

Climate Protection Program

Attachment B: Potentially Covered Entities

Greenhouse Gas Emissions Program 2021 Rulemaking – August 2021

Potentially covered entities

The following tables provide lists of the potentially covered entities in the proposed Climate Protection Program, separately for covered fuel suppliers and covered stationary sources.

This document is an informal and preliminary analysis by DEQ, to predict which entities would initially be covered entities under the rules as proposed, based on the information DEQ has available to it at this time. DEQ notes that this is a preliminary list that may not comprehensively include all entities that would be covered entities, and that the final rules adopted by the EQC may be different than the current proposed rules, and therefore apply to additional entities or possibly apply differently to these entities. All persons should consult the rulemaking notice itself to determine whether their interests may be affected by these proposed rules.

Table B1. Potentially covered fuel suppliers

Potentially covered fuel suppliers included in Table B1 below would be subject to the proposed cap portion of the program beginning in 2022. This list is based on the proposed applicability, informed by data reported to DEQ's Greenhouse Gas Reporting Program and accounting for related entities. Additional fuel suppliers will become subject over time as the threshold for inclusion declines and as additional data becomes available. Future applicability determinations will be based on emissions data available at that future time.

Company Name	Type of Covered Fuel Supplier
Avista Utilities	Local distribution company
Cascade Natural Gas	Local distribution company
Northwest Natural Gas	Local distribution company
Associated Petroleum Products	Supplier of liquid fuel(s) and/or propane
BP West Coast Products LLC	Supplier of liquid fuel(s) and/or propane
Campo & Poole Distributing, LLC	Supplier of liquid fuel(s) and/or propane
Carson Oil Company, Inc.	Supplier of liquid fuel(s) and/or propane
Chevron USA Inc.	Supplier of liquid fuel(s) and/or propane
Idemitsu Apollo Corporation	Supplier of liquid fuel(s) and/or propane
PC Energy, LLC	Supplier of liquid fuel(s) and/or propane
Phillips 66 Company	Supplier of liquid fuel(s) and/or propane
Shell Oil Products US	Supplier of liquid fuel(s) and/or propane
Shell Trading (US) Company	Supplier of liquid fuel(s) and/or propane
Space Age Fuel Inc.	Supplier of liquid fuel(s) and/or propane
Tesoro Refining and Marketing Company LLC	Supplier of liquid fuel(s) and/or propane
World Fuel Services Corporation	Supplier of liquid fuel(s) and/or propane

Table B2. Potentially covered stationary sources

Potentially covered fuel suppliers included in Table B2 below would be subject to the proposed best available emissions reduction portion of the program. This list is based on the proposed

applicability, informed by data reported to DEQ's Greenhouse Gas Reporting Program. Additional stationary sources may become subject over time as additional data becomes available and as new sources are constructed.

Source ID	Facility Name
01-0029	Ash Grove Cement Company
05-0005	United States Gypsum Company Rainier Plant
24-5398	Covanta Marion, Inc.
25-0027	Lamb Weston, Inc. Boardman East Plant
26-0027	SemiConductor Components Industries, LLC ON Semiconductor
26-1865	EVRAZ Inc. NA
26-3240	Microchip Technology Incorporated
26-9537	Owens Corning Corp. dba Owens Corning Foam Insulation, LLC
34-0055	Qorvo US
34-2681	Intel Corporation Aloha and Ronler Campuses
34-2804	Maxim Integrated Products, Inc. Maxim Fab North
34-2813	Jireh Semiconductor Incorporated
36-5034	Cascade Steel Rolling Mills, Inc.
