, former contributing members and their survivors. All of the data were supplied by the City and are accepted for valuation purposes without audit.

## **REPLACEMENT OF TERMINATED MEMBERS**

The ages at entry of future members are assumed to average the same as the entry ages of the present members they replace. If the number of active members should increase, it is further assumed that the average entry age of the larger group will be the same, from an actuarial standpoint, as that of the present group. Under these assumptions, the normal cost rates for active members should not vary with the termination of present members.

## **GROWTH IN MEMBERSHIP**

The total number of members of the plan is assumed to remain constant.

## **ADMINISTRATIVE EXPENSE**

It is assumed that the administrative expenses will be met from earnings in excess of the assumed investment earnings rate.

## **VALUATION OF ASSETS**

For this valuation, assets are valued at contract value on the valuation date.

## **INVESTMENT EARNINGS**

The future investment earnings of the assets of the plan are assumed to accrue at a net annual rate of 8%, compounded annually.

## **INTEREST ON MEMBER CONTRIBUTIONS**

Interest on member contributions is assumed to accrue at a net annual rate of 8%, compounded annually.

## **POST-RETIREMENT BENEFIT INCREASES**

It is assumed that the Consumer Price Index will increase at a rate in excess of 2% per year, so that retirement allowances will increase at the rate of 2% per year for present retirees and after retirement for currently active members and their beneficiaries.

## **FUTURE SALARIES**

The total annual rate of salary increase was assumed to be 5.0% per annum. It was estimated that the value of unused sick leave increases final average salary by 4%, and unused vacation pay increases final average salary by 2% for retirement benefits.

## SERVICE RETIREMENT

The rates of retirement used in this valuation are shown below.

| <u>Age</u> | <u>Rates of Retirement</u>   |                |
|------------|------------------------------|----------------|
|            | <u>Policemen and Firemen</u> | <u>General</u> |
| 50-54      | 10%                          | 0%             |
| 55         | 25                           | 5              |
| 56         | 20                           | 5              |
| 57         | 20                           | 10             |
| 58         | 20                           | 10             |
| 59         | 20                           | 10             |
| 60         | 20                           | 10             |
| 61         | 30                           | 25             |
| 62         | 30                           | 25             |
| 63         | 15                           | 25             |
| 64         | 10                           | 25             |
| 65         | 100                          | 100            |

For terminations prior to early retirement eligibility, retirement is assumed to occur at age 55 for Policemen and Firemen, and at age 60 for General Service Members.

## DISABLEMENT

The rates of disablement used in this valuation are illustrated below.

| <u>Age</u> | <u>Rates of Retirement</u> |                         |                              |
|------------|----------------------------|-------------------------|------------------------------|
|            | <u>General - Male</u>      | <u>General - Female</u> | <u>Policemen and Firemen</u> |
| 25         | .00%                       | .00%                    | .00%                         |
| 30         | .08%                       | .02%                    | .15%                         |
| 35         | .08%                       | .03%                    | .24%                         |
| 40         | .11%                       | .16%                    | .28%                         |
| 45         | .35%                       | .16%                    | .52%                         |
| 50         | .47%                       | .51%                    | .57%                         |
| 55         | .62%                       | .54%                    | .00%                         |
| 60         | .00%                       | .00%                    | .00%                         |

Disabled mortality was assumed to follow the 1983 Group Annuity Mortality Rates, male and female with ages set forward ten years.

## MORTALITY

The probabilities of healthy member mortality are based on the following tables:

|         |                                |
|---------|--------------------------------|
| Males   | The 1983 GAM Table for males   |
| Females | The 1983 GAM Table for females |

Post-retirement only for policemen and firemen.

## ANNUITY

Retiring members may forfeit their right to an annuity based on the value of their after-tax employee contributions with interest, if they withdraw their accumulated contributions. We have assumed that 75% of retiring members will elect to receive the annuity instead of withdrawing accumulated contributions.

## VESTING

Terminating members may forfeit a vested right to a deferred benefit if they withdraw their accumulated contributions. The table below gives the assumed probabilities, at selected ages, that vested terminating members will elect to receive the deferred benefit instead of withdrawing accumulated contributions.

**Probabilities of Vesting  
Upon Termination of Employment  
With Five or More Years of Membership**

| <u>Age</u> | <u>Police and Firemen</u> | <u>General - Male</u> | <u>General - Female</u> |
|------------|---------------------------|-----------------------|-------------------------|
| 25         | 100%                      | 15%                   | 30%                     |
| 30         | 100%                      | 30%                   | 35%                     |
| 35         | 100%                      | 35%                   | 45%                     |
| 40         | 100%                      | 40%                   | 50%                     |
| 45         | 100%                      | 45%                   | 60%                     |
| 50         | 100%                      | 80%                   | 65%                     |
| 55         | 100%                      | 100%                  | 100%                    |

## OTHER TERMINATIONS OF EMPLOYMENT

The rates of assumed future withdrawal from active service for reasons other than death, disability or retirement are shown below for representative ages:

### Policemen and Firemen Annual Withdrawal Rates

| <i>Males/Females</i>                  |          |          |          |          |          |                 |      |

