**USDA APHIS WILDLIFE SERVICES
WORK AND FINANCIAL PLAN AMENDMENT #1**

COOPERATOR:	WASCO COUNTY
COOPERATIVE AGREEMENT NO.:	23-7341-5129-RA
ACCOUNT NO.:	AP.RA.RX41.73.0144
AGREEMENT DATES:	July 1, 2023 – June 30, 2024
AGREEMENT AMOUNT:	\$ 6,500.00

Pursuant to Cooperative Service Agreement No. 23-7341-5129-RA between Wasco County and the United States Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Wildlife Services (WS), the work and financial plan is hereby amended to increase funding from \$5,000.00 to \$6,500.00.

The attached financial plan shows the redistribution of funds due to the increase of the agreement amount.

All other items in the original work and financial plan remain the same. The Objectives/Goals, Plan of Action, Reports, Procurement, Stipulations and Restrictions sections remain unchanged.

The distribution of the budget from this Financial Plan may vary as necessary to accomplish the purpose of this agreement, but may not exceed: \$6,500.00

APPROVAL FOR FISCAL YEAR 2024 AGREEMENTS

Initiative Title: WS PROTECTION OF AGRICULTURE

Proposed funding level: \$ 23,918,074

What is the purpose of the initiative/agreement and how does it align with the Agency's and Secretary's priorities?

Wildlife Services (WS) protects agriculture resources associated with farming and ranching, and associated industries including livestock, crops, rangeland and timber, aquaculture, agricultural animal feed, and animal products. WS integrated wildlife management activities to protect agriculture include technical assistance and predation damage management to protect livestock, alleviation of bird damage, and to reduce crop and feed damage. Livestock producers experiencing problems with predation can request WS assistance to trap, harass, and remove predators. WS assist producers before calving season to obtain federal permits to harass or remove migratory birds, particularly black vultures. WS works with dairy producers to prevent birds from consuming feed and contaminating final products. In rangelands, WS employ 'range riders' and fence technicians to protect grazing livestock from predation. WS protects aquaculture farms from fish eating birds and potential diseases through coordinated large-scale hazing operations. WS assist timber producers by removing beavers and dams to prevent flooding and damage to timber lots. WS personnel conduct wildlife disease surveillance to detect diseases in wildlife may infect or impact domestic livestock. This initiative supports USDA goal 2 and APHIS objective 2.4

Previous year funding level: \$ 22,779,118
