RE: Termination of NPDES 100-J general permit coverage
File no.100684
Location: 1011McKinley St., Eugene
Lane County

Dear Mr. Kruger,

We received your email on August 27, 2024 requesting termination of National Pollutant Discharge Elimination System general permit 100-J coverage because your facility no longer needs coverage provided by the permit since the sand mill cooling system has been converted to chillers. Termination of this permit coverage is effective August 28, 2024.

Please be aware that if a permit it is needed at a later date, you will need to submit a new application and pay the appropriate fees to DEQ to obtain a new permit.

Thank you for updating us on the status of your operation. If you have any questions, please contact Jennifer Maglinte-Timbrook at 541-743-1663 or jennifer.maglinte-timbrook@deq.oregon.gov. I may also be reached at 503-378-5081.

Sincerely,

Ranei Nomura
