

RESOLUTION 2011-007

A RESOLUTION ACCEPTING THE 2009-2010 ANNUAL FINANCIAL REPORT FOR THE YEAR ENDED JUNE 30, 2010

WHEREAS, the State of Oregon requires all local governments to have their annual financial reports audited and submitted to the Secretary of State's Office by December 31st annually, and

WHEREAS, the City of Sherwood has completed its annual financial report for the year ended June 30, 2010, and

WHEREAS, the firm of Mueller, Grove and Swank has completed the required audit of the City's annual financial report, attached as Exhibit A.

NOW, THEREFORE, THE CITY OF SHERWOOD RESOLVES AS FOLLOWS:

Section 1: To accept the Annual Financial Report for the year ended June 30, 2010 and the associated auditor's reports, attached as Exhibit A.

Section 2: This Resolution is effective upon its approval and adoption.

Duly passed by the City Council this 18th day of January 2011.

Keith S. Mays, Mayo

Attest:

Sylvia Murphy, CMC, City Recorder

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and Members Of the City Council City of Sherwood, Oregon 22560 SW Pine Street Sherwood, Oregon 97140

We have audited the accompanying financial statements of the City of Sherwood, Oregon (the City) as of and for the years ended June 30, 2010 and 2009, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the City of Sherwood, Oregon as of June 30, 2010 and 2009, and the changes in financial position and cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 19, 2010 on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audits.

Accounting principles generally accepted in the United States of America require that management's discussion and analysis be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Sherwood's financial statements as a whole. The introductory section, combining and individual nonmajor fund financial statements and statistical section are presented for purposes of additional analysis and are not required parts of the financial statements. The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

City of Sherwood, Oregon Management's Discussion and Analysis For the Year Ended June 30, 2010

As management of the City of Sherwood, we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the year ended June 30, 2010.

Financial Highlights					
	June 30,				
	2010	2009			
Net assets	\$ 114,085,807	\$110,262,819			
Change in net assets	3,822,987	3,906,892			
Governmental activities net assets	11,724,090	11,821,925			
Governmental activities change in net assets	(97,835)	(942,007)			
Business-type activities net assets	102,361,717	98,440,894			
Business-type activities change in net assets	3,920,822	4,848,899			

Overview of the Financial Statements

This section provides an overview of the City's basic financial statements. The basic financial statements consist of 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

Government-wide financial statements. These statements present information on the City's finances in a manner similar to a private-sector business.

Information in the government-wide financial statements is segregated into governmental activities and businesstype activities. Business-type activities are the water, sanitary, and storm sewer utilities, streets, and telecommunications. These activities are intended to be self-supporting, with utility charges for services and restricted intergovernmental revenue (for streets) covering operations, and infrastructure development fees funding capital improvements. Governmental activities include Administration (City Manager, Finance, City Recorder, Human Resources, and Information Services); Community Development (Engineering, Planning, and Building); Community Services (Library, Fieldhouse, and Events and Recreation); Public Safety (Police and Emergency Management); Public Works (Administration and Facilities, and Parks Maintenance); and Asset Depreciation, Urban Renewal, General Construction, and Debt Service activities. These activities are supported to a large degree by property taxes.

The statement of net assets shows the City's assets and liabilities, with the difference between the two reported as net assets. All capital assets and long-term liabilities, including those attributable to general government functions, are shown in the statement of net assets.

The statement of activities shows revenues, expenses, and the change in net assets for the City as a whole. Revenues and expenses attributable to specific departments and programs are segregated from general revenues, to display the extent to which general revenues support each function.

Fund financial statements: A fund is a distinct accounting entity that is used to segregate resources restricted to particular purposes. All of the City's funds are categorized as either governmental funds or proprietary funds.

Governmental funds account for the same functions as reported as governmental activities in the government-wide financial statements. However, as more fully explained in the notes to the financial statements, governmental funds focus on measuring available spendable resources. This information is essential for preparation of and compliance with annual budgets. It is a narrower perspective than used in the government-wide financial statements, which include long-term resources and uses. A reconciliation between the balance sheet for governmental funds and the statement of net assets for governmental activities is presented following the former. A reconciliation between the statement of revenues, expenditures, and changes in fund balances for governmental funds and the statement of activities for governmental activities also follows the former.

Enterprise fund financial statements provide the same information as the government-wide financial statements, only in more detail.

The City adopts an annual appropriated budget for each of its funds, and budgetary comparisons have been provided for each.

Notes to the basic financial statements: The notes provide additional information that is essential to a full understanding of the data provided in the financial statements.

Required supplementary information: In addition to the basic financial statements and notes, this report also presents required supplementary information, and budget schedules for the General Fund and major special revenue funds.

Other supplementary information: Budgetary schedules for all other funds are included here, as well as schedules of property tax transactions for both the City and the Urban Renewal Agency.

