The City of Lebanon is asking for your feedback to help improve how we share news, updates, and important information with our community. We are launching a Communications Survey to learn more about how residents receive information from the City and how we can make our communication more effective, timely, and accessible.

Residents can complete the survey online at:

For those who prefer a paper option, the survey is available at all City facilities, including City Hall, the Lebanon Public Library, the Senior Center, and the Justice Center.
