dba ATI Millersburg Operations  
P.O. Box 460  
Albany, OR 97321  
*Sent electronically only*

Tony Valladares,

DEQ called in the ATI Specialty Alloys & Components, LLC (ATI) facility in Millersburg, OR to the Cleaner Air Oregon (CAO) program on September 5, 2025. On November 18, 2025, DEQ received a request from ATI for a partial extension of the deadline for submittal of the CAO Emissions Inventory (Inventory). DEQ approved ATI's extension request, allowing a partial submittal of the Inventory by the original submittal deadline of December 4, 2025, with a provision that ATI and DEQ meet to develop a submittal plan for the remaining Inventory information by January 30, 2026. DEQ received the submittal of the first part of ATI's Inventory (Inventory Part 1) including: process flow diagrams; Categorically Exempt Toxics Emissions Units (TEUs) Form AQ523; and emissions information (AQ520 form) for the natural gas combustion and emergency engine TEUs on December 4, 2025 (Your DEQ Online Submittal ID 72766).

As specified in DEQ's approval of ATI's extension request, DEQ met with ATI on January 29, 2026, to discuss the timeline for submitting the remaining Inventory information. Based on that discussion, and in accordance with [Oregon Administrative Rule \(OAR\) 340-245-0030\(1\)&\(3\)](#), ATI must provide the following information by **February 20, 2026**:

1. An Inventory including all cooling towers, pickling tanks, and abrasive blasting TEUs. The Inventory should include the AQ520 form and all supplemental documentation required under [OAR-340-245-0040\(4\)](#). A separate AQ520 form including only these TEUs may be used instead of adding to the AQ520 form submitted on December 4, 2025.

Given the complexity of ATI's operations, DEQ plans to continue to review partial Inventory submittals and meet with ATI on a regular basis to provide feedback and discuss due dates for submittal of the remaining required Inventory information and any necessary updates until final approval of the complete Inventory for all activities at this facility. ATI must schedule a meeting with DEQ to establish a submittal plan for the next partial Inventory submittal, to take place **no later than February 27, 2026**.

DEQ requests that you submit additional information to complete your Inventory. If you think that any of that information is confidential, trade secret or otherwise exempt from disclosure, in whole or in part, you must comply with the requirements in [OAR 340-214-0130](#) to identify this information. This includes clearly marking each page of the writing with a request for exemption from disclosure and stating the specific statutory provision under which you claim exemption. Emissions data is not exempt from disclosure.

DEQ remains available to discuss this information request with you and answer any questions you may have. Failure to provide additional information, corrections, or updates to DEQ by the deadlines above may result in a violation of [OAR 340-245-0030\(4\)\(b\)](#).

22-0547 ATI Specialty Alloys & Components, LLC

If you have any questions regarding this letter, please contact me directly at (971) 300-3653 or [amy.devita-mcbride@deq.oregon.gov](mailto:amy.devita-mcbride@deq.oregon.gov). I look forward to your continued assistance with this process.

Sincerely,

*Amy DeVita-McBride*