Statistical information: Statistical schedules for fund, government wide, general government, property taxes, debt, and other information are included here.

Government-wide Financial Analysis

City of Sherwood Statements of Net Assets June 30,

At June 30, 2010, the City reported total assets of \$165,174,881. Of this amount, \$140,406,952 represented longlived capital assets, net of depreciation. The capital assets are used to provide services to the residents of the City of Sherwood and do not represent spendable resources available for budgetary appropriation.

In the current year, governmental revenues were approximately \$97,800 less than governmental expenses, and business-type revenues were approximately \$3,920,800 more than expenses, yielding a net increase overall of approximately \$3,823,000. Governmental revenues were less than the previous year, while expenses were more. Business-type revenues increased, while expenses stayed constant.

The comparative Statement of Activities is as follows:

Governmental activities:

Governmental expenses were funded from the following sources:

City of Sherwood Governmental Activities - Percentage of Funding For the year ended June 30,

	2010	2009
Charges for services	11%	15%
Property taxes	62%	59%
Other	27%	26%
Total revenues	100%	100%

Overall, total revenues and expenses remained fairly constant.

Business-type activities:

As in governmental activities, total revenues and expenses remained fairly constant.

Fund Financial Analysis

Governmental funds: The focus of the governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. In particular, unreserved fund balance measures the City's net resources available for spending in the next fiscal year. At June 30, 2010, total fund balance of the governmental funds was \$4,174,329.

The General Fund had a fund balance of \$1,862,794 at June 30, 2010, an increase of \$964,041. The increase was due primarily to the cost saving efforts of the city staff.

General Fund Budgetary Highlights

During the year, a supplemental budget was adopted which increased expenditures by \$77,500. The reason for the supplemental budget was to provide funding for capital projects in other funds. Actual revenue for the year was approximately \$468,000 less than budgeted revenue. Actual expenditures for the year were approximately \$611,000 less than budgeted expenditures.

Significant Changes in Major Funds

The General Fund balance increased approximately \$1,000,000 from 2009 due to cost cutting measures by city staff. The General Construction fund balance decreased by approximately 90%, this is due to the completion of the Stella Olsen Stage Cover and the Stella Olsen Parking lot projects. The Water fund balance decreased about \$1,000,000 from 2009 due to work on the water reservoir and pipeline projects. The Sanitary fund balance decreased about \$500,000 from 2009 due to infrastructure in the new Brookman area development. The Street fund balance increased approximately \$800,000 due to the receipt of loan proceeds for the Adams Ave. project. The Telecom fund balance decreased approximately \$1,000,000 due to capital costs and an increase in service revenue. The URA fund balance decreased approximately \$1,000,000 due to capital costs related to the Cannery project.

Capital Assets

The City's investment in capital assets at June 30, 2010 was \$140,406,952 net of accumulated depreciation.

Capital assets, net of depreciation, were as follows. Details of the changes in capital assets can be found in the

notes to the financial statements.

City of Sherwood Capital Assets June 30,

	2010	2009
Governmental activities Nondepreciable capital assets Depreciable capital assets, net	\$ 9,534,926 25,629,033	\$ 9,301,914 26,834,280

Total	\$ 140,406,952	\$ 133,416,406

Debt Administration

At June 30, 2010, the City of Sherwood had \$6,365,000 in general obligation bonds and \$42,308,485 in other debt outstanding. All debt is secured by the full faith and credit of the City. The general obligation bonds are repaid by property tax levies. The other debt is being repaid by rent of the recreational facility, system development charges, property tax increment revenue from the City of Sherwood Urban Renewal Agency, and unrestricted resources. Changes in debt are detailed in the notes.

On May 1, 2010 Moody's Investors Service initiated the local government recalibration of its municipal rating scale. All municipal credits rated by Moody's were changed to a Global Scale Rating (GSR), which better reflects the underlying credit quality of municipal issuers compared to that of corporate or sovereign issuers. The City of Sherwood had an A2 rating under the Municipal rating scale and now has an Aa3 rating under the GSR.

Economic Factors and Next Year's Budget and Rates

Sherwood's population growth has slowed considerably over the last four years. Growth levels are expected to range from 1 - 3% until the economy starts to turn. The urban growth boundary has been increased, allowing for development once building activity increases.

The budget for the year beginning July 1, 2010 includes capital project expenditures of over \$18,000,000, with a new water supply being the largest project scheduled for construction. In addition, expenditures related to a new water source are expected to total an additional \$5-\$10 million in the next few years. Operating uses are budgeted to increase to \$76,465.

Requests for Information

Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Finance Director, 22560 SW Pine Street, Sherwood, Oregon 97140.

