PRESENTED TO

City of Sherwood

Oregon

For the Fiscal Year Beginning

July 1, 2023

Christopher P. Morill

Executive Director

The Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to the City of Sherwood, Oregon for its annual budget for the fiscal year beginning July 1, 2023.

In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide as a financial plan, and as a communication device.

This award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

How to Make the Most of the Budget Document

This budget document serves to:

- Present the City Council and the public with a clear picture of the services the city provides.
- Provide city management with a financial and operating plan that adheres to the city's financial policies.
- Communicate the vision of the City Council and Leadership Team for the City of Sherwood.
- Present financial and organizational operations for each of the city's departments.

Reader's Guide

The reader's guide provides a variety of information about the city.

- Awards
- Budget Message
- Sherwood's history
- Demographic information
- Council Mission, Values, and Goals
- City organization chart
- Oregon budget process, including an explanation of funds

Revenues & Expenditures

This section includes current revenue by source and current expenses by major category. This section also includes an overview of the main sources of revenue for the city, including a review of Oregon's

property tax system; as well as an overview of the major categories of expenses; personal services, materials and services, and capital outlay.

Debt Service & Capital Improvement Plan (CIP)

This section includes information on our Broadband Bonds, Water Bonds and URA Bonds.

The CIP establishes, prioritizes, and ensures funding for projects to improve existing and develop new infrastructure and facilities. While the CIP serves as a long-range plan (20 years), it is reviewed and revised annually.

Budget Detail

This section includes the detailed budgets for the City as a whole, each fund, division, and program in the City.

Appendix

The Appendix includes the FTE schedules, salary schedules, financial policies, and a glossary with acronyms.

**Sherwood City Manager Pro Tem Budget Message
Fiscal Year 2024-25
May 13th, 2024**

To the Honorable Mayor Tim Rosener, members of the Sherwood City Council, members of the Sherwood Budget Committee, and to the citizens of Sherwood:

It is my privilege to present Sherwood’s Budget for Fiscal Year 2024-25. This proposed budget is submitted as required by Chapter 294 of the Oregon Revised Statutes and Chapter VIII, Section 33.e.6 of the Sherwood Municipal Code. As an important reminder to citizens reviewing this proposed budget, state budget law provides for three levels of review and scrutiny of this budget: the City Manager, the Budget Committee, and the City Council. At any step in this process, the reviewing body can alter the proposed budget if they believe it is in the best interest of the City of Sherwood. I greatly appreciate the history of responsible stewardship that has placed the City in a strong financial position today.

The City budget serves as the financial blueprint for Sherwood's priorities, programs, and services in the upcoming year, ensuring the needs of the community are met. Our five-year forecast model instills confidence in maintaining service levels. This document not only outlines City Council priorities but also guides staff operations, fostering transparent communication for taxpayers and residents. It takes intention and care to maintain the City’s fiscal health, meet community expectations for service, and provide for future needs. The FY2024-25 budget is balanced, as required by state law, and is structurally balanced with ongoing revenues equaling ongoing expenses in accordance with the City’s financial policies. We will continue to evaluate delivery of services to ensure that we are operating in an efficient and fiscally responsible manner.

City Council Goals set long-term outcomes for the community, guiding the completion of specific projects by City staff. These goals ensure that organizational priorities are in line with the community's needs, reflecting the City Council's commitment to the community's well-being.

This budget message focuses mostly on the General Fund. Within the City’s enterprise funds, revenues come primarily from the ratepayers who pay for the quantity of the water and wastewater services they use.

Ratepayers also pay for broadband services, stormwater services and street services. Like General Fund functions, these functions are not immune to pressure from increasing costs; they experience the same pressure that the General Fund experiences. The difference is that the City Council has much greater control over revenues, and therefore the City Council annually reviews rates and makes decisions based on the need to invest in the maintenance of the systems and the need to comply with increasing regulation.

In my 24 years with the City of Sherwood, I continue to be impressed with the dedication and professionalism of City staff and leadership. I am proud of the high level of City services that we provide to the community and the careful stewardship of public funds.

A summary of the proposed budget by the different funds in comparison to the current adopted budget is shown below.

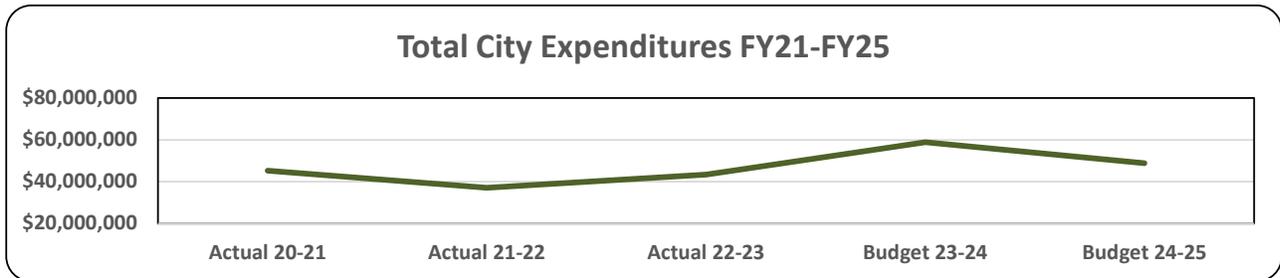

Total Budget (All Funds)

The proposed total budget for FY2024-25 for all funds is \$109.2 million. This represents a decrease of \$2.1 million or 1.9% from the current adopted FY2024-25 budget. Within this proposed total budget, Personal Services accounts for \$23.2 million. This figure is 13.2% higher than the current budget for FY2023-24. Personal Services includes all salaries and wages, payroll taxes and employee benefits.

Total All Funds	\$ 58,927,185	\$ 48,830,922	\$ (10,096,263)	-17.1%

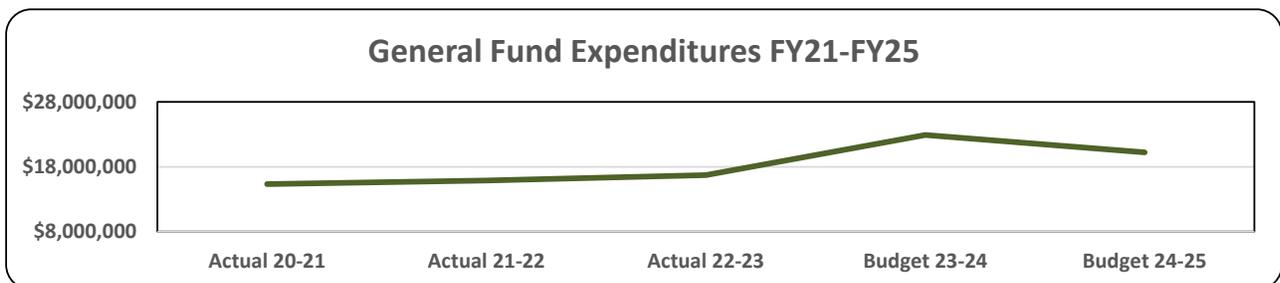

Materials and services (M&S) expenses are operating expenses incurred during the normal course of business including professional services, supplies, utilities, and property and liability insurance. The total M&S expenses for the proposed total budget are \$13.3 million, a 15.7% increase from the current fiscal year budget.

Capital Outlay consists of vehicle and large equipment purchases as well as infrastructure improvements within the General Construction, Water, Storm and Streets funds. Capital Outlay expenses are \$7.8 million, which is a 55.9% decrease from the current fiscal year. Debt Service, the payment of outstanding financing for capital improvements is \$2.7 million, an increase of 0.0% from the current fiscal year. The overall total expenditure decrease is 17.1%.

General Fund

The General Fund is the primary operating fund of the City including administration, police services, community development, community services, and a portion of public works. Since General Fund revenues are unrestricted in use, citizens usually focus a great deal of attention on this fund in reviewing the budget. Revenues for this fund largely consist of property taxes, franchise fees, licenses, permits, and court fines.

Within the proposed General Fund budget, Personnel Services accounts for \$16.8 million. This figure is 8.4% higher than the current FY2023-24 budget. The total Materials & Services expenses for the proposed budget is \$2.9 million, a 1.0% increase from the current fiscal year budget. Capital Outlay is proposed at \$0.6 million, a decrease of 44.5% over the current fiscal year budget. This Capital Outlay includes routine large expenditures such vehicle purchases, communication equipment, and other large equipment. Excluding the one-time transfers out, the combination of these changes in each of these categories leads to an overall increase of 10.0% in the proposed General Fund expenditures budget.

I am recommending the use of a portion of the General Fund ending fund balance as well as one-time revenues to fund one-time expenditures of \$1,122,249 while adhering to the City Council fiscal policy of retaining 20% of our operating revenues in our ending fund balance each year.

General Fund

As part of our normal five-year financial forecasting, we have updated our General Fund Ending Fund Balance forecast using this proposed budget. Some key assumptions in this forecast include:

- The City of Sherwood continuing with its past practice of preparing a “conservative” forecast. A conservative forecast is cautious on revenues while assuming “worst case” for expenditures.
- Beginning July 2023, the City’s biennium required contribution PERS rates were changed: 27.52% for Tier 1 and Tier 2 employees, 21.96% for OPSRP General Services and 26.75% for OPSRP Police and Fire employees.
- The impact of the City’s 2021 Urban Renewal Agency.
- City wide assessed property tax value “new growth” increasing on average 1.30%. This is in addition to the assumed 3% increase.
- At the time of preparing this five-year forecast, inflation was hovering just below 3.5% at 3.48%. Most forecasts agree inflation will continue to trend downwards, with short-term inflation expectations coming in at 3%. The Federal Reserve has been aggressively trying to beat high inflation by holding the federal funds rate high, at a target of 5.25% to 5.50%, until the economy shows more definitive signs of slowing. The question still remains when will inflation hit the Feds target level of 2%. Aligning with the City’s conservative forecast approach, we have factored in an average increase of 3.5% in the first two years of the forecast. The average increase over the five years is 3%.
- This forecast does not include any Funds that have been allocated to the Public Art Fund, Economic Development and Promotion Fund, and Investment Fund.
- Construction on Tualatin-Sherwood Road continues to impact the traffic cameras on Hwy 99. This continued to cause a reduction in revenue for the FY 2023-24 budget. This budget and forecast reduce future revenue in anticipation of new designs that will lower expected traffic fines.

