RE: NPDES 100-J general permit not required
File no. 102507
Application no. 978311
Location: 33060 Shirttail Creek Rd., Durkee
Baker County

Norma,

In May 2006 you submitted a new application to DEQ for National Pollutant Discharge Elimination System General Permit 100-J to discharge cooling water to surface waters. DEQ renewed this permit on April 15, 2024 and has since reviewed your application. Based on this review and information you provided to Beth Moore on July 11, 2024, DEQ has determined that a permit is not required because non-contact cooling water is reused in the process and not discharged. This is DEQ's final action on your application no. 978311.

Please be aware that if a permit it is needed at a later date, you will need to submit a new application and pay the appropriate fees to DEQ.

If you have any questions, please contact Patty Isaak at 541-613-1125 or patty.isaak@deq.oregon.gov.

Sincerely,

Mike Hiatt
Water Quality Manager
Eastern Region