City of Sherwood, Oregon Reconciliation of the Balance Sheet - Governmental Funds, to the Statement of Net Assets June 30, 2010

Total fund balances reported for governmental funds in the balance sheet differs from net assets reported in the statement of net assets for governmental activities. The nature and amount of the differences is explained below:	ž
Total fund balances - governmental funds	\$ 4,174,326
Long-term debt: Principal balances of bonds, notes, and capital leases, and related unamortized deferrals, are reported on the statement of net assets but not in the funds. All liabilities are reported in the statement of net assets; the funds report only those that will be liquidated with available resources.	
Long-term liabilities Deferred charges	(27,993,839) 385,106
Governmental funds record only those liabilities that will be liquidated with available resources; the statement of net assets records expenses for all liabilities incurred, regardless of when they will be paid. Compensated absences Accrued interest payable	(333,772) (28,933)
Capital assets:	
Capital assets, net of depreciation, are recorded on the statement of net assets but not in the funds.	
Cost	44,584,746
Accumulated depreciation	(9,420,788)
Deferred revenue: Governmental funds record property taxes due but not received within thirty days of year-end as deferred revenue, a liability. The statement of net assets does not	
show deferred revenue for property taxes.	357,244
Total net assets - governmental activities	\$ 11,724,090

City of Sherwood, Oregon Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances - Governmental Funds, to the Statement of Activities For the Year Ended June 30, 2010

Amounts reported for governmental funds in the statement of revenues, expenditures and changes in fund balances differ from amounts reported in the statement of activities for governmental activities. The nature of the differences is explained in Note 1. Amounts are:	
Net change in fund balances - governmental funds	\$ (858,207)
Long-term debt: Governmental funds record the proceeds from issuance of bonds, notes, and capital leases as increases in resources; payments of principal are recorded as uses of resources. The statement of activities does not show issuance of debt nor principal payments. In addition, the statement of activities includes the effects of accrued interest and amortization of bond premiums; the governmental funds do not. Principal paid Amortization of bond premium and issue costs Proceeds from issuance of debt Reclassification of loan balance to Enterprise Funds	2,239,862 (64,185) (1,000,000) 564,798
Governmental funds record expenditures only for those liabilities that will be liquidated with available resources; the statements of activities records expenses for all liabilities incurred, regardless of when they will be paid. Compensated absences Accrued interest payable	(43,628) 4,468
Capital assets: Governmental funds record the purchase of capital assets as decreases in resources. For the statement of activities, only depreciation, which represents the usage of capital assets over time, is recorded as a use of resources.	
Reclass capital assets between funds Capital outlay Depreciation Net book value of assets sold	1,003,722 (1,839,189) (136,769)
Deferred revenue: Governmental funds record property taxes due but not received within thirty days of year-end as deferred revenue, a liability. For the statement of activities, all property taxes receivable are recognized as revenue, regardless of when received.	31,294
Change in net assets - governmental activities	\$ (97,835)

City of Sherwood, Oregon Notes to the Financial Statements June 30, 2010

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting entity

The City of Sherwood is a municipal corporation governed by an elected mayor and six-member council. The City is managed by a City Manager who reports to the Council.

The City of Sherwood Urban Renewal Agency (URA), formed July 1, 2001, is a legally separate entity. The Sherwood City Council serves as the Board of Directors for the URA, and is financially accountable for its operations. The URA is included as a component unit in the government-wide financial statements, blended with the City. Financial statements of the City of Sherwood Urban Renewal Agency may be obtained from the Finance Director of the City.

There are other governmental agencies and service districts which provide services within the City. These agencies have independently elected governing boards and the City is not financially accountable for these organizations. Therefore, financial information for these agencies is not included in the accompanying basic financial statements.

B. Government-wide and fund financial statements

The City budgets and maintains its accounting records by fund. Each fund is a distinct fiscal and accounting entity which segregates resources in accordance with specific restrictions or regulations. This report includes both fund financial statements and government-wide financial statements.

The fund financial statements and schedules report information using the measurement focus and basis of accounting appropriate to the particular type of fund. The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all the activities of the City using a single measurement focus and basis of accounting.

The government-wide financial statements report governmental activities, which normally are supported by taxes and intergovernmental revenues, separately from business-type activities, which rely to a significant extent on user charges for support.

The government-wide statement of activities demonstrates the degree to which the direct expenses of a given department or program is offset by related revenues. Direct expenses are those that are clearly identifiable with a specific department or program. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given department or program, 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular department or program, and 3) business license revenue. Taxes and other items not properly included among program revenues are reported instead as general revenues. General revenue includes the following:

Intergovernmental: revenue from State revenue sharing, cigarette, and liquor taxes, not attributable to or restricted to any one department or program.

Infrastructure development fees: System development charges for parks, restricted to general government capital projects.