It is important to note a few major aspects related to our General Fund balance:

- In recent years City Council has decided to use some of the General Fund balance towards one-time projects and for maintenance that had been deferred. This proposed budget again uses some of the ending fund balance for one-time expenditures.
- Our financial policies require an unrestricted fund balance of 20% of fund revenue. Our ending fund balance for FY2024-25 is projected to be 28%, which exceeds our financial goal. The five-year forecast shows a projected ending fund balance of 20%.

The change in the General Fund balance excludes one-time revenues and one-time transfers is broken down as follows:

Operating Revenue	\$ 19,125,717
Operating Expense	<u>(19,114,577)</u>
Net Normal Operations	11,140
Less One-Time Expenses Net	<u>(1,122,249)</u>
Change in Fund Balance	<u><u>(\$ 1,111,109)</u></u>

Additional General Fund factors for our Sherwood Police Department:

- The Sherwood Police Department is continuing to work to address Career Cycle Planning as we take a proactive approach to address upcoming retirements. The challenge is that the lead time to replace experienced officers is significant. For lateral police hires it can take 4-5 months before they can be self-sufficient. A new police hire can take 16 months before they can be self-sufficient. As such, the city continues to bring in staff in advance of retirements to meet police staffing demands and the city expects to use the rest of the \$250,000 allocated from the Community Investment Fund for this Career Cycle Planning.

- The Sherwood Police Department is working with the Drug Enforcement Administration (DEA) and in the future will be receiving expected funding support. This money cannot be budgeted, but will be included in future and supplemental budgets as these funds are recognized. The money, once received, can only be used for materials and services in the police department.

Special Revenue, Capital, and Proprietary Funds

Grants Fund

This is a special revenue fund where the uses of revenues that are designated for a specific purpose are tracked. The proposed budget includes the Metro Community Enhancement Program (CEP).

Transient Lodging Tax (TLT) Fund

This is a special revenue fund where the uses of revenues that are designated for a specific purpose are tracked. The City implemented a local TLT effective April 1, 2019, and there is currently one operating hotel in Sherwood. As per state law the City will allocate 30% of these funds, which are unrestricted, with the remaining 70% be allocated to the Public Art Fund and Sherwood Arts Center.

Public Art Fund

This is a special revenue fund where the uses of revenues that are designated for a specific purpose are tracked. This fund was created to provide funding to encourage art within the community and promote tourism within the city.

Community Investment Fund

This is a special revenue fund where the uses of revenues that are designated for a specific purpose are tracked. This fund was created to help support various projects and needs the city has.

Economic Development and Promotion Fund

This is a special revenue fund where the uses of revenues that are designated for a specific purpose are tracked. This fund is to assist in promoting and sponsoring local events as well as assist with business retention, expansion, and recruitment.

Street Operations Fund

An increase of 2% in rates are in this proposed budget. The Street Operations Fund accounts for all maintenance projects related to City streets and sidewalks. The fund balance remains strong at this time and additional maintenance projects have been included in this proposed budget to keep the City's annual street maintenance program up to date.

Street Capital Fund

This fund is used to manage capital projects related to streets and to account for all transportation SDC's (System Development Charges) and TDT's (Transportation Development Taxes). Operating funds are also transferred into the Street Capital Fund from the Street Operations Fund to cover capital projects related to existing streets. The largest expense in this fund for FY2024-25 is improvements to Arrow Street. Other projects include Oregon Street design, construction, and traffic calming.

General Construction Fund

This fund is used to manage capital projects related to parks, the senior center, and other city facilities. The largest expense in this fund for FY2024-25 is for Trail Network Expansion Improvements (Infill projects). Other projects include hiring a consultant for the Lot Adjacent to the Art Center and improvements to Murdock Park.

Water Fund

An increase of 2% in rates for residential and 3% for commercial are in this proposed budget. The city continues to work to ensure a reliable water source will be available even as our population continues to grow. Complete improvements which include improvements to the Water Treatment facility include increasing the ACTi flow rate from 7.5 mgd (million gallons per day) per basin, to 10 mgd per day and increasing the ozonation basin flow rate from 7.5 mgd to 10 mgd.

Sanitary and Stormwater Funds

An increase of 2% in rates for both the city sewer and stormwater rates are in this proposed budget. Sanitary projects include the Rock Creek Trunk Capacity Upgrade Phase II Design and ROW and Brookman Sanitary Trunkline extension, design, and construction. Stormwater included funds for facility improvements and a detention basin extension.

Broadband Fund

Sherwood Broadband continues its expansion and build out into residential areas with the Fiber to the Home project (FTTH). The fiber project will enable smart technologies today and into the future. Sherwood Broadband is under the direction and oversight of the Sherwood City Council. In addition to residential services, Sherwood Broadband also has projects lined up to extend service to businesses in Sherwood and the surrounding areas in FY2025-26. Progress on the Sherwood Broadband Fiber to the Home (FTTH) project is moving along.

Personnel Services changes

The proposed budget funds a total workforce of 145 Full Time Equivalent (FTE) positions, a decrease of 1.5 budgeted FTE positions from the current workforce. The following is a summary of these personnel changes:

- Unbudgeted Communications/Marketing Manager
- Unbudgeted part-time Finance Tech

Total Personnel Services costs will increase by 8.4% for the General Fund and 13.2% for all funds when compared to the current year budget. Key personnel services cost increases in this proposed budget are as follows:

Increases in salaries result from cost-of-living increases, as salaries will be increasing by 4.0% for exempt employees, 4.1% for SPOA represented police officers, and 4.0% for AFCME represented employees as well as step increases throughout the fiscal year. The city will also be moving AFCME and exempt employees to a 7 step pay scale versus the current 13 step pay scale.

PERS rates are set for a biennium period and will not change for this upcoming budget period, however, recent changes have been minimal in comparison to prior years as the rates are beginning to stabilize. The City currently pays between 27.96% and 33.52% of salaries towards retirement for each eligible employee. This amount includes the employer and the employee share of PERS for all employees.

My thanks to the Sherwood City Council and community members of the Budget Committee for their support and hard work through the years. This budget is just a proposal, it is, until approved, merely a draft. Your input will only improve the quality of the final product. The budget should be the narrative and the reflection of the values of our community, and the approval of the Budget Committee is a statement of support.

This budget document was the result of a team effort amongst staff and the Senior Leadership team. A special thanks to David Bodway, who did an outstanding job of coordinating and organizing the proposed budget. I also want to acknowledge the hard work of City staff in developing this budget and the hard work they do every day.

Respectfully Submitted,

History

The first wagon train arrived in Oregon in 1843. By 1853, Sherwood was being settled by farmers. They built their houses of the logs taken from the forest that once covered the area. They grew nearly everything they needed.

By 1870, many families had moved into the area that we now call Sherwood. In 1885, J.C. Smock granted the railroad the right-of-way through his property. In 1889, he and his wife, Mary Ellen Sebastian, planned and named the streets surrounding the railroad tracks. The town that emerged was known as Smockville, later renamed Sherwood, and incorporated in 1893.

Aerial photo of Sherwood, 1951

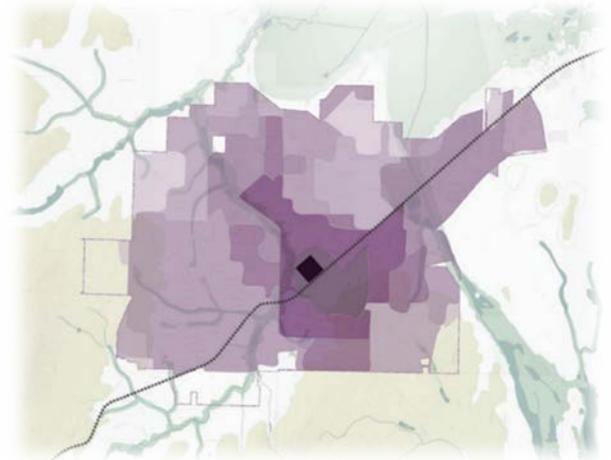

Original Smockville plot, 1889

In the early 1890's, Sherwood's main industry was a brickyard that supplied building bricks for most of Portland's growth. Most of Sherwood's commercial buildings were built at this time, including the nine-block area known as Old Town. The original home of J.C. Smock and Mary Ellen Sebastian still stands on Park Street, next to the Morback House, as a component of the Sherwood Heritage Center.

When the brickyard closed in 1895, the economy diversified to include a fruit and vegetable cannery, and a tannery, which supported Sherwood until 1971.

In 1911, Sherwood's City limits were one square mile and had a population of 350. As of December 15, 2023, the City is four and a half square miles and has a population of 20,868.

The City has expanded to its present size

Authority

The City of Sherwood has all powers granted to municipal corporations by State statutes, including the power to issue debt, levy taxes on real property within its boundaries, and to extend its corporate limits by annexation.

Services

The City provides a full range of services: public safety; library; construction and maintenance of streets, parks, and utility infrastructure; recreational activities and cultural events; current and long-range planning; development review; building permits; and construction inspection.

