<b>City:</b> TUALATIN, OR 97062	<b>Organization:</b>	

II. Tank Information					
DEQ Permit #	BFGE B	BFGE C	BFGE D	BFGE E	
Estimated Gallons	15000	15000	5000	5000	
Tank Install Date	04/20/2002	2002	2002	2002	
Substance	GAS	DIESEL	GAS	DIESEL	
Tank Material	FRP	FRP	FRP	FRP	
Pipe Material	FP	FP	FP	FP	
Pipe Type	P	P	P	P	
Pipe Install Date					
Overfill Device	Alarm				

Notes and Comments for UST database:  
 Check file before conducting inspection  
 Tanks manifolded? Which One?

III. Operating Certificate      Compliance  Yes       No

Current       Accurate       Posted

IV. Operator Training      Compliance  Yes       No

Class A/B Operator: Albert Gill      Date: 2008

Class C Operator:  Yes       No      N/A Jay Potter - A

V. Financial Responsibility      Compliance  Yes       No

Type of Coverage: Insurance      Begin Date: 3-19-25      End Date: 3-19-26

Coverage Amount: 2,000,000      can OCCUR      Number of tanks coverage: ALL 3

Financial responsibility could also be in the form of self-insurance, bonds, local government, trust fund, and/or guarantee.

VI. Walkthrough Requirements      Compliance  Yes       No

Spill prevention and release detection equipment checked annually?       Yes       No

Tank top sumps checked annually?       Yes       No

VII. Release Detection Compliance  Yes  No

A) Annual Release Detection Operability Testing (Tank Gauge Certification)

Date of last testing: 2-3-26 2-18-25 Last three tests available?  Yes  No

B) Piping Release Detection (Check all that apply) 8-9-24

■ Pressurized Piping

■ Mechanical Leak Detector (MLLD)  Electronic Leak Detector (ELLD) - check for swiftcheck requirement

Date of last testing: 2-3-26 8-9-24 Last three tests available?  Yes  No

Number of lines tested: 4 @ 3.0 gph Number of Leak Detectors tested: 4

Leak Detector manufacturer make and model: \_\_\_\_\_

Tank Gauge manufacturer make and model: Vector 202 TLS-350

MLLD on turbine manifold?  Yes  No

MLLD product appropriate? (Example, diesel Red Jacket FX series on diesel system?)  Yes  No

If ELLD and no line testing: Annual 0.1 gph results from tank gauge?  Yes  No

Interstitial Monitoring  N/a

[Monthly records must include, date system was checked, observations made, initials of person checking. Electronic records must include power status (on or off), alarm indication status (yes or no) and sensor malfunction notes (yes or no).]

Date of last sump testing: \_\_\_\_\_ Last three tests available?  Yes  No

Date of last sensor testing: \_\_\_\_\_ Last three tests available?  Yes  No

Float sensor installed correctly?  Yes  No

Interstitial space opened to sump?  Yes  No

Presence of water in sumps?  Yes  No

Jan  Feb  Mar  Apr  May  Jun  Jul  Aug  Sep  Oct  Nov  Dec

Safe Suction  N/a

Check valve directly below suction pump?  Yes  No

C) Monthly Release Detection (Check all that apply)

Tank Gauge

CLSD  SCLAD  Static 99% ✓ Thermal Co ✓ 90% Overhaul 95% Mech Production

Correct tank size programmed at tank gauge?  Yes  No

Tank diameter/length seem appropriate size?  Yes  No

Tanks manifolded? Gauge set correctly 0.2 tank gal/hr add  Yes  No

Interstitial Monitoring 4 sump sensor - 2 Annular + UIC Sump sensor

[Monthly records must include, date system was checked, observations made, initials of person checking. Electronic records must include power status (on or off), alarm indication status (yes or no) and sensor malfunction notes (yes or no).]

SIR

Ensure pass or fail results within 30-day period. Inconclusive result means release detection requirement not met

Tank release detection records available during inspection *Good*

Tank1:  Jan  Feb  Mar  Apr  May  Jun  Jul  Aug  Sep  Oct  Nov  Dec

Tank2:  Jan  Feb  Mar  Apr  May  Jun  Jul  Aug  Sep  Oct  Nov  Dec

Tank3:  Jan  Feb  Mar  Apr  May  Jun  Jul  Aug  Sep  Oct  Nov  Dec

Tank4:  Jan  Feb  Mar  Apr  May  Jun  Jul  Aug  Sep  Oct  Nov  Dec

Tank5:  Jan  Feb  Mar  Apr  May  Jun  Jul  Aug  Sep  Oct  Nov  Dec

**VII. Spill Prevention** Compliance  Yes  No

Date(s) of last testing: 2-18-25 8-16-22 Number of spill buckets tested 4

Did the spill buckets pass most recent testing?  Yes  No If no, was it replaced/repared?  Yes  No

