RE: ORRCO Portland Deadline Extension Request

Dear Heather,

ORRCO is submitting this request for an extension of the CAO emission inventory response letter deadline. The current deadline is September 15, 2025, and we would like to extend that to December 31, 2025.

I am on extended leave and am not expecting to return until November 18<sup>th</sup>. Meanwhile, the TanksESP files that generated the emissions estimates and the updated spreadsheet with the revisions to the fuel/material type are attached. The spreadsheet also has other supporting emission factor information that should be helpful.

Please let me know if you need additional information to support our request for this deadline extension. I am checking in periodically and will try to help, when possible, between now and November 18<sup>th</sup>.

Thank you for your time, help, and understanding.

Best regards,

*M.E. Piper*

Marie E. Piper  
Principal Engineer