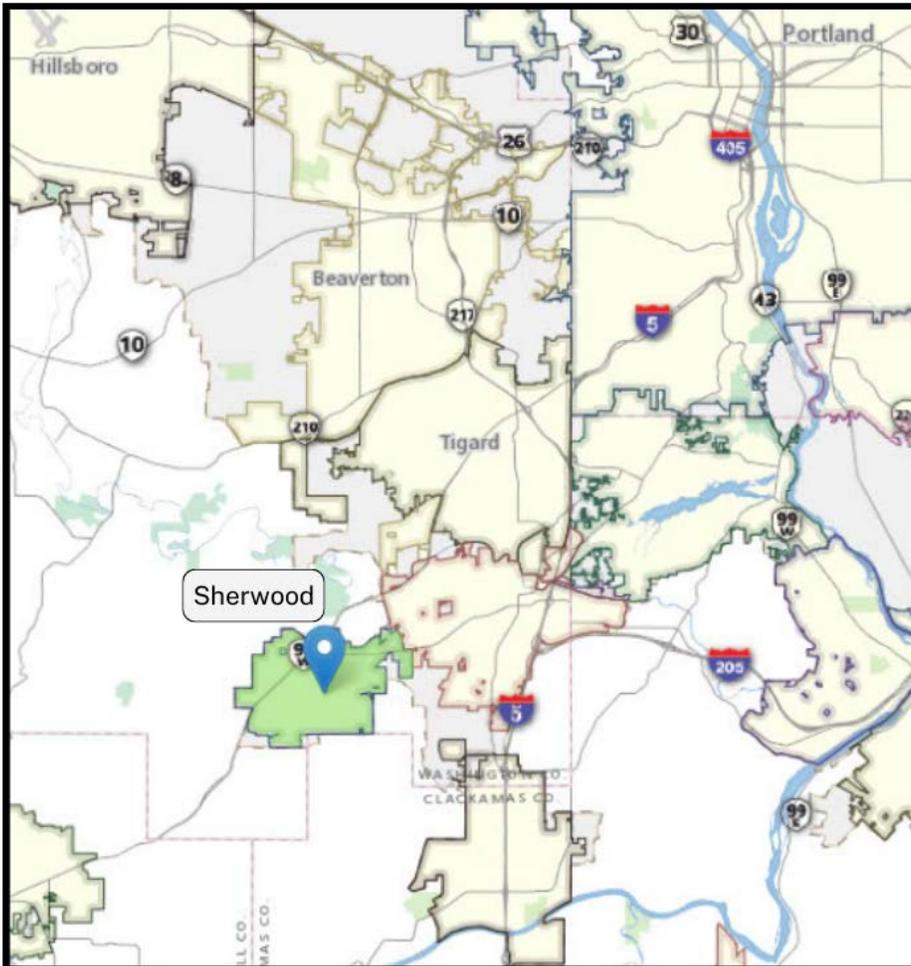

Sherwood owns and operates a water system and, jointly with the City of Wilsonville, a water treatment plant. The City also owns and operates the sanitary sewer and stormwater collection facilities with treatment provided by Clean Water Services, a regional services district.

Senior services are provided by the City in the Marjorie Stewart Senior Center. Fire protection is provided by TVF&R, a regional special district. Electricity, phone, and trash disposal are provided by private businesses. Sherwood is part of School District 88J.

Sherwood has an Urban Renewal Agency (URA), which undertakes projects in the designated Urban Renewal District. The URA is a distinct municipal corporation and its budget is separate from the City of Sherwood.

Location

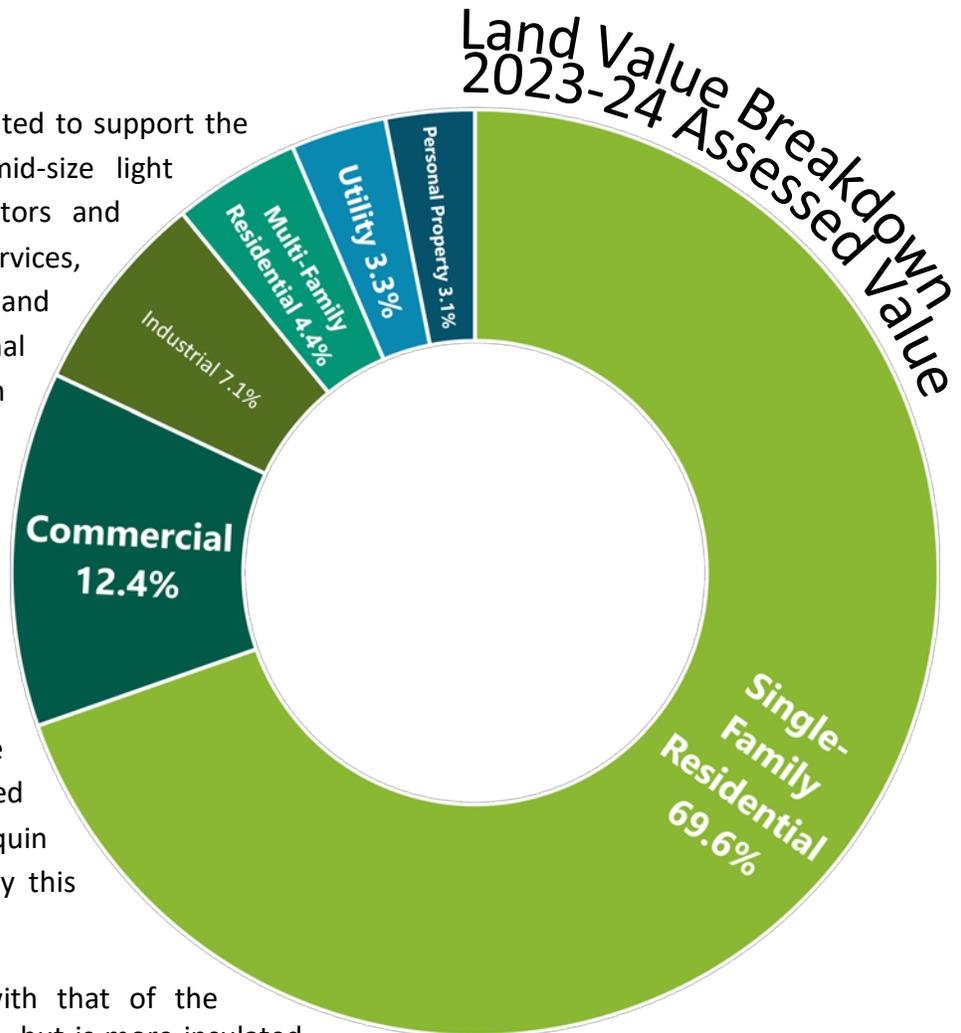

Sherwood’s City limits span four and a half square miles along State Highway 99W via Interstate 5. The rapidly growing city is part of the Willamette Valley, located in southwest Washington County. Sherwood is the home of the Tualatin River National Wildlife Refuge to the north, bordered by Yamhill County to the south, and the City of Tualatin to the east.

Economy

The City of Sherwood is highly suited to support the following industries: small to mid-size light manufacturing, specialty contractors and construction firms, creative services, amusement, recreation, sporting and lodging hospitality, educational facilities, and nursing and health care support services and facilities. Several new businesses, which fall into these categories, are in the process of being built, or are projected to come to Sherwood within the near future. Most employed residents currently commute outside of the City for work. The City has completed a concept plan for the Tonquin Employment Area to help remedy this imbalance.

The City's economy is linked with that of the Portland/Vancouver Metro Region, but is more insulated from economic downturns due to the high education and skill level of its population.

Despite growth, the City has managed to maintain a first-rate quality of life for its residents through a unique park and recreation system, a great school system, and a revived central business district in Old Town.

Demographics

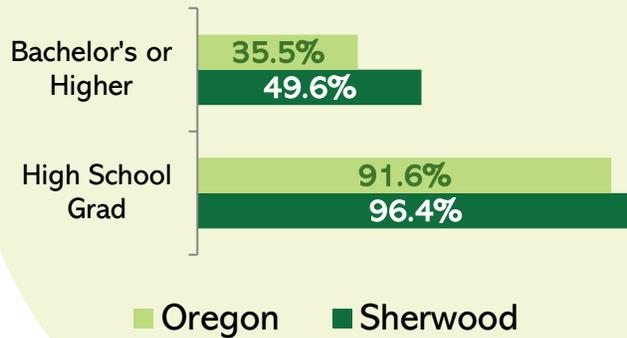

Over the last two decades, Sherwood has been one of the faster growing communities in the State. Between 2003 and 2023, the population has grown 50%. Sherwood has an average of 3.5 people per household, compared to 3.0 in Oregon as a whole. 51% of Sherwood's population is female, compared to 51% in Oregon as a whole.

63% of the homes in Sherwood are less than 30 years old. Owner-occupied homes represent 77% of the community, as opposed to 62% of Oregon as a whole.

Mission Statement

Provide high quality services for all residents and businesses through strong relationships and innovation in a fiscally responsible manner.

Overarching Pillars, Goals & Deliverables

The Sherwood City Council has established six city-wide goals. These goals reflect the City’s duty to maintain and improve the quality of life for all residents. Within these goals are actions outlining specific objectives City staff is charged to pursue. Many of the department goals further delineate and detail how these objectives are to be accomplished. The departmental goals are outlined in the Budget Detail.

Long-Range Operating Financial Plans

Rooted in the financial policies, long-range operating financial plans are developed to be conservative in nature to address the financial vulnerabilities of the city while bolstering the City's overarching goals and projects. The goal of these policies is to provide the financial stability needed to navigate through economic changes, adjust to changes in the service requirements of the community and respond to other changes as they affect the City's residents.

As part of the annual budget process, the City of Sherwood maintains a minimum five-year revenue and expenditure forecast. This forecast is created using an objective, analytical process incorporating applicable projections from the State of Oregon's latest Economic Forecast and conservative assumptions where State developed data is not available. Revenues are estimated realistically and prudently using best practices as defined by the Government Finance Officers Association.

These financial plans are one step in pursuing a sustainable approach to the delivery of high-quality services to the community. By providing the framework of financial stability for the future, the focus can be on achieving the strategic goals of the City.