**CITY OF NEWBERG  
POLICEMEN AND FIREMEN AND GENERAL EMPLOYEES  
RETIREMENT PLAN**

**SECTION 5**

**PLAN PROVISIONS**

**POLICEMEN AND FIREMEN**

1. **EFFECTIVE DATE**                      1964. The latest restatement is as of July 1, 1982. The Plan was last amended effective January 1, 1995 to provide for mandatory employee contributions.
2. **PLAN ELIGIBILITY**                      No new entrants.
3. **NORMAL RETIREMENT**
  - A.     **Eligibility**                      First day of the month coinciding with or next following attainment of age 58.
  - B.     **Benefit**
    - (a)    The product of the participant's high 36-month average monthly compensation times 2.0%, times his total Years of Service; plus
    - (b)    That portion of a participant's contribution account on or after July 1, 1979 shall be provided as an annuity or as a lump sum on his or her retirement date.
    - (c)    Form of benefit: Life annuity with guaranteed payments for 60 months.
    - (d)    The retirement benefit is subject to a cost-of-living adjustment of up to 2% per year.
4. **EARLY RETIREMENT**
  - A.     **Eligibility**                      Attainment of age 50.

B. Benefit

Accrued benefit on early retirement date, multiplied by factor below corresponding to the number of years the early retirement date is before the normal retirement date.

Provided, however, that no reduction will apply to an active participant who retires on early retirement date with 25 years of service.

| Number of Years Early Retirement Date is Before Normal Retirement Date | Factor |
|------------------------------------------------------------------------|--------|
| 1                                                                      | 1.00   |
| 2                                                                      | 1.00   |
| 3                                                                      | 1.00   |
| 4                                                                      | .92    |
| 5                                                                      | .84    |
| 6                                                                      | .76    |
| 7                                                                      | .68    |
| 8                                                                      | .60    |

5. **DISABILITY**

A. Eligibility

Totally and permanently disabled in the course of duty, or totally and permanently disabled after completion of ten years of service.

B. Benefit

Accrued benefit based on Average Compensation as of the date of disability and Years of Service as of the later of the date of disability or age 55.

In no case will the monthly benefit be less than \$100 or greater than 75% of the Participant's Average Compensation.

6. **DEATH BENEFIT**

Two and two tenths times the participant contribution account plus the voluntary account, if any.

7. **VESTING**

A. Eligibility

Termination for reasons other than death, disability or retirement.

B. Benefit

If a participant has completed fewer than five years of plan participation, refund of employee contributions.

If a participant has five or more years of plan participation, vested accrued benefit or participant contribution account.

8. **MEMBER  
CONTRIBUTIONS**

All members contribute 6% of pay pursuant to the provisions of the Internal Revenue Code, Section 414(h).

9. **SENATE BILL 656  
AND HOUSE BILL 3349**

For benefits payable on or after July 1, 1991, employees will have their monthly benefit increased by the better of SB 656 or HB 3349.

SB 656:

| Years of Service            | Percent Increase |
|-----------------------------|------------------|
| 10 or more but less than 20 | 1.0%             |
| 20 or more but less than 25 | 2.5%             |
| 25 or more                  | 4.0%             |

HB 3349: Benefit attributable to pre-October 1, 1991 service will be increased by 1.0989.

**CITY OF NEWBERG  
POLICEMEN AND FIREMEN AND GENERAL EMPLOYEES  
RETIREMENT PLAN**

**PLAN PROVISIONS**

**GENERAL EMPLOYEES**

1. **EFFECTIVE DATE** 1964. The latest restatement date is July 1, 1982 and was last amended January 1, 1995 to provide for mandatory employee contributions.
2. **PLAN ELIGIBILITY** A full-time general employee becomes a member on his employment commencement date. The city manager is excluded from participation.
3. **NORMAL RETIREMENT**
  - A. **Eligibility** First day of the month coinciding with or next following attainment of age 60.
  - B. **Benefit**
    - (a) The product of the participant's high 36-month average monthly compensation times 1.67%, times his total Years of Service, plus
    - (b) That portion of a participant's contribution account on or after July 1, 1979 shall be provided as an annuity or as a lump sum on his or her retirement date. (A participant must be hired prior to July 1, 1993 for this benefit.)
    - (c) Form of benefit: Life annuity with guaranteed payments for 60 months.
    - (d) The retirement benefit is subject to a cost-of-living adjustment of up to 2% per year.
4. **EARLY RETIREMENT**
  - A. **Eligibility** Attainment of age 55.

B. Benefit

Accrued benefit on early retirement date, multiplied by factor below corresponding to the number of years the early retirement date is before the normal retirement date. Provided, however, that no reduction will apply to an active participant who retires on early retirement date with 30 years of service.

| Number of Years Early Retirement Date is Before Normal Retirement Date | Factor |
|------------------------------------------------------------------------|--------|
|------------------------------------------------------------------------|--------|

|   |     |
|---|-----|
| 1 | .92 |
| 2 | .84 |
| 3 | .76 |
| 4 | .68 |
| 5 | .60 |

5. **DISABILITY**

A. Eligibility

Totally and permanently disabled in the course of duty, or totally and permanently disabled after completion of ten years of service.

B. Benefit

Accrued benefit.

In no case will the monthly benefit be less than \$100.

6. **DEATH BENEFIT**

Two and two tenths times the participant contribution account plus the voluntary account, if any.

7. **VESTING**

A. Eligibility

Termination for reasons other than death, disability or retirement.

B. Benefit

If a participant has completed fewer than five years of plan participation, refund of employee contributions.

If a participant has five or more years of plan participation, vested accrued benefit or participant contribution account.

8. **MEMBER CONTRIBUTIONS**

All members contribute 6% of pay pursuant to the provisions of the Internal Revenue Code, Section 414(h).