During inspection, visual damage to spill bucket?  Yes  No *on Bank Diesel bucket. 1 old tank diesel bucket*

Hydrostatic testing (test takes one hour to complete) *Both passed in 2-18-25*

Vacuum test (test takes 1 minute, ending vacuum must be 26 inches water column or greater)

**IX. Overfill Prevention** Compliance  Yes  No

Date(s) of last testing: 2-3-26 + 8(9/24)

Overfill device pass most recent testing?  Yes  No If no, was it replaced/repared?  Yes  No

Overfill method tested:  Alarm  Flapper  Ball Float

Overfill Alarm

Alarm sounds when tank is 90% full  Yes  No

Driver can see or hear alarm at point of transfer  Yes  No

Sounds alarm from tank gauge during inspection  Yes  No

Flapper Valve

Testing verified the valve automatically restricts flow at 95%  Yes  No

Visual observation of flapper on day of inspection?  Yes  No

Ball Float

Testing verified the ball float automatically restricts flow at 90%  Yes  No

Visual observation of ball float during inspection?  Yes  No

**X. Corrosion Protection** Compliance  N/a  Yes  No

Cathodic  Galvanic  Impressed Current *↑*

Steel tank with cathodic?  Yes  No

Steel pipes with cathodic?  Yes  No

Steel flex-lines with cathodic?  Yes  No

Date of last cathodic testing: \_\_\_\_\_ Last two tests available?  Yes  No

Pass most recent testing?  Yes  No If no, was it replaced/repared?  Yes  No

Date of repair \_\_\_\_\_ Date of retesting \_\_\_\_\_

Impressed current system

Rectifier Operational  Yes  No

Rectifier log maintained  Yes  No

Rectifier been operating continuously  Yes  No

Tank Lining

Date of last testing  Yes  No

Pressure test conducted  Yes  No

**XI. General notes from inspection**

Representative onsite: \_\_\_\_\_ Email: \_\_\_\_\_

Albert & Jay from H&S met me onsite -  
Records good, clean and dry on ramps and side.

Compliance Determination:  No Violations Observed       Observed violations resulting in enforcement

RE: UST Compliance Inspection  
DEQ UST # 12126

Salaheddin,

The Oregon Department of Environmental Quality (DEQ) finalized the underground storage tank (UST) full compliance inspection that was conducted at the facility listed above on February 17, 2026. The purpose of this letter is to inform you of the results of this inspection. Based on the records available and site conditions, the DEQ inspector did not observe any violations with applicable State of Oregon UST rules on this day.

During an inspection, DEQ attempts to conduct a thorough review of the UST system. Nonetheless, you, as the permittee and owner, remain responsible for complying with all applicable UST rules. Therefore, if a violation is observed during a subsequent inspection, the facility will be cited for this violation and may be subject to civil penalties.

The DEQ appreciates your efforts to operate and maintain your UST system in compliance with Oregon environmental law. This facility is subject to future inspections. Please remember to conduct service and maintenance inspections and periodic testing at the required intervals and to implement and/or maintain adequate record keeping. Some general recommendations for maintaining UST compliance are listed below.

- Monitor tanks and piping for leaks and keep twelve months of monthly and or daily records as necessary for your specific systems. **Notify the DEQ any leak test results indicating the possibility of a release (i.e., test failure) within 24 hours as a suspected release (OAR 340-150-0500) and immediately begin investigation under OAR 340-150-0510.**
- Maintain financial responsibility coverage for pollution liability.
- Keep spill prevention devices emptied and clean – particularly just before fuel deliveries.
- Schedule and complete UST system corrosion protection testing on the required 3 year schedule, if necessary.
- Monitor fuel delivery records for signs of overfilling to capacity and make corrections to defective overfill prevention equipment or improper delivery procedures as necessary.

RE: UST Compliance Inspection  
DEQ UST # 12126

Salaheddin,

The Oregon Department of Environmental Quality (DEQ) finalized the underground storage tank (UST) full compliance inspection that was conducted at the facility listed above on February 17, 2026. The purpose of this letter is to inform you of the results of this inspection. Based on the records available and site conditions, the DEQ inspector did not observe any violations with applicable State of Oregon UST rules on this day.

During an inspection, DEQ attempts to conduct a thorough review of the UST system. Nonetheless, you, as the permittee and owner, remain responsible for complying with all applicable UST rules. Therefore, if a violation is observed during a subsequent inspection, the facility will be cited for this violation and may be subject to civil penalties.

The DEQ appreciates your efforts to operate and maintain your UST system in compliance with Oregon environmental law. This facility is subject to future inspections. Please remember to conduct service and maintenance inspections and periodic testing at the required intervals and to implement and/or maintain adequate record keeping. Some general recommendations for maintaining UST compliance are listed below.