C. Measurement focus and basis of accounting

Both the government-wide financial statements and the enterprise fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting.

Measurement focus defines the types of transactions or events that are recorded in a fund's operating statement. Enterprise funds focus on changes in economic resources, much like that of a private-sector business. Governmental funds focus on changes in resources available for spending. The major differences between the two measurement focuses are the treatment of long-term debt and capital assets. Governmental funds record issuance of long-term debt, principal payments on long-term debt, and the resources provided and used by the sale and purchase of capital assets on their operating statements as revenue, expenditures, and other financing sources and uses. Proprietary funds do not record these items on their operating statements, but do record depreciation expense as capital assets are exhausted through use over time.

Basis of accounting defines when transactions or events are recorded. Under the accrual basis of accounting used by the enterprise funds, revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of when the related cash is received or used. Under the modified accrual basis of accounting used by governmental funds, revenues are recognized when they become available and measurable. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 30 days of the end of the fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

D. Funds

The City has the following governmental funds:

General: The General Fund is the primary operating fund. It accounts for financial resources not accounted for in other funds. All indirect costs incurred on behalf of other funds are initially recorded in the General Fund, then subsequently reimbursed by the funds benefiting from the expenditure.

Urban Renewal: The Urban Renewal Fund is the General Fund of the Urban Renewal Agency. The fund accounts for tax increment funds of the agency, operational costs, and debt service payments.

Special revenue: The Asset Depreciation Fund (Resolution 2002-020) is a reserve fund, defined in Oregon budget law that accumulates money from year to year for major capital asset purchases, improvement, and repair, other than those funded by restricted resources. The Urban Renewal Agency General Fund is included as a special revenue fund in these financial statements.

Capital projects: The General Construction Fund records revenue used to acquire land and to construct City buildings, parks, sports fields, recreational facilities, and trails.

Debt service: The Debt Service Fund accounts for property tax revenues restricted for payment of general obligation bonds. Payments of long-term debt other than general obligation bonds are accounted for in the General Fund.

Enterprise funds are used for operations that are similar to business enterprises, where the intent is that costs be recovered primarily through user charges or where determination of net income or loss is useful for public policy. The City has five enterprise funds: Water, Sanitary Sewer, Storm Sewer, Street, and Telecommunications. Each fund records both maintenance activities and capital projects. The Street Fund receives restricted funding from other governments for operations and infrastructure development fees for capital construction.

E. Fund financial statement presentation

12

Accounting principles generally accepted in the United States of America define major and nonmajor funds and segregate and combine certain financial statements for those considered nonmajor. The City of Sherwood has relatively few funds and has chosen to report all of them as major.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their enterprise funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

Enterprise funds distinguish between operating revenues and expenses and nonoperating items. Operating revenues and expenses result from providing services in connection with the utility's ongoing operations. The

principal operating revenues are charges to customers for services, infrastructure development fees charged on building permits, and intergovernmental revenue restricted to Street operations. Operating expenses include contracted services for the regional sewage treatment facility, and depreciation. All revenues and expenses not considered operating are reported as nonoperating items.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

F. Assets, liabilities, and net assets or equity

1. Deposits and investments

Cash and cash equivalents include cash on hand, demand deposits, balances in the Oregon State Treasury's Local Government Investment Pool (LGIP), and loan proceeds held by the Oregon Economic and Community Development Department (OECDD).

LGIP balances can be withdrawn with one day's notice. The LGIP operates in accordance with appropriate state laws and regulations. Reported values of the City's share of the LGIP are the same as fair values.

2. Receivables

Accounts receivable are largely for property taxes, municipal court fines, and utility services. Property tax receivables become liens on real property if not paid. Consequently, no allowances for uncollectible accounts are provided for them. An allowance for uncollectible accounts has been recorded for court fines receivable.

Property taxes levied for the fiscal year beginning July 1 are calculated on assessed values on January 1. Property taxes become a lien on the property on July 1. The tax roll is certified and billed in October. Taxes are due in equal payments on November 15, February 15, and May 15. Discounts are allowed for taxes paid in full by November 15. Unpaid taxes are late the day after the due date, and are delinquent on May 16. Interest accrues on all late amounts. Washington County assesses, collects, and turns over property taxes for Sherwood and all other cities in the County. The change in taxes receivable from fiscal year 2008-2009 to fiscal year 2009-2010 is an increase of \$31,294.

3. Capital assets

Capital assets are reported in the applicable governmental or business-type activities columns in the governmentwide financial statements. Capital assets are defined as assets that benefit at least two fiscal periods and have a cost of at least \$5,000.

Infrastructure is defined as long-lived capital assets that can be preserved for a significantly greater number of years than most capital assets, and are normally stationary in nature. Infrastructure includes such items as water and sewer pipes, roads, and bridges.