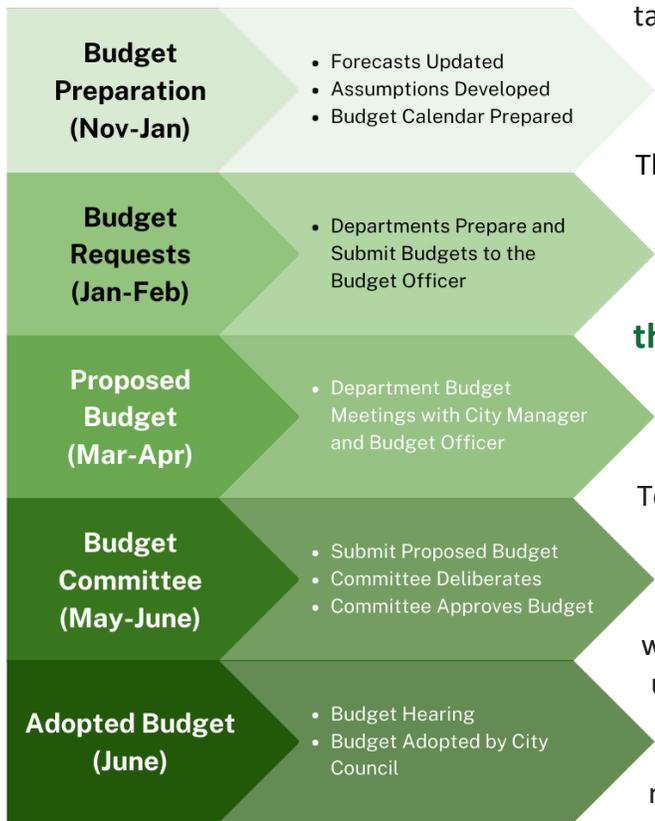

A comprehensive list of current positions is included in the Appendix.

Budget Process

The annual budget is one of the most important and informative documents City officials will use. In simple terms, the City’s budget is a financial plan for one fiscal year. The budget shows the estimated costs of expenditures (items or services the City plans to purchase in the coming fiscal year) and other budget requirements that must be planned for, but won’t actually be spent. It also shows the resources that will be available to pay for those expenditures.

Budget Calendar

The budget authorizes the City to spend money and limits how much money can be spent. It also justifies the levy of property taxes. In order to levy taxes through the County assessor, cities must prepare a budget following Oregon local budget law.

The City’s fiscal year begins July 1 and ends June 30.

Phase 1: Establish Priorities and Goals for the Next Fiscal Year

The strategic planning process begins anew each year as the City Manager and Senior Management Team collaborate to identify needs and assumptions for the short and long term and update objectives.

Work on the annual budget begins in December, when forecasts for revenues and expenditures are updated.

In January the City Council typically has planning meetings to decide Council goals, priorities, and policies.

Phase 2: Prepare Proposed Budget for Budget Committee

Below is an outline of the steps required by the Oregon Department of Revenue for budget preparation and adoption.

Appoint Budget Officer:

Every local government is required to have a Budget Officer, either appointed by the governing body or designated in its charter.

Prepare a Proposed Budget:

The Budget Officer is responsible for preparing the proposed budget presentation to the Budget Committee. The Capital Improvement Plan is also updated for the next five years.

Publish Public Notices:

Upon completion of the proposed budget a “Notice of Budget Committee Meeting” is published in a newspaper and posted prominently on the City’s website.

Budget Committee Meets:

The budget message and proposed budget document is presented to the Budget Committee for review. The public is given the opportunity to comment on the proposed budget during the meeting.

Committee Approves the Budget:

When the Budget Committee is satisfied that the proposed budget will meet the needs of the citizens of Sherwood, they will forward it to the City Council for adoption.

Phase 3: Adopt Budget and Certify Property Taxes**Publish Notice of Public Hearing:**

After the budget is approved by the budget committee, a budget hearing must be held. The Budget Officer must publish a “Notice of Budget Hearing” in a newspaper or by mail or hand delivery.

Hold the Budget Hearing:

The budget hearing must be held by the governing body (City Council) on the date specified on the public notice and must allow for public testimony.

Adopt Budget, Make Appropriations, and Levy Taxes:

The governing body adopts the budget prior to June 30th. The budget and tax levy certification are then filed with the County Assessor.

Phase 4: Budget Changes After Adoption

Oregon budget law requires all City funds to be appropriated. Appropriations, the legal authority to spend, are by division in all funds.

Appropriations may be changed during the fiscal year, within the limitations imposed by budget law. City staff monitors actual events and recommends changes as needed. The City Council makes changes by resolution. Changes are categorized as appropriation transfers or supplemental budgets.

An appropriation transfer decreases an existing appropriation and increases another by the same amount. Supplemental budgets typically create new appropriations, funded by increased revenues. Supplemental budgets are used for occurrences or conditions which were not known at the time the budget was prepared. Directors and managers may amend their budgets for individual accounts without Council approval so long as appropriations at the legal level of control are not changed.

Basis of Budgeting

All of the funds are budgeted using the modified accrual basis of accounting in accordance with budgetary accounting practices. In modified accrual, revenues are recognized when they become measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. Long- term compensated absences, however, are recorded only when payment is due.

Basis of Auditing

The audit, as reported in the Comprehensive Annual Financial Report, accounts for the City's finances on the basis of generally accepted accounting principles (GAAP). GAAP is defined as conventions, rules, and procedures necessary to describe accepted accounting practice at a particular time. The modified accrual basis of accounting, a GAAP approved method, is also used in the audit for all funds except for the Proprietary Fund types. The audit uses the full-accrual method of accounting for the Proprietary Funds. The Comprehensive Annual Financial Report shows all of the City's funds on both a budgetary and GAAP basis for comparison.

Budgetary Basis of Accounting

There is no appreciable difference in the basis of accounting used for financial statements and the accounting method used for budgeting. The budgetary basis of accounting for budgeting purposes is also modified accrual.

The City of Sherwood uses a modified accrual basis of accounting for budgeting purposes. This means revenues are recognized when they become measurable and available.

Fund Structure and Description

The City of Sherwood uses various funds to account for its revenue and expenditures. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. Also, funds are categorized by fund type as defined by generally accepted accounting principles (GAAP) and Oregon Budget Law.

The revenues in each fund may be spent only for the purpose specified by the fund.

General

General Fund – accounts for the financial operations of the City that are not accounted for in any other fund. Principal sources of revenue are property taxes, franchise fees, court fines, and state and county shared revenue. Primary expenditures are for public safety, general government, parks and recreation, and library services.

Special Revenue

Grants Fund – accounts for Federal, State, and Local grants. Funds received must be used in accordance with the grant agreement(s). For the current fiscal year, the only grant funded program accounted for in this fund is the Community Enhancement Program (CEP).

Transient Lodging Tax (TLT) Fund – accounts for Transient Lodging Taxes received from short term lodging establishments like hotels or bed and breakfasts. This fund will begin to support the Center for the Arts.

Public Art Fund – accounts for funding provided by the General Fund. This fund is newly established and was created to provide funding to encourage art within the community and promote tourism within the city.

Community Investment Fund – accounts for a one-time transfer of reserves from the General Fund. This fund is newly established and was created to help support various projects and needs the city has.

Economic Development and Promotion Fund – accounts for funding provided by the General Fund. This fund is newly established and will begin to assist in promoting and sponsoring local events as well as assist with business retention, expansion, and recruitment.

Street Operations Fund – accounts for the repair and maintenance of City streets. Principal sources of revenue are street utility fees, gas taxes received from Washington County, and vehicle taxes from the Oregon Department of Transportation.

Debt Service

Debt Service Fund – accounts for the payment of principal and interest on general obligation bonds. Resources are provided by property taxes.

Capital Projects

General Construction Fund – accounts for the acquisition and construction of capital assets not related to the Proprietary Funds. This includes City buildings, parks and trails, sports fields, and recreational facilities.

Street Capital Fund – accounts for funds received from system development charges (SDCs) and are restricted for construction and major improvements of City streets.

Business-Type

Water Fund – accounts for the operation and maintenance of water facilities and for major expansions of the water system. Primary sources of revenue consist of charges for use of the water system and SDCs charged on new construction.

Sanitary Fund – accounts for the operation and maintenance of the sewer system and for major expansions of the sewer system. Primary sources of revenue consist of charges for sewer services, and SDCs charged on new construction.

Stormwater Fund – accounts for storm drain services and for the expansion of the storm water system. Primary sources of revenue consist of charges for services, and SDCs charged on new construction.

Broadband Fund – accounts for communication services provided to customers through the Sherwood Broadband Utility.

Beginning and Ending Fund Balance

Beginning fund balance is equal to the prior year's ending fund balance.

Ending fund balance is the difference between total estimated sources and total estimated uses. Ending fund balance is budgeted in two categories:

1. *Operating Contingency* is budgeted at 5%-10% of operational revenue in the operating funds. Contingency funds can be spent once authorized by a supplemental budget or transfer resolution.
2. *Reserved for future years* are total sources less total expenses and contingency. Reserved for future years funds can only be spent if authorized by a supplemental budget.

Utility Fees

The City charges utility fees for the water, sanitary, storm, and street systems. The fees are charged to customers based on usage of the systems. The rates collected for each fund can only be used to support that individual fund's operational and capital needs. Annual revenue projections are based on historical average increases, while taking into account any planned rate increases.

Property taxes

There are three types of property tax levies in Oregon. The permanent rate levy funds general City operations. The debt service levy is used for principal and interest payments on general obligation bonds approved by the voters. Local option levies are voter-approved, time-limited levies for specified purposes.

The Washington County Department of Assessment and Taxation determines assessed values and collects taxes. Property is assessed January 1 for the fiscal year beginning July 1. Taxes are due beginning November 15, and discounts are allowed for taxes paid in full by November 15.

Assessed Value

Each local government's tax rate was determined by the state in 1997. Sherwood's permanent rate is \$3.2975 per \$1,000 of assessed value. No action of the City can increase the permanent tax rate.

Ballot Measure 50, implemented in the 1997-98 tax year, limits assessed value to the lower of Maximum Assessed Value (MAV) or Real Market Value (RMV). Maximum Assessed Value increases by 3% annually.

