Subject: *Revised Siltronic Operable Unit Groundwater Source Control Evaluation Report*  
Siltronic Corporation  
Portland, Oregon  
ECSI No. 183

Dear Samantha Hopman:

The Oregon Department of Environmental Quality (DEQ) has prepared this letter to approve the November 25, 2025 *Revised Siltronic Operable Unit Groundwater Source Control Evaluation Report*<sup>1</sup> (Revised SCE Report) prepared by Maul Foster & Alongi, Inc. (MFA) on behalf of Siltronic Corporation (Siltronic). The Revised SCE Report was prepared pursuant to the 2023 Consent Order (DEQ No. LQVC-NWR-23-02) and adequately addresses DEQ's comments on the February 2025 *Siltronic Operable Unit Groundwater Source Control Evaluation Report*<sup>2</sup>. Consistent with the 2023 Consent Order Scope of Work, DEQ has determined that a revised SCE Report is not necessary at this time and that there is sufficient information to make a source control decision regarding groundwater discharges from the Siltronic Operable Unit.

Please contact me at 971-269-7916 or by email at [Amber.Lutey@deq.oregon.gov](mailto:Amber.Lutey@deq.oregon.gov) should you have any questions.

Sincerely,

Amber Lutey, R.G.  
Project Manager/Hydrogeologist  
Northwest Region Cleanup Section
