

Integrated Water Resource Strategy

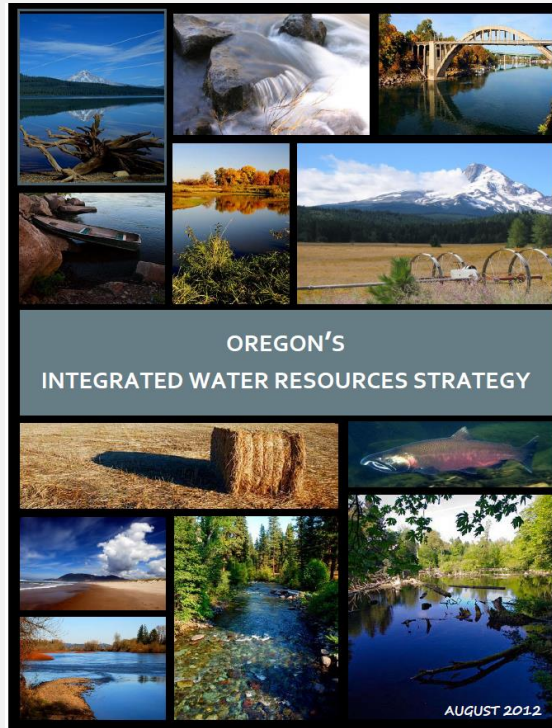

Place-Based Planning Update

Environmental Quality Commission meeting

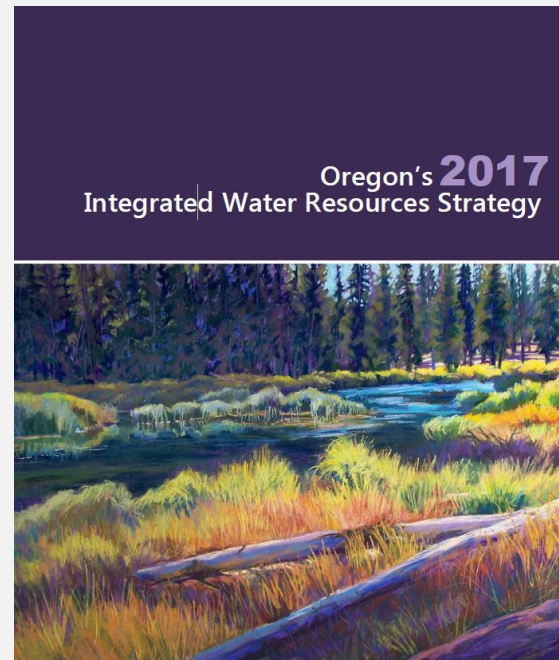

July 18, 2019

Integrated Water Resource Strategy

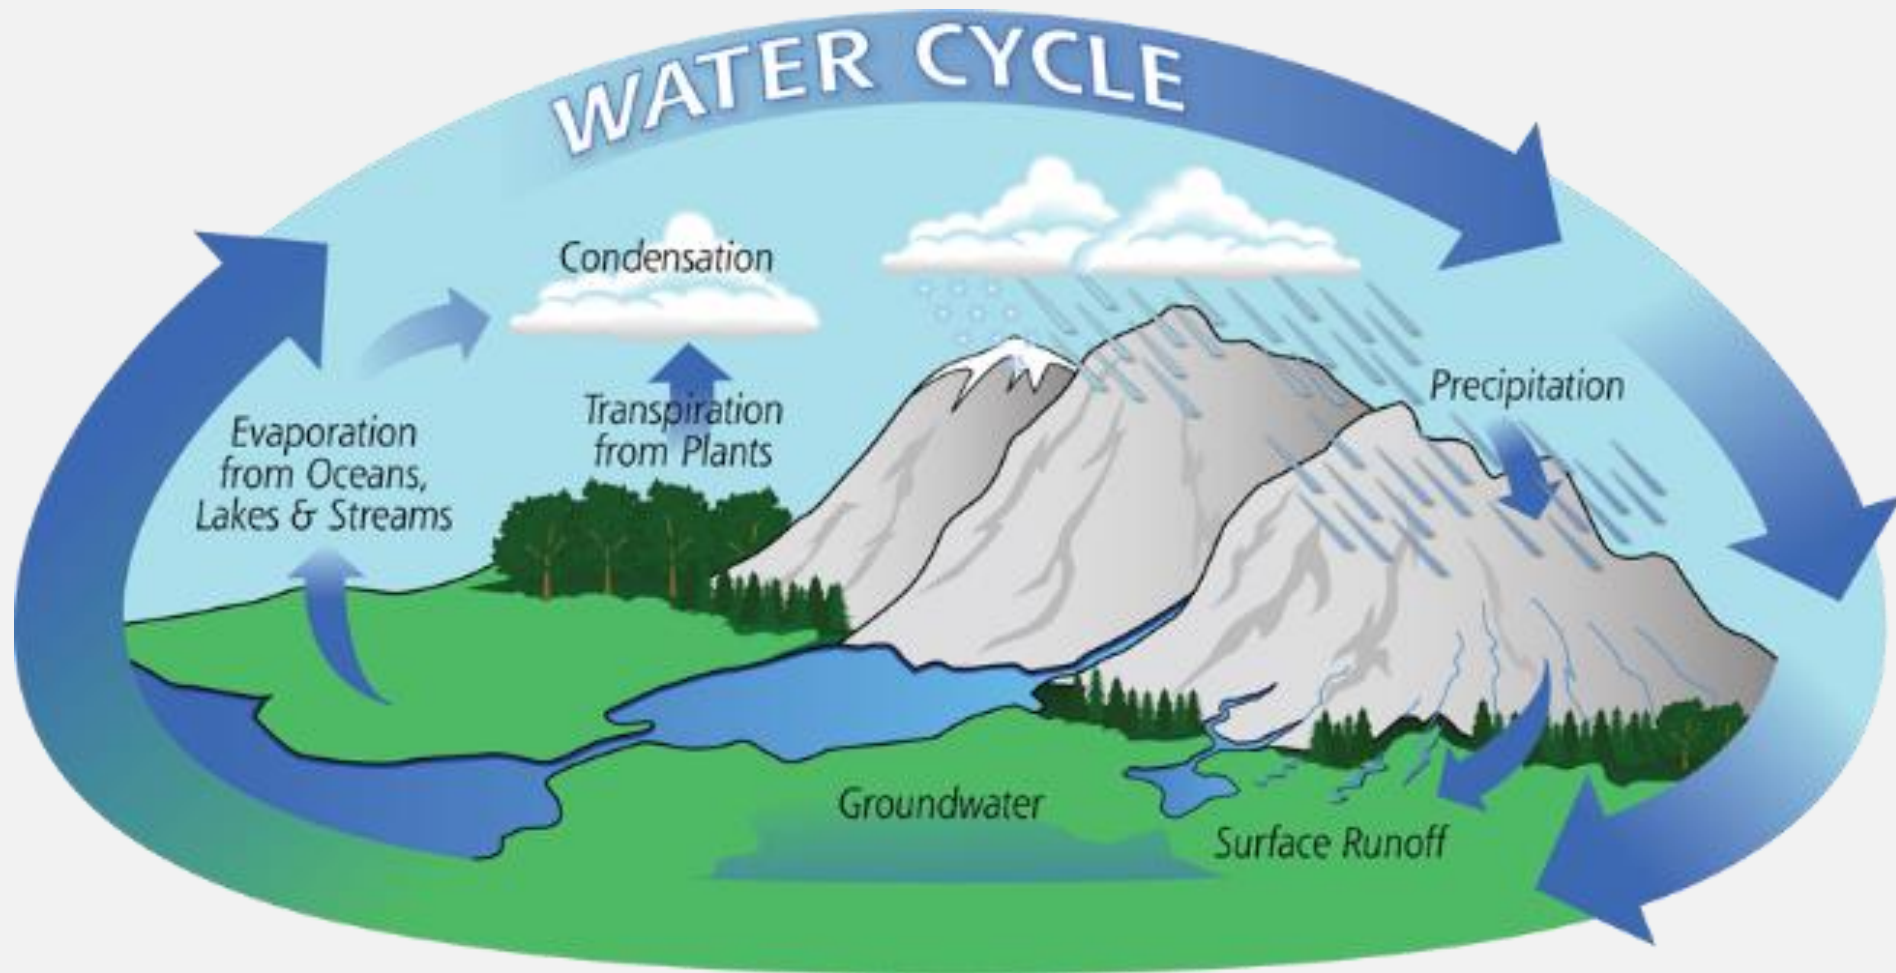

2012

2017

To further Oregon's understanding of its water resources, the **Integrated Water Resource Strategy** provides a framework for interagency collaboration

A Complex System

Increasing Knowledge

IWRS recognizes Oregon needs more data to understand:

