

1978

Ordinance Committee met at 9 A.M/ May 30th at City Hall.
All members present--Jean Harris Chairperson, Clancy Stouffer and
Jim McNelly.

The research on dog ordinances sent to the committee from the
Bureau of Governmental Research revealed that ~~12 cities~~ 12
cities in the U.S. do have what are known as "Pooper Scooper"
ordinances to deal with the problem of dogs defilling property
and city sidewalks.

It was decided not to recommend any ordinance at this time
due to the committee's feeling about the difficulty of
enforcement. However, the suggestion that we ask the Mayor
to cooperate by letting the message suggested in some of the
material provided by the Bureau be sent out in the next
issue of the city newsletter.