Purchased or constructed capital assets are recorded at historical cost, or estimated historical cost if historical cost is not known. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Infrastructure:	
Paved streets	20
Other	100
Buildings	50 to 60
Land improvements	12 to 20
Machinery and equipment	7 to 20
Licensed vehicles	10

4. Compensated absences

City employees accumulate earned but unused paid time off and sick leave. There is no liability for accumulated sick leave since the City does not pay any such amounts when employees separate from service. All unused paid time off is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they are due because of employee separation, such as resignation or retirement.

5. Long-term debt

In the government-wide and proprietary fund financial statements, long-term debt is reported as a liability of the applicable activity. Bond premiums, discounts, deferred charges, and issuance costs are deferred and amortized over the life of the bonds on the straight line method. Bonds payable are reported net of the applicable premium or discount. Deferred charges and issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the governmental fund financial statements, bond premiums and discounts, as well as bond issuance costs, are recognized in the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

6. System development charges

As part of a new housing or commercial development, developers may be required to construct public improvements such as storm drains, sewer lines, and streets. The developers can apply for system development charge (SDC) credits for the eligible cost of those improvements. When building permits are applied for, SDC's are charged; simultaneously, the developers can offset the SDC charge by using SDC credits that had been previously granted. The credits granted are useable for 7 years after acceptance of the public improvements by the City. Any credits not used by then expire. Unused credits are considered a long-term liability and are included in the statement of net assets.

7. Fund equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for a specific purpose. State law provides that the cumulative surplus of the Building Department be reserved to cover any future deficits. Designations of fund balance reflect intended use of resources approved by the City Council.

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The City records all personnel and indirect costs in the General Fund departments. Periodically, other departments and funds are charged for the net costs incurred on their behalf. The reimbursements are made based on revenue and expenditures recorded on the budgetary basis – the current financial resources measurement focus and the modified accrual basis of accounting.

III. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

In accordance with Oregon budget law, the City budgets all funds, including enterprise funds, using the current financial resources measurement focus. Actual results for enterprise funds are shown on both the budgetary (current financial resources) and GAAP basis (economic resources) in this financial report.

The budget process begins with appointment of a Budget Officer and Budget Committee. Budget recommendations are developed through late winter. The Budget Committee approves the budget in early spring; public notices are published and public hearings held; and the Council adopts the budget prior to June 30.

Expenditures are appropriated by Division or by type, as follows:

The General Fund is split into departments which reflect city programs and managerial responsibilities. These are grouped into five divisions for purposes of appropriations. The divisions are:

- Administration
- Public Safety
- Public Works
- Community Development
- Community Services

The Asset Depreciation, Debt Service, Urban Renewal, General Construction, and the Telecommunication Funds are appropriated based on personal services, materials and services, capital outlay, debt service, transfers out and contingency.

Enterprise funds are appropriated by the operations or capital programs.

Expenditures cannot exceed appropriations at these legal levels of control. Management may amend line items in the budget without City Council approval so long as appropriations at the legal level of control are not changed. The City Council can amend the budget at the legal level of control within certain limits specified by statute.

Final budget amounts in the statements and schedules in the Financial Section reflect the original budget and supplemental budgets.

All appropriations lapse at fiscal year-end.

IV. DETAILED NOTES ON ALL FUNDS

A. Cash and Investments

Cash and Investments are reflected on the Statement of Net Assets at June 30, 2010 as follows:

	Carrying Value			Fair Value
Deposits				
Petty cash	\$	2,100	\$	2,100
Deposits with financial institutions		1,403,566		1,403,566
Investments				
Local Government Investment Pool		21,665,608		21,665,608
			÷	
	\$	23,071,274	\$	23,071,274

Deposits

à,

At June 30, 2010, the City's deposits with various financial institutions had a bank value of \$1,782,836. All deposits not covered by FDIC insurance are covered by the Public Funds Collateralization Program (PFCP) of the State of Oregon. The PFCP is a shared liability structure for participating bank depositories, better protecting public funds though still not guaranteeing that all funds are 100% protected. Barring any exceptions, a bank depository is required to pledge collateral valued at least 10% of their quarter-end public fund deposits if they are well capitalized, 25% of their quarter-end public fund deposits if they are undercapitalized or assigned to pledge 110% by the Office of the State Treasurer. In the event of a bank failure, the entire pool of collateral pledged by all qualified Oregon public funds bank depositories is available to repay deposits of public funds of government entities.

Custodial Risk - Deposits

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. At June 30, 2010, the City had deposits of \$250,000 insured by federal depository insurance and \$1,532,836 collateralized under the PFCP.

