RE : PROPOSAL FOR DESIGN SERVICES FOR CANBY SWIM CENTER REMODEL, CANBY OREGON

Dear Eric,

Scott Edwards Architecture, LLP (SEA) is pleased to provide this proposal for design services for the Canby Swim Center Remodel located in Canby, OR. We look forward to working with you towards the success of this project.

PROJECT SCOPE

Canby Swim Center, the Owner, has engaged SEA to assist with a remodel of their existing swim center lobby, offices, lockers and restrooms. The address of the swim center is 1150 S Ivy St in Canby, OR. The scope is based on a study put together by SEA in October of 2020, Exhibit 'B'. The previous scope, as outlined in a proposal dated August 26, 2020, also included structural and MEP narratives used to generate initial scope and pricing. Scope of service in this proposal includes Architectural, Interiors, Structural, Civil and MEP services as described below.

(See Exclusions to Scope of Service)

- 01** We understand the City of Canby has a lease agreement with the school district and the building is leased.
 - A** SEA assumes the Owner will advise on key users who will participate in the design process and help inform decisions.
 - B** SEA understands the school district is not a primary stakeholder and any required documentation reviews by the School District will be coordinated by the Owner and communication regarding any feedback will be communicated with SEA in a timely manner.
 - 1. Major modifications to the design after approval of SD Deliverable will be considered an additional service.
- 02** The existing site is approximately 18.55 acres (808,038 SF).
 - A** We understand the scope of work will require accessibility upgrades to the parking and entry per ORS 447.241.
 - 1. Refer to civil scope of work.
 - B** Right of way improvements beyond the scope outlined are not included and assumed to not be required.
- 03** The existing building is an existing approximately 13,000SF swim center. The scope of work in this proposal is limited to the approximately 2,400 SF entry, lobby, offices, locker rooms, and restrooms as outlined in Exhibit 'B'.
 - A** The original concept and proposal was based on design codes for MEP and building in 2020. Since then, the codes have been updated, and the design team will need to evaluate the scope based on current codes including:

1. OSSC 2022, OEESC 2025, OMSC 2022, OESC 2023, 2023 OPSC, 2017 ICC ANSI 117.1, and City of Canby Municipal Code.
2. We will review any significant implications of the OEESC 2025 code as it was not required to be implemented until July of 2025.
3. We will review the accessibility based on the requirements of ORS 447.241 and advise on recommendations.
 - i. The scope provided assumes updates to the accessibility throughout the area in Exhibit 'B'.
- B** We understand the scope does not require a change of use or occupancy.
- C** We understand the building is existing construction and is not sprinklered.
 1. The addition of sprinklers is not included in this scope of work.
- D** We understand the proposed scope includes new finishes, casework, and lighting throughout the area in the scope.
- E** We understand the interior scope includes:
 1. Reconfiguration of the existing space in line with Exhibit 'B'.
 2. Mechanical, Electrical and Plumbing updates as indicated and described below.
- F** We understand the exterior scope includes:
 1. Painting of the existing building as required.
 2. Review of the current accessibility of the parking lot as required by the state code.

04 Base Civil and Land Survey scope of services assumes:

- A** Land surveying services as outlined below.
 1. Scope of service is limited to the accessible parking and route to the entrance and includes the existing walkway.
 2. Survey information will include utilities disclosed by standard utility locate request, all visible ground utility features on the property, and all existing visible ground improvements and grades as needed to prepare base map.
- B** Civil Engineering Services as outlined below.
 1. Prepare Existing Conditions and Demo plan at location where addition and scope is proposed.
 2. Design and prepare civil plans including construction of an Accessible sidewalk connection from the parking stalls to the new entry vestibule, new accessible parking stalls, signage and striping.
 3. Design and prepare plans for site grading and erosion control including grading for the areas of improvement and information as required for the County erosion control permit.
- C** Stormwater management requirements will not be triggered by the City of Canby or Clackamas County as the presumed disturbed impervious area will be below 5,000SF.
- D** All existing site utilities (water, sanitary, gas, electrical, etc.) are adequate, not impacted and not re-designed with this project.

05 Base structural scope of service assumes:

- A** The locker room remodel includes the demolition of non-structural CMU wall(s), addition of interior non-structural CMU walls, and new slab trenching for relocated plumbing only.
 1. It is assumed the extent of new walls and modifications will not trigger global seismic improvements.
- B** New roof top units may need to be installed.
 1. It is assumed a mechanical screen will not need to be provided.

06 Base Mechanical and Plumbing scope of service assumes:

- A** Heating, ventilating and air conditioning system design as outlined below.

1. Sanitary drainage, vent domestic water, storm water, and natural gas piping design from 5 feet outside the building.
2. Plumbing fixture specifications.

C Mechanical Investigation as outlined below.

1. Review of the existing building mechanical and plumbing systems to determine the adequacy and feasibility of reuse and needs for system improvement.

- 08** The building is located in the City of Canby and the authority having jurisdiction (AHJ) will be the City of Canby and Clackamas County.
- A** As noted above, SEA will consider required building code within the AHJ as a part of the process outlined above.
 - B** We understand the zoning and use are appropriate for the space and a detailed zoning or code summary are not included in the scope of services.
 - C** The design team has done some initial due-diligence and based on the information found within the City of Canby's Municipal code, the proposed scope assumes the following:
 - 1. Design Review is not required and is not included in the scope.
 - 2. There are no Right of Way scope upgrades or Public Works improvements required.
 - 3. There are no non-conforming upgrades required.
 - 4. If the City determines at a later date any of the above are required, it will require a modification to this proposal.
- 09** We understand a Type 1 Site Plan Review will be required as outlined by the City of Canby Municipal Code.
- 1. The design team will prepare the package to be submitted under this scope.
- 10** Per ORS 358.653, we understand the building requires a consult with SHPO (State Historic Preservation Offices).
- A** The design team will assist in shepherding this through SHPO.
 - 1. We understand following submission the process takes 30 days for review. Per SEA's meeting with the Owner 8/7/25, the submission to SHPO has been made. SEA has reviewed and provided comment for a correction.
 - 2. We understand the process can run concurrent throughout the design process.
 - B** The scope assumes SHPO agrees the project has no effect on a property that is eligible or listed in the National Register.
 - 1. If SHPO disagrees with the finding, we will inform the Owner and outline options and additional scope as required.
- 11** We understand the project delivery method is CMGC and a contractor has not been engaged.
- A** Preliminary pricing done by Triplett Wellman was Pro-Bono and for information only and did not include the selected option, Exhibit 'B'.

- A** SEA assumes (1) site visit for verifying existing conditions in the area of scope as outlined in Exhibit B.
 - 1. Complete measured drawings are not included in scope.
 - B** As part of the site visit, the design team will review any modifications from the package completed in the 2020 scope of work.
- 13** We Understand the Owner would like to move forward as quickly as possible. Based on current work loads, the design team will require 3 weeks maximum to begin design services following approval of this agreement. SEA is proposing the following timeline for the scope as outlined below:
