### Process Agreements for Rules Advisory Committee

This is intended to be a creative, brave space where we can think about how best to serve Oregonians with this rule change to remove barrier to access housing resources. To accomplish this, participants are asked to respect the following process agreements:

- **Seek common ground and understand divergence:** Practice “Yes, And” to affirm shared values while building on and expanding ideas. Be clear, yet constructive where you have differing experiences and opinions.
- **Share airtime:** Everyone deserves to be heard, and everyone has a piece of the truth. Challenge yourself to engage in ways that honor the voices and thinking space of others. Practice “W.A.I.T”: ask yourself, **Why am I talking?** Or **Why aren't I talking?**
- **Active virtual participation:** To respect the topic, each other, and to make the most of our time together, please practice active virtual participation to the maximum extent possible. This includes making sure your screen name is accurate, keeping your video on, using chat and Q&A functions, raising your hand to engage in open dialogue, responding to polls, engaging in virtual activities, and minimizing multi- tasking.
- **Take care of yourself:** We strive to facilitate high impact RACs where we use our limited time to the fullest, please do what you need to take care of yourself so you can participate fully and do your best thinking.