Investments

The State Treasurer of the State of Oregon maintains the Oregon Short-Term Fund, of which the Local Government Investment Pool is part. Participation by local governments is voluntary. The State of Oregon investment policies are governed by statute and the Oregon Investment Council. In accordance with Oregon Statutes, the investment funds are invested as a prudent investor would do, exercising reasonable care, skill and caution. The Oregon Short-Term Fund is the LGIP for local governments and was established by the State Treasurer. It was created to meet the financial and administrative responsibilities of federal arbitrage regulations. The investments are regulated by the Oregon Short-Term Fund Board and approved by the Oregon investment Council (ORS 294.805 to 294.895). At June 30, 2010, the fair value of the position in the Oregon State Treasurer's Short-Term Fund is not subject to risk evaluation. Separate financial statements for the Oregon Short-Term Fund are available from the Oregon State Treasurer.

Custodial Risk – Investments

For an investment, this is the risk that, in the event of a failure of the counterparty, the City will not be able to recover the value of its investments or collateralized securities that are in the possession of an outside party.

The LGIP is administered by the Oregon State Treasury with the advice of other state agencies and is not registered with the U. S. Securities and Exchange Commission. The LGIP is an open-ended no-loan diversified portfolio offered to any agency, political subdivision, or public corporation of the state that by law is made the custodian of, or has control of any fund. The LGIP is commingled with the State's short-term funds. In seeking to best serve local governments of Oregon, the Oregon Legislature established the Oregon Short-Term Fund Board, which has established diversification percentages and specifies the types and maturities of the investments. The purpose of the Board is to advise the Oregon State Treasury in the management and investment of the LGIP. These investments within the LGIP must be invested and managed as a prudent investor would, exercising reasonable care, skill and caution. The LGIP is not rated for credit quality. Professional standards indicate that the investments in external investment pools are not subject to custodial risk because they are not evidenced by securities that exist in physical or book entry form. Nevertheless, management does not believe that there is any substantial custodial risk related to investments in the LGIP.

B. Capital assets

Capital asset activity in the year ended June 30, 2010 was as follows:

		Beginning Balance		Additions	Deletions			Ending Balance
Governmental Activities					-			
Capital assets, not being depreciated:								
Land	\$	9,161,010	\$	330,661	S		\$	9,491,671

Total depreciation expense - business-type activities	\$ 2,739,475

C. Long-term liabilities

1. Debt outstanding

The City uses general obligation bonds and long-term loans to finance construction and acquisition of major capital facilities. General obligation bonds pledge the City's ability to levy property taxes; long-term notes pledge the full faith and credit of the City.

The City of Sherwood Urban Renewal Agency (URA) began work on construction projects in 2003-04. The City issues debt and builds the capital projects; the URA reimburses the City for debt service, using its property tax increment revenue. Bonds and loans outstanding at June 30, 2010 were:

	Original Amount	Interest Rates	Annual Debt Service
General obligation bonds:			
2004A&B refunding	\$ 6,045,000	1 - 3.8%	\$ 144,838-664,050
2001 Police facility	3,840,000	4 - 4.875%	294,189 - 307,052
Long-term loans for the City:			
2001 YMCA recreation center	1,970,000	2.76 - 5.4%	185,473 - 198,502
2002 Public Works and Fieldhouse	1,900,000	4.6%	238,110
2005 Sunset Park	2,300,000	3.4%	506,679 - 508,580
Long-term loans on behalf of the URA:	, ,		
2003 Civic building	2,435,000	3.55 - 4.65%	308,718-313,240
2003 OECDD Civic building & streets	5,845,708	3 - 4.625%	433,600 - 438,774
2004 land purchase	350,000	3.6%	284,520 - 305,590
2005 Sports Fields	280,000	3.4%	24,256 - 24,350
2005 Old School	550,000	5.75%	55,000 - 56,000
2006 URA Streets	1,800,000	5.38%	175,395
2006 Downtown Streets	6,400,000	Variable	480,000 - 485,000
2008 URA Line of credit	6,065,000	1.9%	due July 2010
Long-term loans for the Water Utility:			
2010 Water supply interim loan	10,000,000	Variable	due May 10, 2011
2008 SDW Water Reservoir	6,000,000	3.55%	424,079
2009 Stella Olsen Culvert	500,000	3.5%	109,441
2009 SDW Water Pipeline	6,000,000	3.83%	525,790

The 2006 Downtown Streets loan carries an interest rate equal to 63.5% of the Bank of America prime rate, minus 0.80%. The interest rate on this loan at June 30, 2010 was 5.36 %. The 2010 Water supply interim loan carries an interest rate of 64% of the Bank of American prime rate, plus 0.65%. The interest rate on this loan at June 30, 2010 was 0.8722016%. The Bank of America prime rate is subject to change on a daily basis.

Changes in long-term liabilities for the year ended June 30, 2010 are as follows:

The 2004 A & B Refunding bonds were issued to take advantage of lower interest rates and to reduce the City's debt service costs on existing debt.

