CITY OF SHERWOOD FINANCIAL POLICY

DEPARTMENT: Finance

POLICY STATEMENT: Investment Policy

ORIGINATION DATE: June 19, 2018

RE-APPROVAL DATES: June 18, 2019, June 16, 2020, June 15, 2021, June 29, 2022, June 20, 2023, June 18, 2024, June 24, 2025

REVISION DATES:

I. Purpose

The City of Sherwood ("the City") was incorporated in 1893. As a Council-Manager form of government, it is governed by an elected City Council and Mayor, who in turn appoint a professional city manager to whom they delegate the administration of the City. The City provides law enforcement, public works, library, community services and community development functions to its citizens.

This Investment Policy defines the parameters within which funds are to be invested by the City. This policy also formalizes the framework, pursuant to ORS 294.135, for the City's investment activities to ensure effective and judicious management of funds within the scope of this policy.

These guidelines are intended to be broad enough to allow designated investment staff to function properly within the parameters of responsibility and authority, yet specific enough to adequately safeguard the investment assets.

II. Governing Authority

The City's investment program shall be operated in conformance with Oregon law and applicable federal law. Specifically, this investment policy is written in conformance with ORS 294.035, 294.040, 294.052, 294.135, 294.145, and 294.810. All funds within the scope of this policy are subject to laws established by the state of Oregon. Any revisions of applicable laws shall be automatically incorporated into this Investment Policy immediately upon their effective date.

III. Scope

This policy applies to activities of the City with regard to investing the financial assets of all funds. The amount of funds falling within the scope of this policy over the next three years is expected to range between \$5 million and \$35 million.

IV. General Objectives

The primary objectives, in priority order, of investment activities shall be:

1. Preservation of Invested Capital

Investments shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. The goal is to mitigate credit risk and interest rate risk.

2. Liquidity

The investment portfolio shall remain sufficiently liquid to meet all reasonably anticipated operating requirements. Furthermore, the portfolio shall consist largely of

securities with active secondary or resale markets. A portion of the portfolio also may be placed in the Oregon Short Term Fund which offers next-day liquidity. Where possible and prudent, the portfolio should be structured so that investments mature concurrent with anticipated demands.

3. Return

The investment portfolio shall be designed with the objective of attaining a market rate of return throughout budgetary and economic cycles, taking into consideration the safety and liquidity needs of the portfolio. Although return consists of both principal return (gains and losses due to market value fluctuations) and income return (yield), this policy discourages active trading and turnover of investments. Investments should generally be held to maturity.

V. Standards of Care

1. Prudence

The standard of prudence to be used by investment officials shall be the "prudent person" standard and shall be applied in the context of managing an overall portfolio. Investment officers acting in accordance with written procedures and this investment policy and exercising due diligence shall be relieved of personal responsibility for an individual security's credit risk or market price changes, provided deviations from expectations are reported and appropriate action is taken to control adverse developments within a timely fashion as defined in this policy.

The "prudent person" standard states:

"Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived."

2. Ethics and Conflicts of Interest

Officers and employees involved in the investment process shall refrain from personal activity that could conflict with the proper execution and management of the investment program, or that could impair their ability to make impartial decisions. These employees and investment officials shall disclose any material interests in financial institutions with which they conduct business. Disclosure shall be made to the governing body. They shall further disclose any personal financial/investment positions that could be related to the performance of the investment portfolio. These employees and officers shall refrain from undertaking personal investment transactions with the same individual(s) or firm(s) with whom business is conducted on behalf of the City of Sherwood. These officers and employees shall, at all times, comply with the State of Oregon Government Ethics requirements set forth in ORS Chapter 244.

3. Delegation of Authority and Responsibilities

i. Governing Body

The City Council will retain ultimate fiduciary responsibility for invested funds. It will receive reports, pursuant to, and with sufficient detail to comply with, ORS 294.085 and 294.155.

ii. Delegation of Authority

and internal controls is granted to the Finance Director, hereinafter referred to as the Investment Officer, and derived from ORS 294.035 to 294.053, 294.125 to 294.145, and 294.810.