- Monitor tanks and piping for leaks and keep twelve months of monthly and or daily records as necessary for your specific systems. **Notify the DEQ any leak test results indicating the possibility of a release (i.e., test failure) within 24 hours as a suspected release (OAR 340-150-0500) and immediately begin investigation under OAR 340-150-0510.**
- Maintain financial responsibility coverage for pollution liability.
- Keep spill prevention devices emptied and clean – particularly just before fuel deliveries.
- Schedule and complete UST system corrosion protection testing on the required 3 year schedule, if necessary.
- Monitor fuel delivery records for signs of overfilling to capacity and make corrections to defective overfill prevention equipment or improper delivery procedures as necessary.

- Be aware of any suspected release condition and keep an alarm log to record any such conditions. Suspected release conditions include failed tank or piping leak tests, fuel or liquid sensor alarms, fuel is found in secondary containments or when liquid of any kind (dry or vacuum systems) is found in a tank interstitial space. Such conditions must be reported to the DEQ within 24 hours and an investigation into the cause must be conducted.
- Contact your service provider for assistance with testing and alarm investigation.
- Contact your service provider and begin an investigation if you suspect fuel loss, equipment is malfunctioning, leak detectors are triggering, or product lines are losing prime.
- Report a confirmed release to the DEQ within 24 hours of confirming product loss into the subsurface in any amount.

Please contact me if you have any questions about this matter at the DEQ Northwest office at 503-360-4408 or [blakely.gilbert@deq.oregon.gov](mailto:blakely.gilbert@deq.oregon.gov).

**CERTIFICATE OF INSURANCE  
COUNTRYWIDE**

<b>Name and Address of Insured</b>	<b>Name and Address of Insurer</b>
HASCO Holdings, LLC 2860 North Santiago Boulevard Orange, CA 92867	Nautilus Insurance Company 7233 East Butherus Drive  Scottsdale, AZ 85260-2410

<b>Policy Number</b>	<b>Policy Effective Date</b>	<b>Policy Expiration Date</b>	<b>Endorsement Effective Date</b>
CST2046508-10	3/19/2025	3/19/2026	3/19/2025

**Certification:**

1. Nautilus Insurance Company, the Insurer, as identified above, hereby certifies that it has issued liability insurance covering the following storage tank system(s):

**See attached Schedule of Covered Location(s) and Covered Storage Tank System(s) Endorsement.**

For taking corrective action and compensating third parties for bodily injury and property damage caused by accidental releases; in accordance with and subject to the limits of liability, exclusions, conditions, and other terms of the policy arising from operating the storage tank system(s) identified above.

The limits of liability are \$2,000,000 each occurrence and \$10,000,000 annual aggregate, exclusive of legal defense costs, which are subject to a separate limit under the policy. This coverage is provided under CST2046508-10. The effective date of said policy is 3/19/2025.

2. The Insurer further certifies the following with respect to the insurance described in Paragraph 1:
  - a. Bankruptcy or insolvency of the insured shall not relieve the Insurer of its obligations under the policy to which this certificate applies.
  - b. The Insurer is liable for the payment of amounts within any deductible applicable to the policy to the provider of corrective action or a damaged third-party, with a right of reimbursement by the insured for any such payment made by the Insurer. This provision does not apply with respect to that amount of any deductible for which coverage is demonstrated under another mechanism or combination of mechanisms as specified in 40 CFR 280.95-280.102 and 280.104-280.107.
  - c. Whenever requested by a Director of an implementing agency, the Insurer agrees to furnish to the Director a signed duplicate original of the policy and all endorsements.
  - d. Cancellation or any other termination of the insurance by the Insurer, except for non-payment of premium or misrepresentation by the insured, will be effective only upon written notice and only after the expiration of 60 days after a copy of such written notice is received by the insured. Cancellation for non-payment of premium or misrepresentation by the insured will be effective only upon written notice and only after expiration of a minimum of 10 days after a copy of such written notice is received by the insured.
  - e. The insurance covers claims otherwise covered by the policy that are reported to the Insurer within six months of the effective date of cancellation or non-renewal of the policy except where the new or renewed policy has the same

retroactive date or a retroactive date earlier than that of the prior policy, and which arise out of any covered occurrence that commenced after the policy retroactive date, if applicable, and prior to such policy renewal or termination date. Claims reported during such extended reporting period are subject to the terms, conditions, limits, including limits of liability, and exclusions of the policy.

I hereby certify that the wording of this instrument is identical to the wording in 40 CFR 280.97(b)(2) and that the Insurer is licensed to transact the business of insurance or eligible to provide insurance as an excess or surplus lines insurer in one or more states.