The 2001 Police Station bonds were issued to provide financing for construction on the police station.

The 2001 YMCA loan was in connection with the acquisition of property.

The 2002 Public Works loan was used to purchase land and a building. The building was remodeled to house Public Works and to include an indoor recreational facility for public use. The loan is considered a debt of the governmental funds because the security is the City's full faith and credit and taxing power. Although the revenue of the Enterprise funds was not pledged as security for the debt, these funds are contributing toward debt service payments on the loan. The amounts are budgeted and reported as payments for debt service in the Enterprise funds.

The 2003Civic building loan provided funds for construction of the City Hall and library.

The 2003 OECDD loan provided a portion of the funds to construct a new library and City Hall, and fund the first \$1,000,000 of street improvements in Old Town. The 2004 cannery loan is for demolition of the cannery site, which will be sold for redevelopment by private investors.

The 2004 URA loan was for the sales costs and demolition of the cannery property,

The 2005 URA loans were for the acquisition of the Old School and improvements to sports field property.

The 2006 URA loans provided the bulk of the funds for reconstruction of downtown streets and fixtures.

The 2008 Water debt was extended in 2010. The new terms call for interest quarterly at a variable rate, with principal due in full on May 16, 2011.

In 2008 the URA obtained a line of credit for \$7,065,000. The final \$1,000,000 was drawn on the line of credit in 2010 for the Adams Street project. The line of credit is due in full on July 8, 2010.

In 2008 the City obtained a \$6,000,000 loan for construction of the water reservoir. The final draw on the loan was completed in fiscal year 2010 for \$403,748.

In 2009 the City obtained a \$500,000 loan for storm drain construction. The final payment is due in 2013-14.

In 2009 the City obtained a \$6,000,000 loan for construction of the water pipeline. During the fiscal year ended June 30, 2010 the City drew down \$2,748,808 of the loan proceeds.

In fiscal year 2010 the City brought water operations back in house to be managed by City staff. During the process the loan for the allocation of debt for the Public Works loan was reclassified resulting in a transfer of balances between the Governmental funds and the Enterprise funds. The amount of the transfer was \$564,798.

The City will be obtaining additional financing for the water pipeline in fiscal year 2011; at this time the amount needed is undetermined.

2. Debt service requirements

Debt service requirements to maturity are as follows, assuming full drawdown of the water pipeline loan:

D. Transfers

Operating transfers on the budgetary basis of accounting were made as follows. In the enterprise funds, transfers to other funds for debt service were budgeted as debt service expenditures, and are reported as such in the individual fund statements. For fund financial statements presented on the GAAP basis, such transfers have been reported as transfers.

	Transfers In	Transfers Out
General	\$ 372,367	\$ 49,252
Asset Depreciation	130,004	
General Construction	49,252	200,000
Water	538,013	35,004
Sanitary		83,407
Storm	14	541,788
Street	2,986	183,171
	\$ 1,092,622	\$ 1,092,622

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

V. OTHER INFORMATION

A. Risk management

The City is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omission, injuries to employees, and natural disasters. The City purchases commercial insurance to minimize its exposure to these risks. Settled claims have not exceeded this commercial coverage for any of the past three years.

B. Commitments and contingencies

The City is involved in various claims and legal matters relating to its operations which have all been tendered to the City's liability insurer or are being defended by attorneys. The City does not believe that any of these matters will have a material impact on its June 30, 2010 financial statements.

C. Pension plan

Plan Description

The City is a participating employer in the Oregon Public Employees Retirement System ("OPERS"), a costsharing multiple-employer defined benefit pension plan. The 2003 legislature adopted certain changes in the Oregon Public Employee Retirement System, and created a new system for all people hired after August 29, 2003. The Public Employee Retirement System (PERS), which was established under Oregon Revised Statute (ORS) 238.600, applies to all employees who had established membership prior to August 29, 2003. The Oregon Public Service Retirement Plan (OPSRP), which was established under ORS 238A and went into effect on January 1, 2004, applies to all people who are first employed with a public employer after August 29, 2003. The Public Employees Retirement Board (PERB) governs and acts as a common investment and administrative agent for both plans which are the retirement plans for most public employers in the State of Oregon. Benefits are established by state statute, and employer contributions are made at the actuarially determined rate for each system as adopted by the PERB. The Oregon Public Employees Retirement System, a component unit of the State of Oregon, issues a comprehensive annual financial report, which may be obtained by writing to Public Employees Retirement System, P.O. Box 23700, Tigard, Oregon 97281-3700.

Both PERS and OPSRP plans provide retirement and disability benefits, post-employment healthcare benefits, annual cost of living adjustments, and death benefits to plan members and beneficiaries.