There are exceptions to the 3% annual increase. Maximum Assessed Value may increase by more than 3% if:

- There is new construction or improvements
- The property is partitioned or subdivided
- Rezoning occurs and the property is used consistent with rezoning

Limits and Compression

The total tax on a given piece of property is limited as follows:

- General Govt: \$10 per \$1,000 of RMV
- Schools: \$5 per \$1,000 of RMV
- Unlimited debt service: levies to pay bonds for capital construction projects are not subject to limitation

If the total tax bill exceeds the limits, taxes are reduced in a process called compression.

Effect of the 2021 Sherwood Urban Renewal Agency

The Urban Renewal district is a geographic area within the City of Sherwood, defined in the Urban Renewal Plan. The purpose of the district is to eliminate blight and create an environment in which the private sector may develop uses consistent with the goals of the Urban Renewal Plan. The Agency borrows money to fund infrastructure and other improvements, receive property taxes calculated on the increased assessed values, and uses the taxes to pay debt service on the borrowings.

The current agency opened in FY2020-21. The assessed value in the district was determined at the start date of the agency and became the frozen base. In subsequent years, the incremental assessed value is the difference between the assessed value in the district and the frozen base. Each year, the URA will receive property tax attributable to the incremental assessed value; the City's General Fund receives property tax attributable to the City's assessed value less the URAs incremental value.

Property taxes for the URA is a portion of the permanent rate levy for the City and each overlapping tax district, not an addition to the tax base.

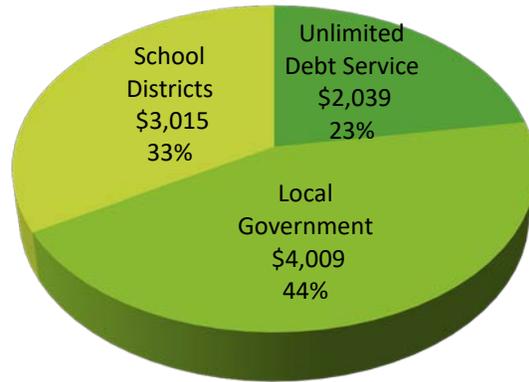

Each taxing jurisdiction has a tax rate that is applied to a parcel's assessed value to determine the amount of property taxes owed by that parcel. The County Assessor lowers these other taxing jurisdiction's tax rates based upon the Urban Renewal District's incremental assessed value and the taxing jurisdiction's overall assessed value, and mathematically derives a tax rate to be applied to each parcel for Urban Renewal.

The Agency will cease to exist after it has incurred and repaid the maximum indebtedness specified in the plan: For the FY2020-21 URA plan \$166,600,000.

Local Governments include City of Sherwood, Washington County, Sherwood 2021 Urban Renewal Agency, Tualatin Valley Fire and Rescue, Metro, Port of Portland and Tualatin Soil and Water Conservation District.

School Districts include Sherwood School District, Portland Community College and ESD – NW Regional.

Property Tax Allocation

Property taxes represent approximately 45% of General Fund revenue.

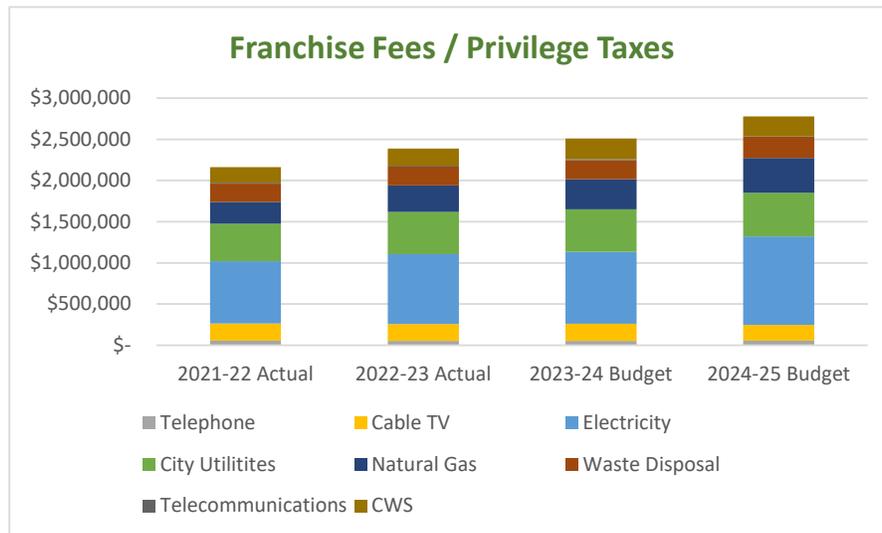

Infrastructure Development Fees

These are fees for private development plan review and inspection and system development charges (SDCs) on new construction. SDCs are restricted for Capital Improvement Projects that support capacity for growth. Development fee revenue is projected annually based on the known development activity, as well as projections of projects that are likely to be submitted.

Franchise Fees/Privilege Taxes

Fees are collected from utilities as compensation for use of the City’s rights of way. These fees are based on utility revenue, so they generally increase with population growth. Franchise fee revenue is estimated based on prior year actuals plus an inflationary increase.

Fines and Forfeitures

These fines are for traffic infractions, municipal code violations, and library fines. Revenue estimates are based on the prior year actuals plus anticipated increases due to new programs.

Intergovernmental Revenue

These include fees and taxes that are collected by other government agencies and passed through to the City as well as fees collected from other governments for services the City provides to them.

- State shared revenue, liquor and cigarette tax and vehicle fees revenue estimates are provided by the State
- County support to the library as part of the Washington County Cooperative Library Service Revenue estimates are provided by the County
- County distribution of gas tax
- Sherwood School District for shared services Revenue based on IGA
- Clean Water Services for shared services Revenue based on IGA
- Federal, State, and Local grants

Charges for services

- Building, Planning, and Engineering permits, revenue estimates are based on projected development activity
- Recreation fees, revenue estimates are based on the number of registered leagues
- Advertising and sponsor fees
- Business and liquor licenses, revenue estimates are based on prior year actuals and adjusted for programmatic changes

Transfers and Other Revenue

- Transfers in from other funds
- Interest earned on bank accounts
- Sale of fixed assets
- Proceeds from the issuance of debt

Citywide operating costs are budgeted to decrease 16.6% in FY2024-25, in part due to less Capital purchases. This resulted in a decrease in cost per capita for our citizens. Operating costs are made up of all City expenditures minus capital purchases made outside the General Fund.

The following compares City staffing to population growth.

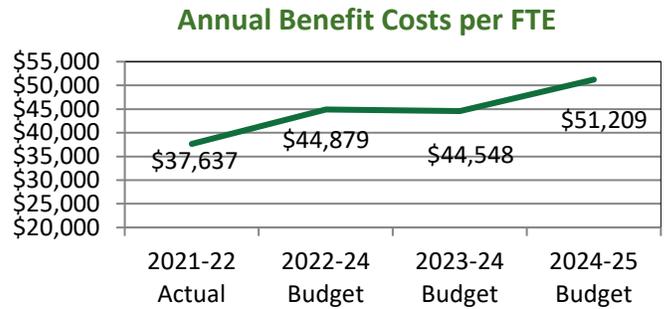

Wages

The budget includes a 4% cost of living increase as of July 1 for all employees (except 4.1% for SPOA members).

Benefits

The major benefits are health insurance and PERS. Employee insurance costs are budgeted to increase an average of 10% for employees on the Regence plan and 10% for employees on the Kaiser plan in FY2024-25. Overall benefit costs increased, mainly due to increases in insurance rates.

The average cost of benefits per employee is shown in the following graph:

Capital Outlay

Capital outlay are expenditures related to vehicles and equipment as well as to capital projects. This section will cover the capital outlay for vehicles and equipment only. The capital improvement plan can be found on page 50. The City’s Capital Outlay threshold is any single piece of equipment that costs over \$5,000 and expected to last more than one year. The significant FY2024-25 capital outlay budgeted expenditures for vehicles and equipment are:

Program	Purchase	Cost

Description of Long-Term Debt

The City’s debt is separated into two categories: governmental activities and business-type activities.

Governmental activities include two long term loans on behalf of 2021 URA capital projects. There are intergovernmental agreements for the URA to make the debt service payments on the existing URA loans used to construct capital assets.

Business-type activities include three loans for water projects to provide a long-term water solution for the City and two long term loans for the expansion of Sherwood Broadband services within the City.

Sherwood’s rating for both General Obligation Debt and Full Faith and Credit obligations is currently very good at Aa2. In February 2021, Moody’s upgraded the City’s Full Faith and Credit obligations from Aa3 to Aa2.

Capital Improvement Plan

The City of Sherwood's Capital Improvement Plan (CIP) establishes, prioritizes, and plans funding for projects to improve existing and develop new infrastructure and facilities. This plan promotes efficient use of the City's limited financial resources, reduces costs, and assists in the coordination of public and private development.

The City's CIP is a twenty-year roadmap which identifies the major expenditures beyond routine annual operating expenses in all categories. The CIP is used to document anticipated capital projects and includes projects in which a need has been identified, but which may not have funding sources determined.

The CIP is a long-range plan that is reviewed and revised annually as priorities may change due to funding opportunities, unanticipated deterioration of assets or changes to the needs of the City. The CIP is a basic tool for documenting anticipated capital projects and includes projects in which a need has been identified, but a funding source has not yet been determined.

The CIP Process

The CIP is the result of an ongoing infrastructure planning process. Planning for the five-year CIP period provides the flexibility to take advantage of opportunities for capital investments. The FY2024-25 to FY2028-29 CIP is developed through agreement with adopted policies and master plans, the public, professional staff, and elected and appointed City officials. The draft CIP is reviewed by City staff and then presented to the City Council. The projects listed in FY2024-25 become the basis for preparation of the City's budget for that year.

The overall goal of the CIP is to develop recommendations that: preserve the past, by investing in the continued maintenance of City assets and infrastructure; protect the present with improvements to City facilities and infrastructure; and plan for future development for the needs as the City grows and evolves. Projects generally fit within the three primary categories:

- Utilities – projects involving water, storm, and sewer infrastructure.
- Transportation – projects affecting streets, bike lanes, pedestrian crossings, paths, trails, and rail.
- Parks and Recreation – projects affecting parks and open spaces, including parks facilities.

