Effective Date

PERMITTED ACTIVITIES

Until this permit expires or is modified or revoked, the Permittee is authorized to construct, install, modify, or operate a wastewater collection, treatment, control and disposal system in conformance with all the requirements, limitations, and conditions set forth in the attached schedules.

Unless specifically authorized by this permit, by another NPDES or WPCF permit, or by Oregon Administrative Rule, any other direct or indirect discharge to waters of the state is prohibited, including discharge to an underground injection control system.

TABLE OF CONTENTS

SCHEDULE C: COMPLIANCE SCHEDULE..... 3

SCHEDULE C: COMPLIANCE SCHEDULE

Schedule C.1 is modified as follows:

1. Storage of Non-Growing Season Effluent

Complete By	Requirement
January 1, 2024	Submit a Preliminary Design Report to DEQ for review. The report must provide preliminary design for a Storage Addition or Storage Expansion necessary to cease the non-growing season disposal program. The preliminary design must include nitrogen and hydraulic balances to document system capacity upon completion of the project.
August 30, 2024 December 27, 2024	Submit 90% Plans and Specifications to DEQ for review of the proposed Storage Addition or Storage Expansion. The 90% plans must satisfactorily address all DEQ comments on the Preliminary Design Report.
February 28, 2025 June 27, 2025	The permittee must submit to DEQ: <ol style="list-style-type: none">1. Final draft plans and specifications in accordance with OAR 340-052 for the storage system.2. A completed Land Use Compatibility Statement (LUCS) for the selected project.
April 1, 2026 July 30, 2026	Submit to DEQ a progress status report for the project.
November 1, 2026	The permittee must complete construction according to the approved plans and specifications and cease non-growing season wastewater disposal.