Funding Status

Covered employees are required by state statute to contribute 6.0 percent of their salary to the plan which is invested in the Individual Account Program (IAP). Employers are permitted to pay employee contributions to the fund.

The City is required by statute to contribute actuarially computed amounts as determined by OPERS. OPERS completes an actuarial valuation as of December 31 of odd numbered years for new rates to be implemented July 1 of the next odd numbered year. Rates are subject to change as a result of subsequent actuarial valuations and the proportion of the system that is funded for each local government employer.

For OPSRP, all employers are included in a single pool, with separate rates assigned for police and fire participants and general service participants. Beginning January 1, 2004 OPSRP rates were set at 13.08 percent for police and fire and 9.47 percent for general service employees. These rates changed to 16.47 percent and 13.20 percent, respectively, on July 1, 2007 based on the December 31, 2005 valuation. These rates changed to 11.29 percent and 8.58 percent, respectively, on July 1, 2009 based on the December 31, 2007 valuation.

Annual Pension Cost

The City paid the following contributions to PERS for the fiscal years ending June 30.

		Fi	scal Year	
	2007-2008		2008-2009	2009-2010
Employer Contributions	\$ 571,668	\$	648,817	\$ 522,422
6% Employee Contributions paid by the City	251,008		280,655	313,921
Total PERS Contributions Paid by the City	\$ 822,676	\$	929,472	\$ 836,343

Postemployment Benefits Other Than Pensions

The City has no OPEB liability under GASB 45.

D. GASB PRONOUNCEMENTS ISSUED, NOT YET IN EFFECT

The Governmental Accounting Standards Board (GASB) has issued several pronouncements that have future effective dates that may impact future financial presentations.

Management has not currently determined what, if any, impact implementation of the following statements may have on future financial statements.

GASB Statement No. 54 "Fund Balance Reporting and Governmental Fund Type Definitions", issued February, 2009 will be effective for the City beginning with its fiscal year ending June 30, 2011. The Statement establishes new classifications for fund equity and new definitions for governmental fund types.

E. OVEREXPENDITURE OF APPROPRIATIONS

Oregon law prohibits expenditures in excess of Council-approved appropriations. The City had the following overexpenditures of appropriations during the current year.

General Construction Fund Personal services Debt Service	\$
Transfers Out Debt Service Debt Service	200,000 370
Urban Renewal Agency Fund Personal services	8,042

F. SUBSEQUENT EVENTS

The City adopted the provisions of Statement of Financial Accounting Standards ("SFAS") No. 165, "Subsequent Events" (ASC 855). ASC 855 establishes new accounting and disclosure requirements for subsequent events. Management has evaluated subsequent events through November 19, 2010, the date on which the financial statements were available to be issued. Management is not aware of any subsequent events that require recognition or disclosure in the financial statements.

- (a) This is the permanent rate, which funds general operations. Permanent rates were fixed by the State in 1997 when property tax limitation measures were approved by the voters. No action of the City can increase the permanent rate from 3.2975.
- (b) Debt service levies are used for payments on general obligation bonds. The City may levy whatever rate is needed to pay debt service on these voter-approved bonds.
- (c) The City of Sherwood Urban Renewal Agency is given those property taxes attributable to the Urban Renewal District which are in excess of the assessed value for the fiscal year ended June 30, 2001. To the extent that these taxes would otherwise have gone to the City of. Sherwood, the City's permanent rate reflects the reduction in taxes remitted to the City.

CERTIFIED PUBLIC ACCOUNTANTS AND CONSULTANTS 475 Cottage Street NE, Suite 200, Salem, Oregon 97301 (503) 581-7788

INDEPENDENT AUDITOR'S REPORT REQUIRED BY OREGON STATE REGULATIONS

Honorable Mayor and Members Of the City Council City of Sherwood, Oregon 22560 SW Pine Street Sherwood, Oregon 97140

We have audited the basic financial statements of the City of Sherwood, Oregon (the City) as of and for the year ended June 30, 2010, and have issued our report thereon dated November 19, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America.

Compliance

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to the following:

- Deposit of public funds with financial institutions (ORS Chapter 295).
- Indebtedness limitations, restrictions and repayment.
- Budgets legally required (ORS Chapter 294).
- Insurance and fidelity bonds in force or required by law.
- Programs funded from outside sources.
- Authorized investment of surplus funds (ORS Chapter 294).
- Public contracts and purchasing (ORS Chapters 279A, 279B, 279C).
- Accountability for collecting or receiving money by elected officials no money was collected or received by elected officials.

In connection with our testing nothing came to our attention that caused us to believe the City was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions

of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, except for over expenditure of appropriations as indicated in the notes to the financial statements.

OAR 162-10-0230 Internal Control

In planning and performing our audit, we considered the City's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over financial reporting.

This report is intended solely for the information and use of the City, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these parties.
