## PURPOSE OF THIS FORM

The RCRA Waste Site Identification Form (SI Form) is used by facilities that are required to notify the Oregon DEQ that they are involved in the federal Resource Conservation and Recovery Act (RCRA) waste activities. Upon receipt of a completed SI Form, a RCRA Site Identification Number is issued. This number is referred to as the Generator ID Number, or U.S. Environmental Protection Agency (EPA) ID Number on the Uniform Hazardous Waste Manifest.

Facilities that have already notified with DEQ may also use this form to update site information. For example, an updated SI Form should be submitted when there is a change in ownership, when a business closes, or when previously submitted site information has changed.

If your business moves to a new location and continues to generate hazardous waste or other RCRA activities, you must apply for a new RCRA Site ID Number by submitting a new SI Form. RCRA Site ID Numbers are not transferable to other physical locations.

This form is to be used in lieu of EPA's RCRA Subtitle C Site Identification Form 8700-13. RCRA waste notifications must be submitted to DEQ to the address provided at the top of the form.

## WHO MUST SUBMIT THIS FORM

If you fit into any of the following categories, you must notify DEQ using the SI Form:
