Daniel George,

On November 11, 2025, Pacific Wood Laminates, Inc (PWL) submitted a request to DEQ for an extension of the deadline for submittal of the Cleaner Air Oregon (CAO) Emissions Inventory (Inventory). PWL proposes a forty-five (45) day extension to the deadline of the Inventory, requesting a new due date of January 19, 2026.

DEQ may grant an extension based on the criteria set in OAR 340-245-0030(3), which require sources to demonstrate progress towards completing the submittal and show that a delay is necessary for good cause. DEQ understands that PWL has demonstrated progress on the Inventory by submitting a progress status update, completing emissions data for major units, calculations for the boiler, dryers, and presses, as well as completing the dioxins and furans calculations. Further, and given the staffing issues detailed in the extension request, DEQ agrees that a delay may be necessary in order for PWL to accurately finalize the remaining calculations for spray coating and plywood layup activities and the associated write-up.

For these reasons, DEQ approves PWL's request and grants a 45-day extension from the original submittal deadline of December 4, 2025. PWL's Inventory must be submitted by no later than **January 19, 2026**.

DEQ remains available to meet with PWL or provide feedback via email. Please contact me directly at 971-263-9350 or Dana.Corkill@deq.oregon.gov, if you have any questions regarding this letter or CAO submittal requirements. I look forward to your continued assistance with this process.

Sincerely,

Dana Corkill

Dana Corkill
CAO Project Engineer
