City of Sherwood, Oregon

Resolution No. 96-627

A RESOLUTION OF THE CITY OF SHERWOOD, OREGON, AUTHORIZING AWARD OF BID TO CUMMINS NORTHWEST, INC., FOR EMERGENCY GENERATOR EQUIPMENT, AT WELL #3 AND THE CITY'S WATER CONTROL SYSTEM, AND ESTABLISHING AN EFFECTIVE DATE.

WHEREAS, the City of Sherwood desires to respond to emergency and natural disasters in a timely and efficient manner; and

WHEREAS, the City of Sherwood, in order to respond to emergencies, desires to purchase and install emergency power generation for Well #3 and the Water Control System of the City; and

WHEREAS, in response to published request for proposals, bids have been received and reviewed for compliance with specification; and

WHEREAS, the anticipated amount of funding which the City projects as cost of emergency generator equipment and installation will not exceed \$70,000.

NOW, THEREFORE, THE CITY RESOLVES AS FOLLOWS:

Section 1. Intent: That the City of Sherwood, Oregon, hereby declares its official intent to accept the bid from Cummins Northwest, Inc. to provide emergency generator power for Well #3 and the Water Control System at Public Works for an amount not to exceed \$70,000.

Section 2. Effective Date: That this Resolution shall be effective upon its approval and adoption.

Duly passed by the City Council April 9, 1996.

Walter A. Hitchcock, Mayor

ATTEST:

Jon Bormet, City Manager-Recorder

Date:

April 5, 1996

To:

Jon Bormet, City Manager

From:

Lee Weislogel, Public Works Director

Subject:

AWARD OF EMERGENCY GENERATOR SET

In response to our advertisement for bids of March 8, 1996, we have received and reviewed the bid document detail. These units will provide emergency power for Well #3 and for the water control system at Public Works.

An additional bid was received after bid closing and therefore was not accepted. We recommend the award be made to Cummins Northwest, Inc. of Portland, Oregon for \$63,767.00 at a cost not to exceed \$70,000.

It should be noted that the budgeted amount for Well #3 was \$85,000. In addition to this, the amount to include the water control system at Public Works will be funded out of contingency this year with the balance from the next fiscal year.

Related to the above, we will also be providing the asosociated site and electrical work at an additional \$80,000., bringing the total cost of construction to \$150,000. The \$85,000. will be obtained from the FY 1995-96 budget and the rest from contingency in the FY 1996-97 budget as stated.
