

TO THE STATE HIGHWAY COMMISSION.

WHEREAS-----: Inasmuch as the County Court of Washington county has declared its intentions of improving what is known as the Sherwood Loop road with an oil bound macadam from the Pacific Highway to the city limits on the North and South entrance of the city, and that the said County Court of Washington county intends to have the State Highway Commission construct their portion of the Sherwood Loop road;

NOW THEREFORE: the city deems it advisable at this time to have that portion of the Sherwood Loop road lying within the city limits consisting of approximately 2000 feet improved with the same type of improvement that the county will build on their portion of the loop to the city limits; therefore, we do hereby request the State Highway Commission to construct that portion of the loop road lying within the city limits at the same time they construct the County's portion, that the loop may be of a continuous unit.
