Hi Rachel,

Thanks for taking my call earlier. Below is a summary of our discussion and the information I am looking for:

-I want to confirm the DEQ letters that list what is required at the site, dated 2/6/95 and 9/19/06, are still accurate.

-I am trying to find info related to the original tank location and excavation depths, confirmation sample locations and depths, and soil disposal documentation.

-Other than the Tank Decommissioning Checklist that Tangent Fire submitted to DEQ 1/8/93, and DEQ correspondence letters dating back to 1992, I have not been able to find any other documentation related to the actual tank removal.

-Chris Griffin enrolled the Site in the LUST Underground Storage Tank Program in December 2022. Other than a site review performed by Rachel Long, DEQ has not performed any other substantial work related to this project. DEQ is in the process of assigning a case manager to the Site.

-DEQ would like to review our Work Plan prior to NV5 beginning any investigation activities at the Site.

Please let me know if you have access to any of this information described above so we can incorporate it into our scope of work.

Feel free to contact me directly if you have any questions.

Kind regards,

Hello Sam,

Thank you for reaching out regarding the open Leaking Underground Storage Tank site (LUST) 22-93-4013.

I would be happy to discuss this project further with you. Call me at (503) 954-8350 anytime today.

Have a good start to your week.

Rachel

Hi Rachel,

We are working with Chris Griffin to perform the required work on the open Leaking Underground Storage Tank site (22-93-4013) located at 32053 Birdfoot Dr, Tangent OR 97389. I'm wondering if you have some time early next week to discuss the information DEQ has related to this project. I have already reviewed the documents in the attached PDF.

Let me know if you have availability for a phone conversation on Monday or Tuesday.

Thanks in advance,
