To: PAIKO Steven J * DEQ
Subject: Penske 30-day UST install notices
Attachments: Wilsonville 30-day install notice.pdf; Clackamus 30 - Day Install Notice.pdf

Steven,

We spoke over the phone at the end of last week. I have attached the correct filled out paperwork changes on Pg.9,10.

We will be permitting the DEF tank. So our check amounts are correct.

Thank you,

Dante Myers
Project Manager

General Permit Registration fee

For new tanks, a registration fee of \$325 per tank and an installation fee of \$400 per tank is due for the current year. For multi-chambered or multi-compartment tanks, the registration fee is \$325 and the installation fee is \$400 for each chamber or compartment. To calculate the registration fee owed please fill in the blanks below:

Number of new tanks or compartments 2 X \$725.00 = \$1,450 Total Fee Due

This registration fee will also serve as the first annual compliance fee for the remaining portion of the year in which the registration form is submitted.

TO: UST Facility Permittee

FROM: David Livengood, UST Program Manager

DATE: 4/4/2022

RE: Installation Certificate for Facility ID Number: 12693
Facility Name: Penske Truck Leasing-Clackamas
Address: 15975 SE 130th Ave, Clackamas, OR 97015

Enclosed is the Certificate to Install underground storage tank(s) at the subject facility. This certificate **does not** authorize fuel delivery. A Certificate to Operate authorizing fuel delivery will be issued following completion of the installation and after review and approval of the required submittals by a DEQ inspector. As Tank Permittee, you are responsible for ensuring that the following notifications and requirements are adhered to:

- A 3-day notice (by phone) must be made to the appropriate regional DEQ office prior to tank installation. DEQ will issue a confirmation number. This is your proof that the notice was received. Failure to call in the 3-day notice, by either the Permittee or the licensed UST Service Provider, is a violation of state law. If the Department is denied an opportunity to inspect the installation work due to failure to provide notice, you may be required to reopen the excavation or piping areas for inspection.
- The *UST Installation Checklist* accompanied by one copy of the as-built drawings must be submitted to the appropriate regional office. Information associated with equipment installed should be submitted with the checklist including, at a minimum, a list of major system components, third-party evaluations, manufacturers' checklists, photographs and fire authority sign-off, if available. Please submit the checklist and attachments within 30 days following installation. We have enclosed a copy of the *UST Installation Checklist* for your use. You will also be asked to submit a copy of your financial responsibility mechanism (e.g. certificate of insurance or endorsement) to our Headquarters Office. Please note that an ACCORD form will not satisfy the verification requirements.
- Fuel can not be delivered to the tank system until AFTER the Department has issued a Certificate to Operate. A Certificate to Operate will not be issued until a DEQ inspector has reviewed the required submittals and determined that the installation meets DEQ requirements including financial responsibility (insurance). Our inspectors will make every effort to work closely with your installer to minimize any delays in operating the newly installed tanks. When you receive your Certificate to Operate you must provide the Operating Certificate Number to your fuel distributor so they can deliver product to your facility.

Please refer to the attached map for contact information for regional offices. We appreciate your efforts to comply with environmental protection regulations.
