1. Summary ..... 2  
2. Schedule C: Compliance Schedule ..... 2  
3. Next Steps ..... 2

# 1. Summary

DEQ has initiated this minor modification to the assigned WPCF permit. The reason for the modification is to provide more time for the submittal of interim compliance deliverables in Schedule C. The facility requested this extension due to delays in processing engineering review of the required compliance schedule deliverable for the pre-design report.

DEQ agrees to providing more time for the interim dates. The final compliance date to cease non-growing season irrigation by the completion of construction for additional storage is not modified per this action.

# 2. Schedule C: Compliance Schedule

The permit modification alters Schedule C.1 of the permit as follows:

## 1. Storage of Non-Growing Season Effluent

Complete By	Requirement
January 1, 2024	Submit a Preliminary Design Report to DEQ for review. The report must provide preliminary design for a Storage Addition or Storage Expansion necessary to cease the non-growing season disposal program. The preliminary design must include nitrogen and hydraulic balances to document system capacity upon completion of the project.
<del>August 30, 2024</del> December 27, 2024	Submit 90% Plans and Specifications to DEQ for review of the proposed Storage Addition or Storage Expansion. The 90% plans must satisfactorily address all DEQ comments on the Preliminary Design Report.
<del>February 28, 2025</del> June 27, 2025	The permittee must submit to DEQ: <ol style="list-style-type: none"><li>1. Final draft plans and specifications in accordance with OAR 340-052 for the storage system.</li><li>2. A completed Land Use Compatibility Statement (LUCS) for the selected project.</li></ol>
<del>April 1, 2026</del> July 30, 2026	Submit to DEQ a progress status report for the project.
November 1, 2026	The permittee must complete construction according to the approved plans and specifications and cease non-growing season wastewater disposal.

# 3. Next Steps

DEQ issues the minor modification in accordance with OAR 340-045-0055.