A handwritten signature in black ink, appearing to read 'Kenneth Berger', with a long horizontal flourish extending to the right.

## ENDORSEMENT

This endorsement forms a part of the policy to which it is attached. Please read it carefully.

### ADDITIONAL NAMED INSURED(S) - SCHEDULED

Policy Number	Policy Effective Date	Policy Expiration Date	Endorsement Effective Date
CST2042939-10	3/19/2025	3/19/2026	3/19/2025

In consideration of the payment of premium by the **Named Insured**, we agree, subject to all the terms, exclusions and conditions of the policy, that the person(s) or entity(ies) scheduled below shall be added as Additional **Named Insured(s)**.

### SCHEDULE OF ADDITIONAL NAMED INSURED(S)

H&S Distribution, LLC  
H&S Energy Lubricants, LLC  
H&S Energy Transportation, LLC  
H&S Energy Venture Group, LLC  
H&S Stations, LLC  
HASCO Distribution, LLC  
HASCO Stations, LLC  
H&S Energy Products, LLC  
H&S Energy, LLC

The coverage that is provided by this endorsement is limited to the vicarious liability that is a direct result of the actions or that is a direct result of the operations of the **Named Insured**. This policy does not provide for coverage and does not provide for a defense for any loss or for a defense to a **claim** that may be ascribed to the actions or to any loss that may be attributable to the negligence of a **Named Insured**.

**ALL OTHER TERMS AND CONDITIONS OF THE POLICY SHALL APPLY AND REMAIN UNCHANGED.**

**SCHEDULE OF COVERED LOCATION(S) AND COVERED STORAGE TANK SYSTEM(S)**

This schedule is a part of the policy to which it is attached. Please read it carefully.

Policy Number	Policy Effective Date	Policy Expiration Date	Endorsement Effective Date
CST2042939-10	03/19/2025	03/19/2026	

In consideration of the premium charged, it is agreed and understood that coverage is provided for the **covered location(s)** and **covered storage tank system(s)** listed below.

RE: UST Compliance Inspection  
DEQ UST # 12126

The Oregon Department of Environmental Quality (DEQ) is conducting underground storage tank (UST) inspections throughout Oregon. The purpose of this letter is to inform you that your facility, among others, has been selected for inspection. A thorough inspection of your facility will be conducted to determine compliance with state and federal UST requirements. **The date you receive this letter is the date that the inspection starts.** If you have work done after that date, you will need to have the previous set of records available for evaluation in addition to the most recent records.

**If I do not hear from you, the inspection for this facility is scheduled for February 17<sup>th</sup>, 2026, starting at approximately 11:00 am.** Please note that the inspection will require uninterrupted participation and attendance by you or a knowledgeable assistant. For the inspection you need to provide access to tank sumps, under dispenser areas, cathodic protection rectifiers, and leak monitoring equipment. DEQ will not touch the equipment or enter the facility, if you are unable to assist with equipment access, please have your UST Service Provider there. This inspection may also include review of Stage I Vapor Recovery.

To complete this inspection, you will need to have compliance testing records available on-site on the day of the inspection or sent to me prior to the inspection at [blakely.gilbert@deq.oregon.gov](mailto:blakely.gilbert@deq.oregon.gov) If the records are not available during the day of the inspection, you will have five (5) business days to provide the records to me electronically. After which time this facility will be subject to enforcement actions.

At a minimum the following records are required to complete this inspection:

- Line and leak detector testing results for the past three years,
- Monthly tank leak detection records (12 months),
- Class A, B, and C training documentation.
- Financial responsibility mechanism.
- Annual tank gauge / release detection equipment certification
- Spill prevention testing records
- Overfill Prevention Equipment testing
- Cathodic protection testing (if applicable)

- Tank lining records (if applicable)
- Monthly walkthroughs

As stated previously, DEQ will not touch any equipment and if you are unable to assist with equipment access, please have your UST Service Provider there to remove manway or sump lids. DEQ will need to observe what equipment is in the tank top sumps and under the dispensers. If ball floats are the primary overfill protection device, these will need to be verified during the inspection, please be able to locate and remove the ball floats.

If violations are found at the time of the inspection without prior notification, DEQ is required to initiate enforcement action. For UST violations, enforcement usually begins with a field citation option, which is much like paying a traffic ticket and making corrections.

Some enforcement situations including repeat violations will go through a longer and more formal process including civil penalties.

Thank you for your cooperation. I can be reached at 503-360-4408 or [blakely.gilbert@deq.oregon.gov](mailto:blakely.gilbert@deq.oregon.gov) to answer any questions you may have and assist you in the preparation for your inspection.

Sincerely,

A handwritten signature in black ink that reads "Blake Gilbert". The signature is written in a cursive style with a large, stylized initial "B".

Blake Gilbert  
UST Compliance Specialist