No person may engage in an investment transaction except as provided under the terms of this policy and the procedures established by the Investment Officer. The Investment Officer shall be responsible for all transactions undertaken and shall establish a system of controls to regulate the activities of subordinate officials.

All participants in the investment process shall seek to act responsibly as custodians of the public trust. No such officer or designee may engage in an investment transaction except as provided under the terms of this policy and supporting procedures.

iii. Investment Municipal Adviser

The City Council may engage the services of one or more external investment managers to assist in the management of the entity's investment portfolio in a manner consistent with this investment policy. Investment advisers may be hired on a non-discretionary basis. All investment transactions by approved investment advisers must be pre-approved in writing by the Investment Officer and compliant with this Investment Policy. - iii. When purchasing original issue instrumentality securities, no competitive offerings will be required as all dealers in the selling group offer those securities as the same original issue price. However, the Investment Officer

is encouraged to document quotations on comparable securities.

- iv. If an investment adviser provides investment management services, the adviser must retain documentation of competitive pricing execution on each transaction and provide it to the City upon request.

VII. Administration and Operations

1. Delivery vs. Payment

Securities will be held by an independent third-party safekeeping institution selected by the City. All securities will be evidenced by safekeeping receipts in the City's name. Upon request, the safekeeping institution shall make available to the City a copy of its Statement on Standards for Attestation Engagements (SSAE) No. 16.

3. Internal Controls

The Investment Officer will establish and maintain a system of written internal controls consistent with this Policy designed to prevent the loss of public funds due to fraud, error, misrepresentation or imprudent actions by third parties or by employees of the City. The internal control structure will be designed to provide reasonable assurance that these objectives are met.

The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived and the valuation of costs and benefits requires estimates and judgments by management.

The internal controls shall address the following points at a minimum:

- i. Compliance with Investment Policy
 - ii. Controls to prevent collusion
 - iii. Separation of transaction authority from accounting and record keeping
 - iv. Custodial safekeeping
 - v. Avoidance of physical delivery of securities whenever possible and address control requirements for physical delivery where necessary

IX. Investment Parameters

1. Credit Risk

Credit risk is the risk that a security or a portfolio will lose some or all of its value due to a real or perceived change in the ability of the issuer to repay its debt. Credit risk will be mitigated by the following guidelines:

i. Diversification

It is the policy of City of Sherwood to diversify its investments. Where appropriate, exposures will be limited by security type, maturity, issuance, issuer, and security type. Allowed security types and Investment exposure limitations are detailed in the table below.

ii. Recognized Credit Ratings

Investments must have a rating from at least two of the following nationally recognized statistical ratings organizations (NRSRO): Moody's Investors Service; Standard & Poor's; and Fitch Ratings Service as detailed in the table below. Ratings used to apply the guidelines below shall be investment level ratings and not issuer level ratings.

iii. Portfolio Average Credit Rating

The minimum weighted average credit rating of the portfolio's rated investments shall be Aa/AA/AA by Moody's Investors Service; Standard & Poor's; and Fitch Ratings Service respectively.

iv. Exposure Constraints and Minimum Investment Credit Ratings

The following table limits exposures among investments permitted by this policy.

Issue Type	Maximum Holdings	%	Minimum Moody's / Fitch	Ratings S&P /
US Treasury Obligations	100%		None	
US Agency Securities	100%	-	-	
Per Agency (Senior Obligations Only)	50%	-	-

Municipal Debt (Total)	10%	-	-	
Municipal Commercial Paper	10%		A1/P1/F1	
Municipal Bonds	10%		Aa/AA/AA	

⁽¹⁾ As authorized by ORS 294.035(3)(d)

⁽²⁾ 35% Maximum per ORS 294.035(D)

⁽³⁾ 5% Maximum per ORS 294.035(D)

v. Determining a Security's Rating

A single rating will be determined for each investment by utilizing the lowest security level rating available for the security from Standard and Poor's, Moody's Investor Services and Fitch Ratings.

vi. Restriction on Issuers With Prior Default History

Per ORS 294.040, the bonds of issuers listed in ORS 294.035(3)(a) to (c) may be purchased only if there has been no default in payment of either the principal of or the interest on the obligations of the issuing county, port, school district or city, for a period of five years next preceding the date of the investment.

