Dear Patrick Mucker,

The Oregon Department of Environmental Quality was notified of a petroleum leak from an underground storage tank system at 715 W 4th Ave, Oregon. Please complete or have your contractor complete and return the attached 20-day report by **November 7, 2025**.

Project Number: LUST 20-25-0629

Project Name: Lane Transit District II

Project Records: [ORMS Link](#)

 **Next Steps:**

Enter into a cost recovery agreement with DEQ follow the steps below. DEQ requires that persons requesting DEQ review and oversight of investigation and cleanup activities agree to the terms of the Cost Recovery Agreement and pay project oversight costs. Electing not to enter into this agreement does not release you from any responsibility that you might have for any reporting requirements, investigation and/or cleanup of petroleum (hazardous substances).

To enter into a cost recovery agreement with DEQ follow the steps below.

1. Register for a Responsible Official account.

<https://www.oregon.gov/deq/permits/Pages/Account-Registration.aspx>

2. A Facility should already exist at your address, link your account to the related Facility (#223295). Detailed instructions are located in Section 2 of the User Guide.

3. Complete the **LUST/Leaking HOT Cost Recovery Agreement** submittal.

User Guide: <https://www.oregon.gov/deq/permits/Documents/LUSTHOT-CostRecoveryAgrUserGuide.pdf>

Submitting an insurance claim may be an option to cover the costs of investigating and cleaning up contamination related to the UST release. If your financial responsibility mechanism includes pollution liability insurance, we recommend reviewing your policy and contacting your provider to determine if coverage applies.

If you have any questions or want to submit documents, please contact us at unassigned.lust@deq.oregon.gov.

Thank you,

Rachel Murphy