Capital Improvement Policies

This working CIP document is designed to forecast capital needs for the next five fiscal years. The plan will be produced every year prior to the annual budget process. Looking at the City's capital projects in terms of revenue over the next five years also allows the City to be more strategic in matching large capital projects with competitive grant opportunities that require significant advance planning and coordination to accomplish. Examples are projects with federal funding, or those projects so large they are likely to need financing.

CIP Project Lists and Details

On the following pages is a summary of projects that is sorted by fiscal year and presented by category. Projects in this five-year CIP total approximately \$233.5 million. Roughly \$17.7 million of the projects are utility projects, \$44.3 million are parks and ground projects, \$137.9 million in transportation projects and \$33.6 million in general construction projects have been identified. Detailed project sheets are grouped by category and sorted by fiscal year for all funded projects included in the CIP. Project sheets are designed to explain the need for the project, type of project, the criteria met, funding sources, and provide cost information including potential on-going costs.

Funding Overview

During the preparation of the CIP document, public input from the budget workshops and staff recommendations are taken into consideration to assign a priority level to all listed projects. Generally, prioritized projects and those with a designated or committed funding source will be initiated. Lower priority projects will generally be considered if additional funding comes available.

Many transportation and utility projects are funded by transfers from the operating budget to the capital fund for the current year. The city utilizes development taxes, intergovernmental funds, road taxes, and can also refinance debt and issue new borrowing to fund capital projects.

Funding for the current budget year has been identified as follows: Utility projects are expected to be \$4.3 million charges for services, \$0.6 in debt proceeds and \$1.0 million development taxes. Transportation projects are expected to be funded through \$0.8 million charges for services, \$1.4 million development taxes. Parks and grounds projects are expected to be funded through \$0.8 million development taxes.

Operating Budget Impact

The CIP document identifies the costs required to construct City facilities and infrastructure. However, the completion of these projects creates effects in continuing costs that must be absorbed in the operating budget. These costs include new personnel, maintenance, and various utilities need. As the City develops the CIP document, attempts are made to identify and plan for operating costs resulting from the projects undertaken. The City is not anticipating any significant operational cost savings due to the Capital Improvement Plan (CIP).

Street Capital Projects

The Street Capital Fund relies on County traffic improvement fees and City system development charges, as well as transfers in from Street Operations. Planned projects for FY24-25 are:

Sunset-Timbrel Crosswalk Enhancements: This project is dependent upon Safe Routes to School grant funding. If awarded, the project will consist of realigning existing crosswalks, updating ADA ramps and adding rectangular rapid flashing beacons.

Edy Road (Terrapin-Houston): This project includes grinding off the existing road surface, overlaying a new surface and upgrading the curb ramp improvements within the project area to meet current ADA standards.

Edy Road (Houston-Cherry Orchards): This project includes grinding off the existing road surface, overlaying a new surface and upgrading the curb ramp improvements within the project area to meet current ADA standards.

Traffic Calming: This will be for projects identified by the Traffic Safety Committee.

Oregon Street Improvements: This project includes upgrading Oregon Street from railroad crossing east to Murdock Road roundabout to include a three-lane collector road with bike lanes, sidewalks and planter strips.

Arrow Street Improvements: This project will extend Arrow Street to Langer Farms Parkway. This is joint project with the County.

Oregon Street - Tonquin Rd Improvements: this project will design & ultimately construct either a signal or roundabout at the Oregon-Tonquin intersection and modernize the roundabout nearby at SW Murdock Rd and the road connection between.

Tualatin Sherwood Road Improvements by WashCo DLUT: This project includes widening Tualatin Sherwood Road to include two westbound lanes between Langer Farms Parkway and Borchers. The project is broken into 3 phases extending from Chicken Creek on Roy Rogers to SW 124th Ave and Tualatin Sherwood Rd. This is a joint project with the County.

Schaumburg from Division to end of road: This is primarily a maintenance project will include both sewer improvement and road maintenance.

Timbrel from Middleton to Sunset: This project consists of grinding off the existing road surface and overlaying a new surface with storm improvements and upgrading curb ramp improvements within the project area to current American with Disabilities Act standard.

Sunset – Eucalyptus to St. Charles: This project consists of grinding off the existing road surface and overlaying a new surface with upgrading curb ramp improvements within the project area to current American with Disabilities Act standard.

Sunset – St. Charles to Myrica: This project consists of grinding off the existing road surface and overlaying a new surface with upgrading curb ramp improvements within the project area to current American with Disabilities Act standard.

Sunset – Myrica to Main: This project consists of grinding off the existing road surface and overlaying a new surface with upgrading curb ramp improvements within the project area to current American with Disabilities Act standard.

Meineke Roundabout: This project consists of grinding off the existing road surface and overlaying a new surface.

Sanitary Capital Projects

The Sanitary Fund collects SDCs for sanitary infrastructure expansion. Planned projects for FY24-25 are:

Rock Creek Sanitary Trunk Line Capacity Upgrade Phase II: This project includes up-sizing approximately 1,910 linear feet of 18” diameter sanitary trunk line to 24” diameter.

Brookman Sanitary Sewer Trunk Line: This project extends a public sanitary conveyance system mainline through the Brookman Area annexed property. This mainline extension will provide service for the future growth of the area.

Stormwater Capital Projects

The Stormwater Fund collects SDCs for storm infrastructure expansion and reserves a portion of user charges for capital construction. Planned projects for FY24-25 are:

Water Quality Facility Refurbishments: Water Quality Facility Rehabilitation is needed to remove sediments from the facility to ensure continued operation of existing structural facilities that protect surface waters from adverse impacts of stormwater runoff. These ponds are responsible for holding water, removing pollutants and providing flood prevention and water quality treatment.

City Wide Catch Basin Remediation program: This program consists of replacement of un-sumped catch basins located within the City’s storm drainage conveyance system, in compliance with Clean Water Service’s MS4 Permit.

Woodhaven Swales: Water Quality Facility Rehabilitation is needed to remove sediments from the facility to ensure continued operation of existing structural facilities that protect surface waters from adverse impacts of stormwater runoff. These ponds are responsible for holding water, removing pollutants and providing flood prevention and water quality treatment.

Oregon Street Regional Water Quality Facility: This project will design a regional stormwater facility below SW Oregon St and SW Brickyard Terrace that will treat the existing developed upstream basin towards Snyder Park, the portion of SW Oregon St. to be improved between the railroad tracks and Murdock roundabout and the Tannery Site after it's developed.

Second & Park Street Storm Water Facility: This project consists of reviewing the facility and determining corrective measure to make the facility fully operable.

Gleneagle Drive Regional Storm New Facility: This project will design, permit and construct a regional storm facility behind the Sherwood Senior Center, east of SW Gleneagle Drive to treat the existing developed upstream basin and prevent erosion of the downstream open channels & ditches that flow into Cedar Creek.

Water Capital Projects

The Water Fund collects SDCs and user charges for water infrastructure expansion and capital construction. Planned projects for FY24-25 are:

Routine Waterline Replacement Program: This project includes replacement of pipes based on a 100-year life cycle adopting the following prioritization: 1. Known pipe capacity and condition issues 2. Pipe material – based on City record of pipe material and era of manufacture; highest priorities are galvanized pipe and post-1950 cast iron 3. Pipe age – coordinate replacement of pipes 50 years or older with other City utilities and transportation projects.

T/S County Conflict Improvements: This project consists of relocation of water services, hydrants, valves, valve cans due to the County road widening project.

TVWD capacity improvements 6.2 to 9.7 mgd: This project consists of the City's contribution to TVWD capacity improvements at the water treatment plant.

Water Treatment Plant 20.0 mgd Expansion: The existing treatment processes will be updated for the 20 mgd (millions of gallons per day) WRWTP expansion. Increasing the Actiflo® flow rate from 7.5 mgd per basin to 10 mgd per basin. Increasing the ozonation basin flow rate from 7.5 mgd per basin to 10 mgd per basin.

Wyndham Ridge Pump Station: Project includes seismic upgrades to existing water pump station.

General Construction Projects

The General Construction Fund collects system development charges for park infrastructure expansion. This fund also accounts for park and trail projects that are funded from multiple combined sources. Planned projects for FY24-25 are:

Cedar Creek Trail Grade Separate Crossing of Hwy 99: This project will complete the Preliminary Design phase for a pedestrian crossing under SW Pacific Hwy at Cedar Creek including determination of the type of bridge or culvert structure that will span the creek & highway.

Cedar Creek Trail Supplemental Work: This project consists of designing & constructing a feeder trail between the new regional trail and SW Sherwood Blvd and will restore the visual corridor landscaping & an acoustic fence along SW Alexander Lane.

Trail Network Expansion Improvements: This project will conduct feasibility work which includes preliminary solutions to design issues and updated cost estimates on a portion of trail (P 14) from the future undercrossing of the Cedar Creek Trail (Highway 99 to SW. Elwert Road).

Tannery Site Cleanup, Pre-Development & Site Grading Project: This is the first phase of the project and will acquire the Tannery Site properties fee simple from Washington County after the City's consultant completes a Prospective Purchaser Agreement (PPA), and the project will also produce a refreshed scope, schedule and budget for the second phase of the project.

Adjacent Lot to Art Center: This project will evaluate development options for the gravel lot northwest of the Sherwood Center for the Arts, next to the railroad tracks, and complete design plans to further develop this gravel area.

Murdock Park Improvements & Restroom: Completion of the Parks Master Plan that will guide future improvements.

