Kelly-

DEQ is forwarding these comments on the Stormwater SCE for Terminal 4 Slip 3. DEQ provided EPA and the Tribes the opportunity to review and comment on this document. Both EPA and the 5 Tribes indicated concurrence with DEQ's comments and did not offer additional comments. DEQ is requesting an RTC and a final revised SCE and believes that the edits requested will strengthen the Port's arguments that the stormwater pathway has been adequately controlled and does not pose a recontamination risk to the in-water remedy.

DEQ appreciates the Port's work to resolve the stormwater issues in Slip 3. If you have questions regarding these comments, please contact me.

Respectfully,