2. Liquidity Risk

Liquidity risk is the risk that an investment may not be easily marketable or redeemable. The following strategies will be employed to mitigate liquidity risks:

- The value of at least 25% of funds available for investing or three months of budgeted operating expenditures, whichever is greater, will be invested in the Oregon Short Term Fund, with a qualified depository institution, or in investments maturing in less than 90 days to provide sufficient liquidity for expected disbursements.
- Funds in excess of the above liquidity requirements are permitted to be invested in investments maturing in greater than one year. However,

longer-term investments tend to be less liquid than shorter term investments. Portfolio investment maturities will be limited as follows:

Total Portfolio Maturity Constraints:

Maturity Constraints	Minimum % of Total Portfolio
Under 90 days	Greater of 25% or three months Estimated Operating Expenditures
Under 1 year	35%
Under 5 years	100%

- iii. Reserve or Capital Improvement Project monies may be invested in securities exceeding the maximum term if the maturities of such investments are made to coincide as nearly as practicable with the expected use of the funds.
- iv. Larger issuance sizes enhance liquidity as there are likely to be a greater number of investors. Issuance sizes above a minimum amount qualify a corporate or municipal debt bond issuance for index eligibility. Index eligible bonds have a significantly larger investor base which improves liquidity.
- v. Limiting investment in a specific debt issuance improves secondary market liquidity by assuring there are other owners of the issuance.

Issue Type	Maximum % of Issuance*
US Agency Securities	50%
Corporate Debt (Total)	-
Corporate Commercial	100%
Paper Corporate Bonds	25%
Municipal Bonds	25%

*The par amount issued under a single CUSIP.

3. Interest Rate Risk

Longer-term investments have the potential to achieve higher returns but are also likely to exhibit higher market value volatility due to the changes in the general level of interest rates over the life of the investment(s). Interest rate risk will be mitigated by providing adequate liquidity for short term cash needs, and by making longer-term investments only with funds that are not needed for current cash flow purposes. Certain types of securities, including variable rate securities, securities with principal pay-downs prior to maturity, and securities with embedded options, will affect the interest rate risk profile of the portfolio differently in different interest rate environments. The following strategies will be employed to control and mitigate adverse changes in the market value of the portfolio due to changes in interest rates:

- i. Where feasible and prudent, investment maturities should be matched with expected cash outflows to mitigate market risk.
- ii. To the extent feasible, investment maturities not matched with cash outflows, including liquidity investments under one year, should be staggered to mitigate re- investment risk.
- iii. No commitments to buy or sell securities may be made more than 14 days prior to the anticipated settlement date, or receive a fee other than interest for future deliveries.

- iv. The maximum percent of callable securities in the portfolio shall be 35%.
- v. The maximum stated final maturity of individual securities in the portfolio shall be five years, except as otherwise stated in this policy.
- vi. The maximum portfolio average maturity (measured with stated final maturity) shall be 3 years.

X. Investment of Proceeds from Debt Issuance

- 1. Investments of bond proceeds are restricted under bond covenants that may be more restrictive than the investment parameters included in this policy. Bond proceeds shall be invested in accordance with the parameters of this policy and the applicable bond covenants and tax laws.
- 2. Funds from bond proceeds and amounts held in a bond payment reserve or proceeds fund may be invested pursuant to ORS 294.052. Investments of bond proceeds are typically not invested for resale and are maturity matched with outflows. Consequently, funds within the scope of ORS 294.052 are not subject to this policy's liquidity risk constraints within section IX (2).