Library

The mission of Sherwood Public Library is to inspire discovery, enrich lives and build community through equitable access to life-long learning. The Library serves the greater Sherwood area of about 25,000 people. Over 17,000 people have a library card registered at Sherwood Public Library. As a member of Washington County Cooperative Library Services (WCCLS), Sherwood Public Library provides access to nearly 2 million items—including e-books and digital audiobooks, streaming video, and online learning resources. The local collection includes 53,000 books, audiobooks, movies, CDs, magazines, newspapers, a “Library of Things”, games and more. Library staff coordinate community events, provide classes and story times, give tech help, and other programs for all ages. Internet access and software is available at 14 public computers. The children’s area is an active hub for playing and learning. The Library is open seven days a week. The majority of library funding is from WCCLS through the county’s general fund from local property taxes and a five-year operational levy.

Sherwood Center for the Arts

Sherwood Center for the Arts is the premier performance and event venue for Sherwood and the surrounding community. With vibrant year-round arts education, live events, gallery space, a theater that seats up to 420, and two classrooms/meeting rooms, this flexible, state-of-the-art community space is the heart of Old Town Sherwood. The Sherwood Center for the Arts exists to *inspire, educate, and enrich the Sherwood community through diverse activities that enhance quality of life.*

**2023-24 Highlights**

- ArtSmart Summer Camp continues to be a community success, serving 542 children and increasing revenue by 30%. The program is limited only by our building capacity, with many camps full and others with a waiting list
- Record numbers of people attended free cultural activities including Summer and Winter Art Walks, the Diwali celebration and Lunar New Year Festival. Our small business community, Main Street, and Arts Center collaborated on the Art Walks as well as the Great Fall'oween Window Painting Contest, and we continue to partner successfully with the Cultural Arts Commission to provide these cultural festivals as well as a community ofrenda
- A revitalized Friends of the SCA organization has begun planning new ways to support the Arts Center and its work
- New lighting and sound designs have been completed for the theater space, and the addition of new LED lighting has begun, which is an important step in upgrading the Arts Center's capabilities
- Number of days of usage have soared since FY 21-22 (almost double), as more classes are offered, and new patrons and groups have discovered the facility. The Arts Center has welcomed 11 new rental organizations this past year. All are planning to return
- A second successful "Winter at the Center" week involved curated live events for adults and families, with a successful return to showing a movie on the large screen thanks to our new energy-efficient laser projector

2024-25 Goals

- Continue to implement upgrades to the auditorium’s equipment and sound, lights, and technology capabilities to remain competitive in the performance venue/rental arena, so we can continue to serve Sherwood and Washington County at the highest level (City-wide Goals—Fiscal Responsibility; Community Pride; Economic Development; Forward Thinking)
- Update the Public Art Plan to respond to current and future opportunities (City-wide Goals—Livability; Citizen Engagement)
- Grow the relationship between the Cultural Arts Commission, Main Street, local businesses/organizations, and work with City staff as we take on public art projects and thoughtfully execute the updated plan (City-wide Goals—Economic Development; Community Pride; Citizen Engagement; Livability)
- Continue to explore grant funding to expand cultural festivals, special events, and place-making/public art, especially as the Arts Center heads into its 10th year serving and inspiring the citizens of Sherwood and surrounding area (City-wide Goals— Economic Development; Community Pride; Citizen Engagement; Livability)

Engineering

The Engineering department plans, designs, and oversees construction of the City's Capital Improvement Projects (CIP's), which include streets, stormwater systems, sanitary sewer systems, water systems, and park facilities. The department is responsible for management of the FEMA regulated floodplains and leads the administration of the DEQ-MS4 permit issued to Clean Water Services. The department is also responsible for review and approval of all private development projects that include installation of public infrastructure as part of the development. The department conducts inspections on the construction of public infrastructure projects to ensure that these facilities meet the City's standards for materials and installation. Engineering Department staff issues right-of-way (ROW) permits for all work performed within the public right-of-way and related easements and oversees grading permits and the erosion & sediment control program. The department also leads the implementation of the SDC and TDT programs and fees paid by developers.

Transient Lodging Tax (TLT)

The Transient Lodging Tax Fund is a special revenue fund used to account for the tax charged to anyone occupying a hotel, motel, dwelling unit used for temporary overnight occupancy or recreational vehicle spaces for 30 consecutive calendar days or less. This tax has been in existence since 1972. On July 1, 2006, the tax was increased to 9% and on April 1, 2019, a local TLT was imposed of 3%. A minimum of 70% of net revenue from County and Local TLT receipts must be used for the promotion of tourism; the remaining 30% can be used for any purpose.

2023-24 Highlights

- Developed and implemented a plan and strategy on how best to utilize current and future TLT Funds (City-wide Value – Fiscal Responsibility and Livability & Workability)

2024-25 Goals

- Continue to research and develop a plan to potentially grow this tax program (City-wide Value – Fiscal Responsibility)
- Continue to support Sherwood Center for the Arts (City-wide Value – Livability & Workability)

Debt Service Fund

The Debt Service fund accounts for property tax revenues levied for payment of general obligation bonds. Payments on long-term debt other than general obligation bonds are accounted for in the funds responsible for paying the debt. The final payment on the City’s general obligation bonds occurred in FY2020-21 and the remaining fund balance was returned to the General Fund in FY2022-23.

Oregon Budget Law requires data for three historical years to be included in the budget details. Once there is no data reflected in those years, the fund will no longer be represented in the budget document.

Water Operations

The Water Operation program's primary responsibility is to repair, maintain and expand the water system while providing a high quality, dependable water supply to its customers.

2023-24 Highlights

- Completed annual reporting requirements to the State (City wide goal-infrastructure)
- Coordinated and managed testing of all 3239 active backflow assemblies (City wide goal - Infrastructure)
- Completed hydrant maintenance program (1/2 of system) (City wide goal- Infrastructure)
- Completed Uni-Directional flushing program (City wide goal- Infrastructure)
- Completed replacement of 250 water meters (City wide goal - Infrastructure)
- Completed meter testing of 2" and larger meters (City wide goal – Infrastructure)
- Responded to two () water main break emergencies (City wide goal - Infrastructure)
- Complete installation of Park Row Waterline Replacement (City wide goal – Infrastructure) Complete Resiliency Project at Snyder Pump Station (City wide goal - Infrastructure)
- Replaced 5 fire hydrant assemblies

2024-25 Goals

- Implement recommended CIP Program (City wide goal – Infrastructure)
- Perform preventative maintenance on half of public fire hydrants (City wide goal – Infrastructure)
- Provide Uni-Directional flushing program (City wide goal – Infrastructure)
- All Backflow Assemblies tested annually (City wide goal – Infrastructure)
- Complete various Resiliency Projects (City wide goal - Infrastructure)
- Complete meter maintenance program (City wide goal – Infrastructure)
- Complete Water Service Line Inventory (City wide goal – Infrastructure)
- Implement Cross Connection Control Tracking Program (City wide goal – Infrastructure)

Performance Measures

Strategy	Measures	FY22-23 Actual	FY23-24 Projected	FY24-25 Projected
Provide clean and safe water via an efficiently maintained and operated water system	Million gallons of water used City-wide annually	748	742	750

Sanitary Operations

The Sanitary Operations program manages and operates 62.1 miles of pipe ranging in size from 6”-21” in the wastewater collection system in the city limits of Sherwood. The Sanitary Operations program maintains and operates a safe and reliable wastewater collection system that protects public health, protects the environment, and meets or exceeds all regulatory standards.

2023-24 Highlights

- Met all required CWS performance measures (City-wide Goal – Infrastructure)
- Cleaned 81,994 feet of sanitary main lines, 1/4 of our Sanitary System (City-wide Goal – Infrastructure)
- Videoed 40,997 feet of sanitary main lines, 1/8 of our Sanitary System (City-wide Goal – Infrastructure)
- Completed brushing and posting program (City-wide Goal – Infrastructure)
- Completed annual inspections at City businesses to ensure Fat Oil and Grease (FOG) compliance (City-wide Goal – Infrastructure)
- Provided semi-annual cleaning of sanitary sewer mainlines which are essential to FOG from our food establishments (City-wide Goal – Infrastructure)

2024-25 Goals

- Meet CWS performance measures (City-wide Value – Infrastructure)
- Continue to increase public awareness of FOG (City-wide Goal – Infrastructure)
- No sanitary sewer overflows (City-wide Goal – Infrastructure)

Broadband Fund

The Broadband fund supports the communication needs of the City, local businesses, school district, and residents. Services within this utility are primarily sold and managed through third party service providers. Currently there are over 70 sites within this network and over 100 miles of fiber optic cable. Broadband also supports economic development within Sherwood and the surrounding area.

Overview of Financial Policies

Purpose

In order to carry out the mission of the City of Sherwood and support the City's values, this set of financial policies has been created by the City of Sherwood.

The purpose of these financial policies is to guide in assessing the long-term financial and budget implications of current decisions and to provide a cohesive long-term approach to financial management of the City of Sherwood. These policies establish a means for guiding today's financial decisions in order to achieve the mission of the City of Sherwood in a manner that reflects the City's values.

Goal

The goal of these policies is to provide the financial stability needed to navigate through economic changes, adjust to changes in the service requirements of the community and respond to other changes as they affect the City's residents.

Responsibilities

1. **Stewardship:** The City of Sherwood is a steward of public funds. These funds are entrusted to the City through the payment of taxes, fees, and fund transfers from other governments. The City of Sherwood is responsible for using all funds efficiently and effectively and for the purposes for which they were intended.
2. **Asset Protection:** The assets of the City of Sherwood exist in a variety of forms. All these assets must be protected through an effective accounting and internal control System. The System must track assets and document the costs of acquisition, maintenance, and replacement.
3. **Legal Conformance:** The City of Sherwood is subject to federal, state, and local statutes and rules regarding purchasing, entering into debt, budgeting, accounting, and auditing: regulations that govern virtually all financial transactions. The City also voluntarily enters into contracts which include significant financial and operational covenants. The City of Sherwood is responsible for conforming to laws, rules, and covenants to which it is subject.
4. **Standards:** The Government Finance Officers Association (GFOA) and the Governmental Accounting Standards Board (GASB) set polices and guidelines for public sector accounting and financial reporting. The City of Sherwood is responsible for adhering to the requirements of these organizations and for seeking guidance from policies, standards and best practices set forth by these organizations.
5. **Authority:** The Sherwood City Council is the sole authority for deleting, modifying, or adding to these policies. Every two years, the Council shall engage the Budget Committee to review and update these policies.

