MEMORANDUM

TO: Planning Commission
FROM: Todd Dugdale, Planning Director JP
RE: October 21st Meeting Agenda

Since there are no scheduled reviews for your regular meeting agenda I have arranged for a slide-tape presentation on the costs of growth to aid in a continued discussion of possible refinements to the city's growth management policies.

As a way of putting the presentation in context I am suggesting that you read and be prepared to discuss the three general approaches to growth management outlined in the OSU publication "Introduction to Growth Management." The staff will introduce the discussion with a description of the approach taken in the Comprehensive Plan.
