Brandon Hadzinsky,

PCC Structural, Inc. Large Parts Campus (PCC) was called in to the Cleaner Air Oregon (CAO) program on October 4, 2019, and submitted an initial Emissions Inventory (Inventory) on January 2, 2020. Since that time, PCC has been working with DEQ to complete required source testing and update the Inventory.

On June 5, 2025, DEQ sent PCC a letter requesting updates to the Inventory and supplemental calculations by August 4, 2025, source testing by September 3, 2025, and additional revisions to the Inventory by 30 days after source test approval. In a letter dated June 27, 2025, PCC proposed to provide all requested revisions to the Inventory and supplemental calculations by 30 days after source test approval. DEQ approved this extension request on July 3, 2025.

PCC completed source testing on July 29 through August 1, 2025, and submitted a source test report on October 17, 2025, and a revised report on February 26, 2026. In a letter dated March 23, 2026, DEQ approved the source test report and established a new deadline for the Inventory of April 22, 2026. In a letter dated April 6, 2026, PCC requested a 21-day extension to this deadline.

DEQ may grant an extension based on the criteria set in [OAR 340-245-0030\(3\)](#), which require sources to demonstrate progress towards completing the submittal and show that a delay is necessary for good cause. DEQ understands that PCC has demonstrated progress on the Inventory by completing source testing and initiating the significant updates to the Inventory. Further, DEQ agrees that a delay may be necessary in order for PCC to provide the information requested and the address the significant requested revisions.

For these reasons, DEQ approves PCC's request and grants a 21-day extension from the original submittal deadline of April 22, 2026. PCC's Inventory must be submitted by no later than **May 13, 2026**.

DEQ remains available to meet with PCC or provide feedback via email. Please contact me directly at 503-407-7596 or heather.kuoppamaki@deq.oregon.gov, if you have any questions regarding this letter or CAO submittal requirements. I look forward to your continued assistance with this process.

Sincerely,

A handwritten signature in black ink, appearing to read 'H. Kuoppamaki', with a stylized flourish at the end.

Heather Kuoppamaki, P.E.
Cleaner Air Oregon Project Manager