Policy 1 - Funds

1. The City of Sherwood will maintain an orderly and logical fund structure that provides stakeholders with ready access to financial information.
2. The City of Sherwood will conform to Generally Accepted Accounting Principles (GAAP) and the Government Finance Officers Association's best practices for establishing and maintaining funds.
3. The City of Sherwood will establish and maintain those funds required by law and sound financial administration. Acknowledging that unnecessary funds result in inflexibility, complexity, and inefficient financial administration, only the minimum number of funds consistent with legal and operating requirements will be established.
4. The criteria for establishing a new fund are variable, but include triggers such as:
 - a. Inauguration of a new dedicated revenue stream and a concurrent service
 - b. The need for increased clarity of financial information
 - c. The establishment of a new enterprise
 - d. Covenants embodied in financing agreements and
 - e. Changes in state law or financial management/accounting standards
5. Only the Sherwood City Council has the authority to create or delete funds. The Council shall create or delete funds by resolution.

Policy 2 - Budgeting

1. The City of Sherwood budget process shall consist of activities that encompass the development, implementation, and evaluation of a plan for the provision of services and capital assets.
2. The purpose of the budget process is to help decision makers make informed choices about the provision of services and capital assets and to promote stakeholder participation in the process.
3. The City of Sherwood budget process shall:
 - a. Incorporate a long-term perspective (minimum three fiscal years)
 - b. Establish linkages to broad organizational goals
 - c. Focus budget decisions on results and outcomes
 - d. Involve and promote effective communication with stakeholders
4. All budgetary procedures will conform to existing state and local regulations. Oregon budget law requires each local government to prepare a balanced budget and Oregon Administrative Rules state:
 - a. The budget must be constructed in such a manner that the total resources in a fund equal the total of expenditures and requirements for that fund, and
 - b. The total of all resources of the municipality must equal the total of all expenditures and all requirements for the municipality.
5. A cost allocation plan will be developed and incorporated into the City of Sherwood budget. The cost allocation plan will be the basis for distribution of general government and internal service costs to other funds, divisions, and capital projects.
6. The Sherwood City Council shall adopt the budget at the fund, division, or program level (as appropriate to each fund) as a total dollar amount for all appropriations except contingency, unappropriated ending fund balance and reserves, which shall be stated separately.
7. Inter-fund Transfers shall be kept to a minimum. Inter-fund loans shall be documented in a resolution that cites the terms of the loan.
8. As part of the annual budget process, the City of Sherwood will maintain a three-year revenue and expenditure forecast. This forecast will be created using an objective, analytical process incorporating applicable projections from the State of Oregon's latest Economic Forecast and conservative assumptions where State developed data is not available. Revenues will be estimated realistically and prudently using best practices as defined by the Government Finance Officers Association. Revenues shall be forecasted conservatively.

Policy 2 – Budgeting (Continued)

9. Oregon budget law provides a means to adjust the budget for emergency expenditures or unforeseen circumstances. All resolutions adjusting the budget will be prepared by the Finance department for City Council approval to ensure compliance with budget laws.
10. Prior to submittal to City Council, the Budget Officer will convene the Budget Committee to review supplemental budget resolutions. If time does not allow for this action, Budget Committee members shall be informed of the City Council’s action on the resolution promptly.
11. A mid-year review process will be conducted by the City Manager and Finance Director in order to make any necessary adjustments to the Adopted budget.
12. In the City’s effort to strive for excellence, the City of Sherwood will make every effort to obtain the Award for Distinguished Budget Presentation from the Government Finance Officers Association (GFOA).
13. Reports comparing actual to budgeted expenditures will be prepared quarterly by the Finance Department and distributed to the City Council, City Manager and Department Directors.

Policy 3 - Revenue

1. City of Sherwood revenues are either unrestricted or dedicated. Unrestricted revenues can be used for any purpose. Dedicated revenues are restricted in the ways they can be used by federal or state regulations, contractual obligations, or by City Council action. The City of Sherwood will adhere to the restrictions applied to dedicated revenues.
2. The City of Sherwood will maintain a diversified revenue stream that is managed strategically to mitigate the impact of short-term fluctuations in any revenue source.
3. The City of Sherwood will identify sustainable revenue levels and, to the extent possible, current operations will be funded by current sustainable revenues.
4. One-time revenues will be used for one-time expenditures or as contributions to reserves and will not be used to pay for established services.
5. The City of Sherwood will not respond to long-term revenue shortfalls with deficit financing and borrowing to support established services. Expenses will be reduced and/or revenues will be increased to conform to the long-term revenue forecasts.
6. During the budget process, the Sherwood City Council will identify those programs which are to be supported in whole or in part by cost recovery and ensure that revenue collections reflect the cost of providing associated services by adjusting fees accordingly.
7. The City of Sherwood will charge fees for services where such an approach is permissible, and where a limited and specific group of beneficiaries who can pay such charges is identifiable.
8. New or expanded unrestricted revenue streams should first be applied to support existing programs. When existing programs are adequately funded, such revenue may be used as contributions to reserves or to fund new or expanded programs.

Policy 4 - Expenditures

Controls

1. By resolutions, the City Council will establish a purchasing policy that conforms to state statutory requirements for purchasing and contracting and invests the City Manager with purchasing and contracting authority.
2. By Budget and Supplemental Budget Resolutions, the City Council shall establish and limit expenditure appropriations by statutory categories. The City Manager shall be responsible for limiting expenditures to those appropriation levels.

Specific Expenditures

1. **Personal Services.** Pursuant to the City Charter, the City Manager or designee is responsible for the management of employee staffing and compensation. The City Manager or designee shall negotiate salaries and benefits for represented employee groups in conformance with the Oregon Public Employees Collective Bargaining Act and the Employee Relations Board decisions and arbitration decisions that emanate from the Act.
2. **Capital Improvement Impacts.** Whenever Capital Improvement expenditures will result in increases to future operating expenses or asset replacement contributions, estimates of those impacts shall be incorporated into the long-term financial plan.
3. **Capital Outlay.** By resolution, the City Council shall define the characteristics of a capital asset by specifying the minimum purchase price and minimum term of service. The City will provide for adequate maintenance of Capital Assets.
4. **Capital Improvement Plan.** The City Manager or designee will prepare a five-year Capital Improvement Plan (CIP) annually and submit it to the City Council for approval via resolution.

Policy 5 - Revenue Constraints and Fund Balance

Nature of Constraints

The City of Sherwood will maintain the following categories of revenue constraints in conformance with GASB 54. Fund Balances shall be accounted for on the basis of these categories.

1. **Non-spendable.** Assets that are not in a spendable form or are required to be maintained intact.
2. **Restricted.** Cash that can be spent only for specific purposes stipulated by third parties or by statutes. Only the constraining party can lift constraints on Restricted funds.
3. **Committed.** Cash that can be used only as directed by formal action of City Council. Council action may be in the form of a motion or resolution. Only the City Council can lift constraints on committed funds. Such a change must be made using the same action that established the constraint.
4. **Assigned.** Cash the City intends to use for specific purposes. The City Council delegates the authority to create this constraint to the City Manager. In addition, for all funds except the general fund, all cash not in one of the Non-spendable, Restricted, or Committed categories, or specifically assigned under this category will, by default, be assigned to this category.
5. **Unassigned.** General Fund cash that is not otherwise categorized fund balance is the residual classification for the general fund and includes all amounts not contained in the other classifications.

Other Considerations

1. **Stabilization.** The purpose of stabilization arrangements is to provide a revenue source to maintain service delivery during periods of diminished revenues. The City may choose to create stabilization arrangements either by creating new funds or dedicating revenues within existing funds. Stabilization arrangements will be created by the City Council and the authorizing legislation shall include the policies on funding and accessing the arrangement.
2. **Order of Use.** If multiple categories of fund balance are applicable to an expenditure, the City shall access funds in the following order: Restricted, Committed, Assigned, Unassigned.
3. **Purpose of Special Revenue Funds.** Special Revenue funds are general government funds created to track the use of dedicated revenues. The City legislation creating a special revenue fund will specify which specific revenues and other resources are authorized to be reported in the fund.
4. **Fund Balance.** Unrestricted fund balance is the sum of Committed, Assigned and Unassigned fund balance in any individual fund. In the General Fund, the City will maintain an Unrestricted fund balance of at least 20% of fund revenue.

Policy 6 - Continuing Disclosure**Continuing Disclosure In General**

Issuers of municipal securities and entities working on their behalf disclose material information to the marketplace such as annual financial information and material event notices. In December 2008, the Securities and Exchange Commission directed the Municipal Securities Rulemaking Board to establish a continuing disclosure service of the MSRB's Electronic Municipal Market Access (EMMA) system effective July 1, 2009. The continuing disclosure service of EMMA collects continuing disclosure documents from the issuer community and makes them available to the public for free through EMMA.

In conformance with the "Continuing Disclosure Certificate" entered into by the City of Sherwood in bond issuances, the City shall comply with Rule 15c2-12 of the Securities Exchange Act of 1934 (Exchange Act). As noted above, these disclosures generally are divided between submissions made to update financial or operating information about the issuer and notices that disclose the occurrence of specific events that may have an impact on the bonds. These disclosures are described below.

City Responsibility

The Finance Director shall be responsible for adhering to the City's Continuing Disclosure Obligations.

Debt

The City will borrow only to finance capital assets. The City will not borrow for operating purposes.

No bonds will mature more than 30 years from the date of issuance. No debt will be issued with a life exceeding the estimated useful life of the capital assets being financed. The City will limit bonded debt to 3% or less of total assessed value, as required by ORS 287.004. Repayment sources are identified for every debt prior to issuance.
