Subject: RE: Submittals

Good afternoon,

Dawn has confirmed with Brad that we can use the same QCAT for both the ECSI and the LUST project. I will update YDO to reflect this.

Any work charged to these projects will be taken from the deposit until it is gone and then invoiced regularly.

Brad also approves using the VCP as stand in for the LUST projects Cost Recovery Agreement.

Thanks!

Do you know if Brad was able to talk to Dawn about the VCP deposit and if we could move that over to the LUST number and close the ECSI?

Hi Rachel & Paul,

This submittal was denied and, in the message, we let them know it was because it was a duplicated submittal. However, there was an error in the system, and it sent both a denial message AND an acceptance message.

The denial message was sent through the executive decision tab. However, we went into the application review workflow and selected "other- executive decision", and it automatically sent an approval email since the task was completed, even though it was NOT approved.

We have already put in a YDO help desk ticket to get that fixed, but wanted to let you know as I am sure Dave will be confused.

Please let me know if you'd like me to send him an email and explain what happened; Wanted to check in first as I know you were already planning on communicating with him.

Thanks!

Hi Katie,

Good catch! You're correct, it looks like the owner submitted a separate application for cleanup program intake. Please deny submittal 23133.

In the denial message, kindly explain why the application was denied. I will follow up with an email to clarify further. I think there may be some confusion between the LUST program and the Cleanup program.

Hope all is well and that everyone is set up for a great weekend!

Best,

Rachel

Subject: RE: Submittals

Hi team,

I realized that the Myers Autobody VCP Submittal (RID 23133) is NOT the submittal that had been processed and sent back.

That one was processed on June 4th and the VCP deposit was confirmed by accounting on June 4th.

They have submitted a secondary VCP submittal. Both submittals contain the same information except for the township which can be added manually.

Am I correct in my assumption that this submittal should be denied as a duplicate?

Thanks!

Subject: Submittals

Hi team,

There are two submittals waiting to be processed.

1. Cleanup Program Intake Submittal: Myers Autobody VCP (RID 23133) for ECSI 6745.
 - This submittal has been processed, sent back, and re-submitted. We are waiting on confirmation of deposit payment to finish.
2. LUST Release Submittal: Truax Corporation in Jackson County, Regulated Tank (RID 23048)
 - This submittal was started but the workflow did not populate correctly. It has now populated the correct workflow, and we can finish this today.

Thank you!

Katie McCrocklin