- In-stream and out-of-stream needs
- Coming pressures
- Water resources today

DEQ's Role

Technical assistance from staff

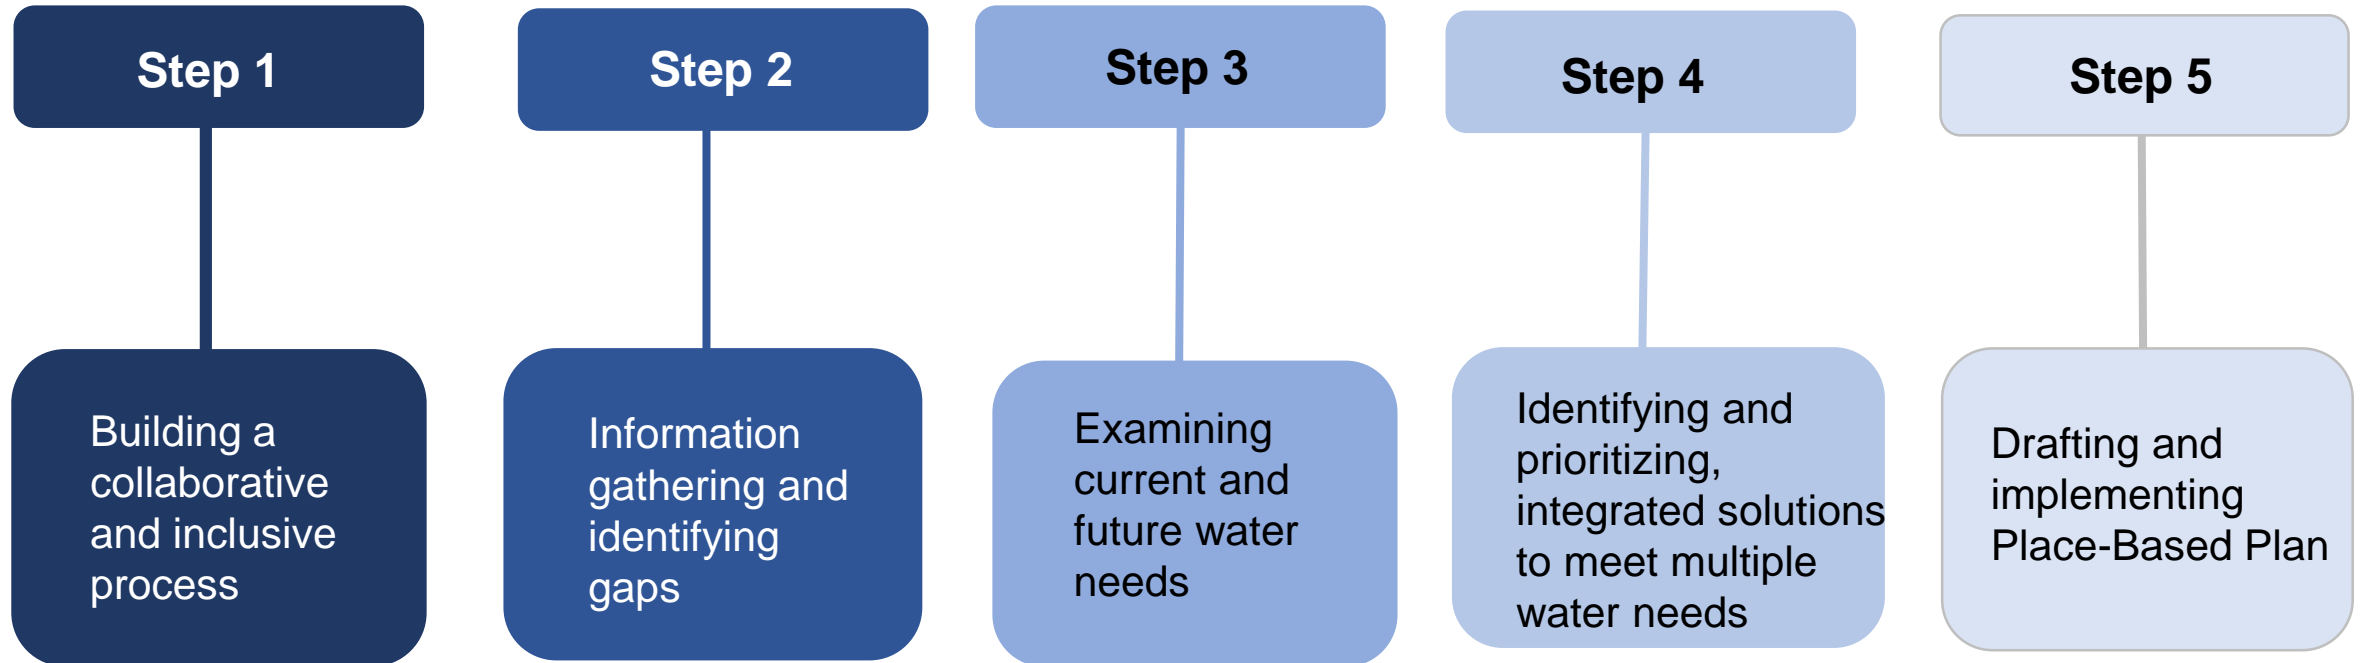

- Basin Coordinators
- Integrated Water Resource Specialists
- Clean-up Program

Harney Groundwater Quality Study

Place-Based Planning

- A voluntary, non-regulatory and collaborative process.
- A partnership to find solutions to multiple water needs

Place-Based Planning

Thank you!

Roxann Nayar

Integrated Water Resource Specialist
