I approve as well, with the one caveat that we have an open public records request for lab for records about Alkalai lake so we'll just want to ensure no records that are responsive to that are destroyed until the request is completed.

Cheers, Leela

#### Hello!

Apologies if I missed an earlier email but I don't have a record of manager approval. If you could reply with approval (or not approval) then we will get the records office approval. Once we have all the approvals I can add this to our destruction log and destroying the records can move forward.

Thank You! Kristen

**Subject:** Destruction Request

Hi Leela, or whomever is answering this email,

I have attached a records destruction request as our litigation hold was just lifted. We are very excited about this and you should anticipate receiving several large destruction requests from me in the coming weeks. There are a couple of hidden columns on my attached form that have the Iron Mountain info, I hope that is not a problem. If it messes up your system, though, let me know and our group can find another way to track that. For the dates, I have the destruction review date rather than the date of the contents – is that ok or would you like me to change that?

#### Thanks!
