

DEQ seeks comments on proposed Conditional No Further Action determination for the East Multnomah County groundwater remedy project in Gresham

The Oregon Department of Environmental Quality seeks comments on its proposed Conditional No Further Action determination for completed cleanup a portion of the Boeing Company and Cascade Corporation groundwater cleanup area, collectively known as the East Multnomah County groundwater remedy. DEQ has found that, following extensive groundwater remediation work, water quality in two sensitive aquifers meets cleanup standards suitable for drinking water.

For more information: To view project documents and information on how to comment on this proposed action see the public notice at <https://ordeq.org/publicnotices>.