XI. Investment of Reserve or Capital Improvement Funds

- 1. Pursuant to ORS 294.135(1)(b), reserve or capital improvement project monies may be invested in securities with maturity dates occurring when the funds are expected to be used (and exceeding five years) when the funds in question are being accumulated for an anticipated use that will occur more than 18 months after the funds are invested, upon the approval of the City Council.

XII. Guideline Measurement and Adherence

1. Guideline Measurement

Guideline measurements will use market value of investments.

2. Guideline Compliance

- i. If the portfolio falls outside of compliance with adopted investment policy guidelines or is being managed inconsistently with this policy, the Investment Officer shall bring the portfolio back into compliance in a prudent manner and as soon as prudently feasible.
- ii. Violations of portfolio guidelines as a result of transactions, the actions taken to bring the portfolio back into compliance, and the reasoning behind the actions taken to bring the portfolio back into compliance shall be documented and reported to the City Council.
- iii. Due to fluctuations in the aggregate surplus funds balance, maximum percentages for a particular issuer or investment type may be exceeded at a point in time. Securities need not be liquidated to realign the portfolio; however, consideration should be given to this matter when future purchases are made to ensure that appropriate diversification is maintained.

XIII. Reporting and Disclosure

1. Compliance

The Investment Officer shall prepare a report at least quarterly that allows the City Council to ascertain whether investment activities during the reporting period have conformed to this investment policy. The report will include, at a minimum, the following:

- i. A listing of all investments held during the reporting period showing: par/face value; accounting book value; market value; type of investment; issuer; credit ratings; and yield to maturity (yield to worst if callable)
- ii. Average maturity of the portfolio at period-end
- iii. Maturity distribution of the portfolio at period-end
- iv. Average portfolio credit quality of the portfolio at period-end
- v. Average weighted yield to maturity (yield to worst if callable investments are allowed) of the portfolio
- vi. Distribution by type of investment
- vii. Transactions since last report
- viii. Distribution of transactions among financial counterparties such as broker/dealers
- ix. Violations of portfolio guidelines or non-compliance issues that occurred during the prior period or that are outstanding and actions (taken or planned) to bring the portfolio back into compliance.

2. Performance Standards/ Evaluation

At least annually, the Investment Officer shall report comparisons of investment returns to relevant alternative investments and comparative Bond Indexes. The performance of the portfolio should be compared to the performance of alternative investments such as available certificates of deposit; the Oregon Short Term Fund; US Treasury rates; or against one or more bond indices with a similar risk profile.

When comparing performance, all fees and expenses involved with managing the portfolio shall be included in the computation of the portfolio's rate of return.

3. Marking to Market

The market value of the portfolio shall be calculated at least quarterly and a statement of the market value of the portfolio shall be issued at least quarterly.

4. Audits

Management shall establish an annual process of independent review by the external auditor to assure compliance with internal controls. Such audit will include tests deemed appropriate by the auditor.

XIV. Policy Maintenance and Considerations

1. Review

The investment policy shall be reviewed by the Investment Officer at least annually to ensure its consistency with the overall objectives of preservation of principal, liquidity and return, and its relevance to and compliance with current law and financial and economic trends.

The annual report will also serve as a venue to suggest policies and improvements to the investment program, and shall include an investment plan for the coming year.

2. Exemptions

Any investment held prior to the adoption of this policy shall be exempt from the requirements of this policy. At maturity or liquidation, such monies shall be reinvested as provided by this policy.

3. Policy Adoption and Amendments

This investment policy and any modifications to this policy must be formally approved by resolution of the City Council. This policy must be submitted to the Oregon Short Term Fund (OSTF) Board for review if:

This policy allows maturities beyond 18 months unless the funds are being accumulated for a specific purpose, including future construction projects, and upon approval of the City Council, the maximum maturity date matches the anticipated use of the funds. ORS 294.135(1)(b) and 294.135(3).

And either:

- A. This policy has never been submitted to the OSTF Board for comment;

Or

- B. Material changes have been made since the last review by the OSTF Board.

Regardless of whether this policy is submitted to the OSTF Board for comment, this policy shall be re-submitted not less than annually to the City Council for approval.
